1H Profitability reaches new highs

2Q Attributable Profit marches ahead

- ▶ Attributable PAT for the quarter closes at €296m, up 18% qoq
- ▶ Absence of trading income in 2Q due to challenging market conditions is more than offset by the gain on the sale of ABNY (€111mn post tax)
- ▶ 1H attributable PAT grows +65% over 1H 2005, or 40% yoy excluding the effect of one-off items
- ▶ RoE before one offs hits new record highs: +200bps over 1H 2005, resting at 30% for the first half of 2006
- ▶ Including one-offs, RoE improves further to 34.5%

NIM growing strong and NII continues to rise

- ▶ Group NIM jumps by 14bps qoq to reach 3.47%, its highest level ever
- ▶ NII continues to rise driven primarily by a sharply widening core deposit spread and the lending mix effect, posting a +7% qoq (+17% yoy) growth to €459m

Finansbank: finalization of the acquisition of a 46% stake

- ▶ The completion of the acquisition of the controlling stake paves the way for the mandatory offer to the minorities, for the remaining 44.3% of the ordinary shares
- ▶ With FIBA holding maintaining a 9.7% stake, we are guaranteed to get a minimum 50% plus one share ownership upon completion

P&K Securities: agreement to acquire a leading domestic brokerage firm

- ▶ Upon completion, the new entity will command a by far leading position in the domestic brokerage market, and foreign & domestic institutional clients will top 3,000
- ▶ In line with NBG's vision of becoming a leading SEE player, the new entity will be set to expand aggressively in the SEE region, capitalizing on NBG's developing franchise in Turkey, Bulgaria, Romania and the rest of SEE
- ▶ Multiple synergies for the new scheme will relate to investment banking services in the private sector, crossselling to P&K clients and enhanced utilization of NBG's network

Astir Palace Hotel: management contract to Starwood

SEE: strong organic growth and rigorous pursuit of M&A options on track to yield regional leadership

SEE Highlights

- ▶ Organic growth continues in SEE in 1H, with our total lending portfolio growing by 54% yoy despite the negative impact of restrictions imposed by the central banks of Bulgaria, Romania and Serbia
- ▶ While growing our balance sheet in the region, we maintain and improve credit quality reflected in the NPL ratio for our SEE operations which improved by a further 50bps over FY 2005 (at 6% for 1H)
- ▶ We maintain a very prudent provision coverage for the region, increasing it by 5pp to 80%
- ▶ In tandem with our organic growth plans, we actively pursue M&A options, which has pushed our SEE costs higher for the quarter
- ▶ Despite this temporary cost increase, SEE maintains its profitability contributing a further €52mn (PBT) to the Group for 1H, a 28% yoy increase
