Unique distinction for Space Hellas, Microsoft Advanced Specialization «Linux and Open Source Databases Migration to Azure»

Space Hellas, one of the largest Cloud solutions providers, Microsoft Gold Partner in Greece, Cyprus and Malta, is pleased to announce the achievement of the distinguished Microsoft Advanced Specialization in «Linux and Open Source Databases Migration to Azure».

The «Linux and Open Source Databases Migration to Azure» Advanced Specialization places Space Hellas in the ecosystem of the most technologically advanced Microsoft partners, worldwide. This distinction renders Space Hellas the only Microsoft partner in Greece, Cyprus and Malta and ranks it among the 17 leading companies in the world that meet the strict criteria for earning this specialization, that demonstrates deep knowledge, extensive experience and proven success in migrating Linux and Open Source Databases to Microsoft Azure.

Socrates Costicoglou, IT Applications and R&D Director of Space Hellas, stated:
"This unique distinction is the culmination of a clear Cloud First strategy of Space Hellas, having implemented and supported in recent years some of the largest projects of digital transformation and migration to the Cloud, in Greece, Cyprus and Malta. The Advanced Specialization for Linux and Open Source Databases Migration to Azure, is the result of a great teamwork, extensive knowledge and staff skilling, proven experience and expertise and constitutes a great competitive advantage for our company. It demonstrates our ability to provide best-in class specialized services to our customers and support them throughout their journey in the Cloud, in the most effective way."

Albertos Bourlas, Commercial Partners Director of Microsoft Greece, Cyprus and Malta, commented in this regard: *«The acquisition of Linux and Open Source Databases Migration to Microsoft Azure Advanced Specialisation is a validation of Space Hellas' specialization in open code software environments (Red Hat Enterprise Linux, MariaDB, PostgreSQL, MySQL and NoSQL databases) and its experience in a seamless and secure transition to Microsoft Azure. This nomination is a commitment to Space Hellas customers for the flexibility, scalability and integrity of their business data, performing a successful relocation to the Cloud.*
