Bank of Cyprus Public Company Ltd (the 'Bank' or 'Bank of Cyprus') notes the announcements made today by the European Banking Authority ('EBA') and the Central Bank of Cyprus regarding the information of the EU-wide Transparency Exercise 2013 and fulfilment of the EBA Board of Supervisors decision.

Background 2013 EU-wide Transparency Exercise

In May 2013 the EBA adjusted the timeline of the next EU-wide stress test so to conduct the exercise in 2014 once the asset quality reviews are completed. However, to ensure transparency and comparability over the years, the EBA's Board of Supervisors (BoS) decided to provide, in the second half of 2013, appropriate disclosure on the actual exposures of the EU banking sector. In its October meeting the BoS agreed on the form and scope of the transparency exercise to be conducted in November / December 2013 to assure a sufficient and appropriate level of information for market participants.

The sample of the exercise includes 64 banks and for each of them the following set of information was collected for disclosure:

- I. Composition of capital
- II. Composition of RWA by risk type
- III. Exposures to sovereigns (central, regional and local governments) in EEA (direct and indirect exposures by maturity buckets and country)
- IV. Credit risk exposures (defaulted and non-defaulted) and RWAs by country with breakdowns for Institutions, Commercial RE, Retail and Corporate; displayed by regulatory approach (AIRB, F-IRB, STA)
- V. LTV per portfolio, value adjustments and provisions
- VI. Market risk and securitisation exposures

Notes and definitions

(1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees

(2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions the economic substance over the form must be used as a criteria for the identification of the exposures to be included in this column. This item does not include exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments.

Notes and definitions

(1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparts with full or partial government guarantees

(2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(3) The exposures reported include the positions towards counterparts (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions the economic substance over the form must be used as a criteria for the identification of the exposures to be included in this column. This item does not include exposures to counterparts (other than sovereign) with full or partial government guarantees by central, regional and local governments.

Explanatory footnotes

The differences in the figures between December 2012 and June 2013 are due to the merge with Laiki Bank and the elapse of time.
