

NBG Securities

Investment Services with Expertise, Quality and Safety that meet Customers' changing needs.

NBG Securities is a leading investment services firm in Greece and the Brokerage arm of National Bank of Greece (NBG), one of the largest financial groups in the country. Its extended client base of international and domestic institutional clients as well as retail investors receive top quality execution services from a single trade to large block trades and complex orders. NBG Securities Research department has received numerous awards over the years and is comprised of a team of highly-regarded senior analysts that cover a broad range of companies listed on the Athens Stock Exchange (accounting for c.80% of the total market cap). The Research department conducts numerous "1 to1" meetings with institutional investors and organizes company roadshows as well as reverse roadshows to keep its clients up-to-date with developments in the Greek corporate, political and macroeconomic environment.

NBG Securities' aim is clearly defined in its mission statement: To offer investment services with expertise, quality and safety, that meet customers' changing needs. This target is backed by talented personnel, a strong capital base and robust systems. Customer satisfaction, quality of services, expertise and innovation, guarantee results and define the company's culture and market positioning as a leading player.
