Restructuring:

The Group has completed the negotiations with its lenders in order to secure the continued future operations of the Company and its subsidiaries. The agreement and the actions related to it have been approved by the Extra-ordinary Shareholders' General Assembly of the Company that was held on 17 December 2010 & 10 January 2011 and renewed to the Second Extraordinary General Assembly that was held on 20 June 2011.

The Second Extraordinary Shareholders' General Assembly of January 10, 2011 also decided to reduce the share capital by the amount of EUR 33,661,303.16 Euros by reducing the nominal value of shares from 0.76 Euros to 0.30 Euros.

As a result, the company's share capital amounts to EUR 21,953,023.80 divided into 73,176,746 ordinary shares of nominal value 0.30 Euros each.

For the agreement to be completed a number of actions are required (e.g. transfer of debt from subsidiaries to the Company) that the Company and its Management have already and continue to undertake. The agreement also includes a number of conditions subject to approvals from the Shareholders' General Assembly and the

relevant Authorities. The Company and its Management estimate that the entire process will be finalized shortly.

Management believes that the signing of the agreement effectively puts an end to the uncertainty surrounding the Company and the Group.

Outlook

In 2011, the Group is among the first in the Greek market to benefit from the gradual resumption of the economic activity around the world and its international presence, its improved operational and cost structure, and a restructured balance sheet as a result of the agreement with its lenders.

In the second half of 2011, the Group expects to continue its upward trend, which, due to its international presence, is directly related to the recovery in global economic activity. Its improved operational and cost structure, and a restructured balance sheet, as a result of the agreement with the lenders, remain important priorities for the Group.
