

PRESS RELEASE

Brussels, 26 September 2022

Corinth Pipeworks is awarded Fenix offshore gas field in Argentina by TotalEnergies

Cenergy Holdings announces that Corinth Pipeworks, its steel pipes segment, has been selected by TotalEnergies and his Partners (WintershallDea and Pan American Sur) to manufacture and supply approximately 40km of 24" longitudinally submerged arc welded steel pipes for the Fenix Phase 1 gas export pipeline.

The Fenix gas field is part of the Cuenca Marina Austral (CMA-1) license, operated by Total Austral in Tierra del Fuego, Argentina since the 1990's, one of the world's most southern offshore development locations. Fenix will be the latest addition, developed with a minimum wellhead platform, and sending production towards the Vega Pleyade platform for subsea connection to the existing pipeline to onshore.

The pipes will be manufactured in Corinth Pipeworks' facilities in Greece, and installation work will commence according to schedule in 2023. Scope of supply also includes external 3LPE anti-corrosion coating and concrete weight coating applied at the same location as pipe manufacturing in Thisvi, Greece.

Corinth Pipeworks' CEO, Ilias Bekiros noted: *"We have made fantastic progress in offshore markets in recent years we look forward to working with the TotalEnergies team in Argentina to make sure this is a successful project."*

About TotalEnergies in Argentina

TotalEnergies has been operating in Argentina since 1978, through its Total Austral affiliate, and is the country's leading international gas producer, with some 25% of production. The Company's equity shares of production averaged 81,000 barrels of oil equivalent per day in 2021. In Tierra del Fuego, alongside partners WintershallDea (37.5%) and Pan American Sur (25%), TotalEnergies (37.5%) operates the Cuenca Marina Austral 1 (CMA-1) concession, which includes the onshore Ara and Cañadon Alfa fields and the offshore Hidra, Kaus, Carina, Aries, Vega Pleyade and Fenix fields. TotalEnergies also has Marketing & Services and Renewables activities in Argentina through its Total Eren affiliate, with operated capacity of 180 MW coming from one solar plant and two wind farms.
