COMPANY PROFILE

The TERNA ENERGY SA Group of companies is a Greek group of companies mainly engaged in the energy and construction sector. The Group's activity in the energy sector is related to the construction and exploitation of renewable sources of wind and hydroelectric energy as well as to the operation of photovoltaic parks. The Company is also engaged in the research for the operation and construction of projects related to other renewable energy sources (RES).

TERNA ENERGY has a class 6 contractor certificate and its activity in the construction sector relates to the construction of private and public projects as a main contractor or subcontractor or through joint ventures. Based on the Greek legislation in effect, companies who hold a class 6 certificate, undertake public works with an initial contracting price from €5.25 to €44.00 million or up to €60.00 million through joint ventures and private or self-financed independently budgeted, either as main contractors or as sub-contractors or through joint ventures. The Group's total installed capacity accounts for 664 MW. The Group has installations of 394 MW in Greece, 138 MW in the USA, 102 MW in Poland and 30 MW in Bulgaria. At the same time, the Group has RES installations currently under construction or ready for construction with a capacity of 274 MW, in Greece and abroad. Overall, the Company operates, is constructing or has full licensing of 938 MW of RES installations in Europe and America. The Company is targeting to reach almost 1,000 MW of RES projects in operation in all countries where it operates over the following years.
