Space Hellas Triple Award at the “Cisco Partner Awards 2021”

Space Hellas was awarded with the important distinctions «Technology Excellence: Security», «Technology Excellence: Service Provider» and «Technology Excellence: Networking & Cloud» at the Cisco Partner Awards 2021, the annual award institution established by Cisco, for associates from Greece, Cyprus and Malta

Space Hellas was distinguished at the specific technology sectors for its high expertise and innovation in Cisco solutions, its performance, but also for the results achieved in 2020.

“We warmly thank our customers for their continuous trust in a very difficult year, during which the strengths and endurance of all of us have been tested hard”, said Dr Ioannis Mertzanis, CEO of Space Hellas. “The fact that we were awarded by Cisco for excellent business performance in critical sectors, such as Cybersecurity, Service Provider and Networking & Cloud, in a year of rapid development, particularly in these sectors, means something very important to us. It is the result of hard work and effort to always be ahead of developments and to achieve the same for our customers. We will continue to further deepen our valuable and exemplary partnership with Cisco, solely aiming at the benefit of our customers”.

Space Hellas is a Cisco Gold Certified Partner counting over 20 years of cooperation. Its perfectly certified staff has a high level of specialization, which offers a great competitive advantage in the design and successful implementation of complex ICT projects. Space Hellas is the best option for companies wishing to invest in innovative technologies and evolve digitally.
