The Equity Offering is implemented through an international book-building process outside Greece to qualified and other eligible investors and through a public offering in Greece. As it was announced by Piraeus Bank on 26 March 2014, the international book-building addressed to qualified and other eligible investors was successfully completed. As a result, the whole Equity Offering was subscribed through the book-building process.

Pursuant to the relevant resolutions of the Extraordinary General Meetings and subject to the receipt of all necessary regulatory approvals, up to 102,941,176 new ordinary shares (10% of the Equity Offering) will be offered to retail and institutional investors in Greece through a public offering at the same price of €1.70 per share. Allocations to investors in the international book-build shall be adjusted to accommodate the shares subscribed for in the Greek public offering, such that the total proceeds raised from the institutional book-build and the Greek public offering shall aggregate in the amount of €1.75 billion and a total of 1,029,411,764 new ordinary shares will be issued.

The Greek public offering is expected to take place during the first 10 days of April 2014, subject to obtaining the relevant approvals from the regulatory authorities. Details will be provided with a later announcement.

Upon completion of the Equity Offering, the EBA Core Tier 1 Capital of Piraeus Bank Group will be amounted to €9.9 billion, with EBA Core Tier 1 ratio standing at the very high level of 16.8 % (pro-forma). Upon the completion of the Equity Offering Piraeus Bank will achieve to:

- repay in full the outstanding principal amount of €750 mn of the special preference shares, enhancing substantially the quality of its regulatory capital;
- expand private shareholder participation and increase of the free float of its ordinary shares, making an important step towards the privatization of the Bank.
