The gross profit of consolidated sales remains about the same level as in previous year despite the significant increase in transportation costs which has increased the cost of imports but was offset by the positive effect of the EUR / USD exchange rate since the Company imports a significant amount from China which are invoiced in US Dollars (USD).

The effects of the Covid-19 pandemic had a negative impact on the financial results of the first half of 2021 where the Group presented sales reduction - 6,9%. Regarding the second half of 2021, the effects of the energy crisis and the Covid-19 pandemic are estimated to have a small impact on the financial results of the Group, but Management remains cautious about the possible negative financial effects of the energy and/or the Covid-19 pandemic.

Based on the data available at the time present time, Management estimates that there is no substantial uncertainty until the end of the current year regarding the continuation of business activity, the Sales and the supply chain of both the parent Company and the individual entities belonging to the Group. The Company has strong liquidity, available bank financing limits with no precarious risks to date.
