

COMPANY PROFILE

OTE & COSMOTE

OTE is the incumbent telecommunications provider in Greece and together with its subsidiaries forms one of the leading telecom groups in Southeastern Europe. Besides Greece, the Group operates in the markets of Romania and Albania. The OTE Group provides a full range of telecommunications services, from fixed-line and mobile telephony, broadband and pay TV services, to high-speed data communications and leased line services.

OTE offers modern and quality communications with state-of-the-art telephony and data networks together with more than 35,000 kilometers of optical fibres, numerous satellites, underwater and terrestrial international links with all corners of the globe. With the gradual replacement of the copper network with optical fibre and by means of VDSL technology, OTE can now provide 1 million broadband connections of up to 50 Mbps. With regard to mobile telephony, COSMOTE continues to invest in further upgrading its extensive 3G network, while it was the first to commercially launch 4G services in the Greek market. The network already covers 55% of the population.
