

Press Release | 07 February 2022

Certification of Epsilon Training by Microsoft
as a "Microsoft Certified Technical Learning Partner"

Epsilon Net Group, announces the certification of **Epsilon Training** (Group's business unit for the provision of educational services to professionals and business executives) by **Microsoft**, as the official technical education institution "**Microsoft Certified Technical Learning Partner**". The important recognition, concerns the provision of Certified Technical Training Programs for all Microsoft products and technologies, such as: **Azure, SQL Server, SharePoint Server, Windows Server, Exchange Server, Microsoft Security, Visual Studio, Office 365**.

This certification, is a key point in the Group's strategy to provide integrated solutions to technology and digital transformation issues, confirms the high level of experience and know-how of its executives and its ever-increasing potential in the fields of innovation and development. All training programs, which will be implemented by certified **Microsoft Certified Trainers (MCTs)** instructors, are addressed to ITs professionals, Developers in **Greece & Cyprus** but also to executives who want to evolve in the relevant fields of technology. A parallel goal of Epsilon Training is the gradual development of online educational programs for the region of **Southeastern Europe**.

Participants in the training programs, will receive the official **Microsoft Official Courseware (MOC)** training material and will make practical use of the **Online Labs of Microsoft Official Courseware**. Participants will be provided with a **Microsoft Partner Network Student Certificate** for each training program. while after the completion of the relevant cycle of training programs, they will be able to obtain, through an examination process, the corresponding **professional certification of Microsoft**. All educational programs can be implemented face-to-face, through the two training centers of the Group, in Athens and Thessaloniki, but also online, through a certified training platform.

Director of Epsilon Training, Mr. Valantis Billis, stated: *"The certification of Epsilon Training as a Microsoft Certified Technical Learning Partner is extremely important for us, as it reflects in practice our effort to continuously improve and provide the highest level of services. It is our commitment to our customers and partners to offer a top-notch training experience in Microsoft's technologies in order to contribute together to the digital transformation of the Greek economy"*.

For this collaboration, **Mr. Albertos Bourlas, Director of Commercial Partners of Microsoft Greece, Cyprus and Malta**, stated: *"We welcome the inclusion of Epsilon Net in the program of the wider network of Microsoft's*

educational partners, through which it will be able to provide official trainings (Microsoft Official Courses) and certifications in our company's products using certified trainers (Microsoft Certified Trainers). With the need for digital transformation in companies and partners increasing more and more and in combination with the National Recovery and Resilience Plan, the development of the network of educational partners is an important arm for the implementation of Microsoft's "GR for Growth" initiative, which aims, among other things, to upgrade digital skills".
