# ANALYSIS OF THE CONSOLIDATED RESULTS 1/1/2006 - 31/3/2006

## 1. TURNOVER

Consolidated turnover amounted to € 247.05 million in Q1 2006 versus € 195.1 million in the same period last year, posting a growth of 26.6%. The particular growth was due to stronger business activities in every segment of the Group, both domestically and abroad.

More specifically, retail sales posted a growth of 14.8% and amounted to €135.6 mil. Wholesale activity rose by 41.2% with its revenues reaching € 93 million. Finally, the industrial sector generated revenues of € 16.7 million, higher by 65.3% as compared to the same period last year.

A special note must be made for the constantly growing revenues, which the Group generated in markets other than Greece. Revenues from foreign markets contributed 33.1 %, to total turnover versus 26.1% in the same period last year.

### 1.1 RETAIL

Revenues generated from the Group's major activity increased by 14.8% amounting to €135.6 million, as compared to €118.1 million in the first quarter last year.

Specifically, airtime, which increased by 30.8%, had a significant contribution to this income category, mostly attributed to post-paid connections that in turn increased by 38.8% exceeding €16 million.

Furthermore, the contribution of connection fees, which amounted to € 61.4 million from €57.1 million previously, up by 7.5%, was also a significant contributor to this income category. The increase was attributed to the higher number of connections in Greece (due to transfer of subscribers from pre-paid to post-paid contracts), as well as the significant growth of the Group's stores in the foreign markets.

### **1.1 RETAIL (cont.)**

Income from target bonus reached €8.5 million higher by 6.3%.

The sales of handsets increased by 17.4% and amounted to € 26.3 million from €22.4 million in the first quarter last year.

Income from electronic products reported a significant increase of 43.6%, amounting to €14.5 million, a trend that demonstrates the constantly increasing market share of GERMANOS Group in this product category.

### **1.2 DISTRIBUTION NETWORK OF CONSUMER PRODUCTS**

Income from the distribution network of consumer products demonstrated a significant growth by 41.2%, reaching €92.8 million, a trend attributed to the positive contribution of pre-paid cards, which sales reached €86.5 million. It is worth noting that the Group has expanded this activity to the markets outside Greece.

### **1.3 INDUSTRIAL**

Sales from industrial activity increased by 65.3%, amounting to €16.7 million. It is worth noting that the downward trend observed in the profit margin of this category is attributed to the product mix change and to markets characterized by lower profit margins.

### **2. GROSS PROFIT MARGIN**

Gross profit margin for the period reached 20.7% from 22.9%, a trend attributed to the stronger contribution of wholesale activity as well as to the higher participation of non-Greek subsidiaries to total turnover. Their participation reached 33.1% from 26.1% during the first quarter of the previous year.

### **3. EARNINGS BEFORE INTEREST, TAXES DEPRECIATION AND AMORTISATION (EBITDA)**

Earnings before Interest, Tax, Depreciation and Amortization increased by 14.05% reaching €22.06 million from €19.34 million in 2005, continuing the strong growth observed over the past years. It is worth noting the constant decline of operating expenses as percentage of turnover, a trend that implies strong economies of scale for the Group.

#### **4. NET FINANCIAL EXPENSES**

The financial results of the Group amounted to €13.85 million with their largest part concerning capital gains from the sale of participation in SILKWAY (Unitel, Uzbekistan). This amount also includes the total interest expenses of the Group, with the largest part of this category concerning the Corporate Bond issued by the Company for the acquisition of HDF5.

#### **5. INCOME FROM AFFILIATED COMPANIES**

This category includes -based on the net equity method- the profit deriving from the consolidation of HDF5 and SILKWAY (Unitel, Uzbekistan). Specifically, profit attributed to HDF5 (participation 24.68%) reached € 1.35 million. It is reminded that the Company sold its entire participation in HDF5 (May 2006), an outcome that will appear in first half financial statements.

Participation (20%) in SILKWAY, which is a mobile telephony operator in the market of Uzbekistan, contributed € 0.32 million. It is also reminded that the Company announced the sale of this participation (09/02/2006).

#### **6. EARNINGS BEFORE TAXES ( EBT)**

Earnings before tax for the Group increased by 135% reaching €31.8 million from €13.5 million in the first quarter 2005. The main factor behind this surging profitability was the capital gain resulting from the sale of the participation in SILKWAY.

If we don't take into account the earnings from the participation in Unitel, as well as the earnings from HDF5, EBT increased by 15.7% reaching €13.5 millions from €11.66 millions in Q1 2005

#### **7. EARNINGS PER SHARE (EPS)**

Finally, earnings per share for the company reached €0.31 from €0.12 higher by 151%, an increase that was mainly due to the capital gains generated from the sale of participation in SILKWAY.
