Company Overview

- Alapis operates a diverse group of businesses in the medical equipment, veterinary products, pet accessories, detergents, cosmetics, and organic product markets with a long-term focus on vertically integrating its pharmaceutical business
- The Company was formed following the recent merger by absorption of Lamda Detergent S.A. ("Lamda Detergent" or "Lamda"), EBIK S.A. ("EBIK") and Elpharma S.A. ("Elpharma") by Veterin S.A. ("Veterin")
- The integration of these businesses provides a significant opportunity to generate synergies in sales & marketing, sourcing, manufacturing and distribution logistics
- On a consolidated pro forma basis, Alapis reported
 - For fiscal year 2006: revenue of €273.5 million and EBITDA of €46.1 million
 - For H1'07: revenue of €163.5 million and EBITDA of €45.6 million

Platform for maximization of synergies and future expansion

Key Shareholders and their Holdings

Key Investment Highlights

Favourable Market Dynamic

- Strong regional GDP growth to fuel increasing consumption
- Consolidation opportunities in highly fragmented markets with growth potential
- Opportunity in the domestic generic pharmaceuticals market

Broad Product Portfolio

- Broad range of products across important categories spanning detergents, cosmetics, pharmaceuticals, medical devices and organic products
- Different product segments share distribution channels and end markets enabling differentiation through bundling

Operating Excellence

- High quality manufacturing capabilities with significant capacity to increase output with limited capital expenditure impact
- High quality manufacturing, integrated logistics, and sales & marketing infrastructure

Long-Term Relationships

- Long-standing partnerships with multinationals
- Close relationships of trust with broad range of customers
- Strong relationships with key suppliers

Financial Performance

- Revenue growth and margin improvement
- Profitability and cash flow generation
- Past and future M&A expected to drive both organic and synergy-driven revenue growth and cost synergies

Proven Management

- Capable, experienced and successful team with complementary backgrounds
- Experienced management in identifying acquisition opportunities and integrating them into existing businesses

1. Introduction

2. Market and Business Overview

A. Human Health

B. Veterinary & Animal Products

C. Detergents & Cosmetics

D. Organic Products

3. Business Strategy

4. Financial Overview

Favourable market dynamics

- Large market – c. US\$5.4bn ^(a) in Greece
 - 92% prescription ^(b)
 - 8% OTC ^(b)
- Robust growth (2006-11 CAGR)
 - Pharmaceutical – c. 6% ^(a)
 - OTC – c. 10% ^(a)
- Fragmented sector with numerous small local competitors

Underpenetrated sector

- Imports dominate market – c. 71% ^(a)
- High barriers to entry
 - Local knowledge and customer relationships critical
 - Need for efficient infrastructure
- Local competitors lack critical mass
 - Face financial problems limiting their ability to grow
- Generics market underpenetrated compared to other European countries
 - Greek government sets mandatory product price which applies to both originators and generics
 - Without differential pricing, the ability to bundle products is beneficial

(a) Source: Business Monitor International, "Greece Pharmaceuticals & Healthcare Report", Q1'07

(b) Health Spending & Resources – OECD June 2006

Highly attractive and underserved market

Market dynamics

- Sizable market in Greece – c. US\$1 bn ^(a)
- Steady growth – c. 4% (CAGR 2007 -11) ^(a)
- Diverse product offering e.g. includes syringes, implants and equipment
- Market dominated by imports from multinationals – approx. 95% ^(a) of total market

Interdependence between multinationals and local distributors

- Broad range of products from multiple manufacturers
- Multinationals generally lack local relationships to distribute directly
- Large number of local competitors provide relationships with hospitals
- Smaller local suppliers face financial impediments to growth

(a) Source: Medical Device Outlook – Greece – Espicom Business Intelligence, QIII 2006

Import market relies on local suppliers with relationships with hospitals

- Division markets products to public & private hospitals, clinicians, and pharmacies across Greece on behalf of multinationals
- Targeted sales force of 25 representatives with strong relationships with customers
- Sourcing from multinationals including:
 - Pharmaceuticals: Boehringer Ingelheim, Merck, Actavis, Kedrion, Madaus
 - Medical devices: Gambro BCT, Given Imaging, Medicult, Sorin, Terumo, Toray

Well positioned to benefit from favourable dynamics in the sector

Market Overview – Veterinary Pharmaceuticals and Pet Accessories

Veterinary Pharmaceuticals

- Modest growth expected in Greece with stronger growth in neighbouring markets
- Market dominated by major international animal health companies who utilise local companies to distribute products
- Local competitor market is highly fragmented
- Generic products becoming increasingly important as consumers try to reduce costs

Pet Accessories

- Approx. €80 million market in Greece ^(a)
- Highly concentrated with Alapis and Pet Line as the largest competitors ^(a)
- Products sourced locally and from international manufacturers
- Products sold through pet shops, supermarkets and independent retailers

- Local partner for leading multinational animal health companies in Greece, Romania, and Bulgaria
 - Partners include Bayer and Pfizer
- Provide distribution through own network of 78 sales representatives who serve over 5,000 customers
- High quality manufacturing capabilities
 - Veterinary pharmaceuticals
 - Nutritional supplements
- Supply wide range of products for companion animals and livestock
- Market leader along with Pet Line^(a)
- Expansion in Southeastern Europe on track

Strong relationships with multinational animal health companies in Greece, Romania and Bulgaria

Southeastern Europe

by Product Market ^(a)

by Country ^(a)

- Substantial market for cosmetics and detergents in Southeastern Europe
 - Greece: c. €2.1 billion ^(b)
 - Southeastern Europe (ex Greece): c. €1.5 billion ^(c)
- Multinationals who own majority of brands seeking to source locally to reduce costs
 - Few local competitors with capabilities to service demand
- Private label market is under-developed
 - Only 5.3% penetration (household care market) ^(d)

Import substitution is the key driver

Division Overview – Detergents & Cosmetics

Breakdown – Revenues (H1 2007)

by Product

Total sales: €67.1m
EBITDA: €17.1m

- Alapis is a leading manufacturer of liquid and powder detergents for multinationals and private labels
- High-quality low-cost manufacturing facilities with significant capacity to satisfy increasing demand
- Strong long-term relationships with customers and track record of performing
 - Multinationals: including Unilever, Henkel, Sara Lee, Ecolab and Johnson Diversey
 - Private label: major supermarket chains
- Large product range – approx. 150 product lines and approx. 800 product codes

Cash generative platform with relationships with multinationals providing opportunity for cross-selling synergies

Strong growth drivers

- Overall growth of organic produce has exceeded that of total food market ^(a)
- Increasing health awareness in Greece
- Changing tastes among consumers increasing demand for organic products
- Organic food underpenetrated in Greece:
 - 1-1.5% of total food market in Greece ^(a)
 - 2.5-3% in Europe ^(a)

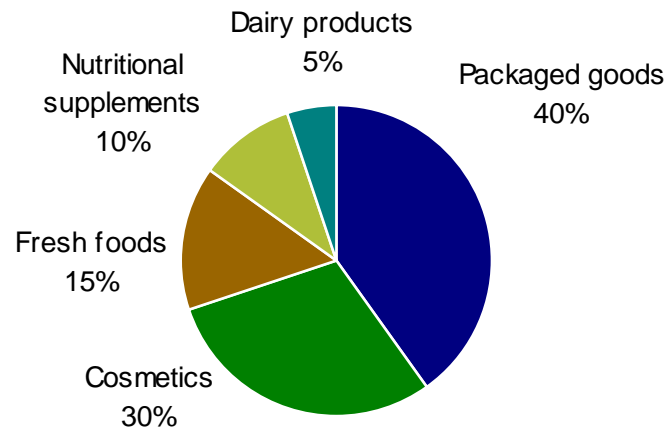

Rapidly changing landscape

- Number of certified producers of organic produce have doubled over the last two years ^(a)
- Historical dominance of independent retailers
- Supermarkets are becoming increasingly important
- Greater range of organic products becoming available, e.g. cosmetics
