Q3 & 9M 2022 takeaways

- €2.3bn performing loan book growth in 9M.22, already beating revised FY.22 target of €2.0bn. Strong expansion in Q3.22 at +€0.8bn, successfully absorbing the first €200mn tranche of RRF funds, and getting approval for the disbursement of the second tranche
- Strong growth in net interest income in Q3.22, up 8% qoq at €331mn, driven by loan and bond portfolio dynamics, without accrual benefit from ECB's TLTRO program
- New quarter record-high net fee income generation in Q3.22 at €128mn, +4% qoq and +12% yoy, with strong contribution from transactional business, new loan origination fees and bancassurance. NFI in 9M.22 has increased 18% compared to 9M.21
- Recurring operating expenses continued their downward trend in 9M.22, -4% yoy, at €623mn. The Bank's new cost governance structure already bears fruits, with G&A costs -6% yoy in 9M.22. The Group's cost-to-core income ratio steadily improves quarter after quarter, standing at 47% in Q3.22
- €0.7bn negative organic NPE formation in 9M.22, with new historical low gross NPE inflow in Q3.22, at €99mn. Clean balance sheet and stable asset quality dynamics are key factors behind the underlying cost of risk remaining stable in Q3.22 at 50bps for the fourth consecutive quarter
- NPE ratio below 9%, from 17% a year ago; NPE coverage up 10 percentage points yoy to 49%
- Sep.22 CET1 fully loaded at 10.7%, +120 bps qoq, with the year-end target now set at above 11% from approximately 11% previously
- 9M.22 normalized EPS of €0.28, vs. €0.17 in 9M.21, to reach level of above €0.37 for the FY.22. 9M.22 RoaTBV of 9% on a normalized basis leads to the upgrade of FY.22 guidance to c.9%, from c.8% previously
- Normalized operating profit at €386mn in 9M.22 vs €225mn a year ago

"Piraeus has delivered impressive financial results in the 9-month 2022 period, driven by high-quality earnings and outperformance of targets across the board.

In the first 9 months of 2022, Piraeus generated €0.28 normalized earnings per share. We expect to outperform our previous €0.35 full year 2022 guidance.

Piraeus is achieving steady business loan growth, high risk-adjusted profitability, continued cost discipline and accelerated capital build-up.

We are clearly unlocking the strength of our unparalleled franchise. The Group's performing portfolio has expanded by €0.8bn in Q3 and by €2.3bn in the 9-month 2022 period, already surpassing the revised annual target of €2.0bn. We have successfully absorbed the first €200mn tranche of the RRF funds, and have received approval for disbursement of the second tranche.

The NPE book continues to decrease and we are now clearly heading to a ratio below 8% at year-end 2022 from 9% in Q3.

Accelerated organic capital generation has driven our fully-loaded CET1 ratio to 10.7%, up by c.120bps in the quarter and by more than 300bps in the last 12 months. We now forecast the CET1 ratio to exceed 11% at 2022 year end, an upgrade from our previous estimates of 10-11%.

In clear contrast to European peers, Greece remains on a path of economic expansion into 2023 and beyond, reflecting the completely different place that Greece finds itself in the economic cycle, and the country's improved resilience and competitiveness. With confidence based on Greece's robust economic prospects and our visible operating outperformance, we are upgrading our full year 2022 guidance to c.9% return over tangible book value from c.8% previously.

We continue to raise our aspirations and remain relentlessly focused on creating value for our shareholders, clients and employees."

Christos Megalou Chief Executive Officer

Strongly growing net interest income and margin

* Extra 50bps TLTRO III benefit not illustrated (€36mn in Q4.21, €18mn in Q1.22, €17mn Q2.22)

Net interest income (NII) in Q3.22 stood at €331mn, up 8% qoq, boosted by increased loan volume and fixed income balances, as well as higher rates. In 9M.22, NII amounted to €922mn, down 16% yoy, due to decrease of NPErelated income. Excluding forgone income from NPEs, NII amounted to €816mn in 9M.22 up 11% yoy.

18% yoy increase in net fees from all areas of business

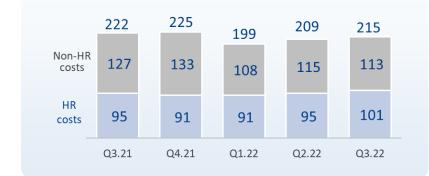

* Net fee income includes rental income and income from non-banking activities

Net fee and rental income (NFI) amounted to €366mn in 9M.22, 18% higher compared to 9M.21. NFI reached €128mn in Q3.22, up 4% compared to Q2.22, and 12% higher yoy. Main contributors to this performance were loan origination, investment banking, funds transfer, FX fees and cards business, while rental income also comprises a positive driver, which is expected to further expand. NFI over assets stood at the level of 0.62% in Q3.22.

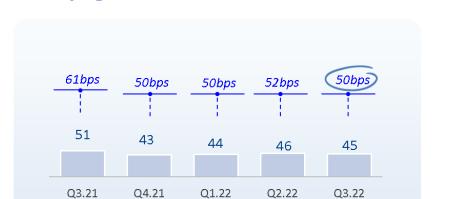

Operating expenses down 4% yoy, on the back of structural actions and relentless cost-reduction focus

* Operating expenses depicted on a recurring basis

Recurring operating expenses in 9M.22 reached €623mn, -4% yoy, while they amounted to €215mn in Q3.22, down 3% yoy. Respectively, recurring staff costs in Q3.22 were up 6% yoy to €101mn, due to variable pay accrued in this quarter, as well as to an extraordinary support for targeted employees. That said, Piraeus resumes its staff restructuring efforts, with the Group's headcount totaling 9,058 employees in the continuing operations as at 30 September 2022, of which 8,721 were employed in Greece, down by 690 yoy. Furthermore, G&A costs in Q3.22 declined by 11% yoy at €88mn, since the Group's cost rationalization efforts more than offset inflationary pressures. As a result, cost-to-core income ratio on a recurring basis stood at 47% in Q3.22 vs. 51% a year ago. Further efficiencies are to be achieved along with the ongoing digitization, as well as the implementation of our transformation program.

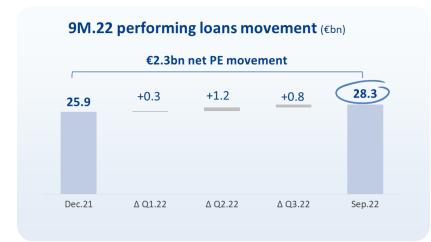

Underlying cost of risk remained at low levels for another quarter

The Q3.22 underlying loan impairment charges stood at €45mn, almost flattish vs. the previous quarter, on the back of the large NPE reduction executed in 2021, and the significant improvement in the new NPE flows. Impairment losses of €18mn in Q3.22 were mainly associated with provisions regarding Sunrise 3 NPE portfolio retranching. Organic cost of risk over net loans remained at cycle low levels in Q3.22, standing at the area of 50bps for a 4th consecutive quarter, down from 61bps a year ago.

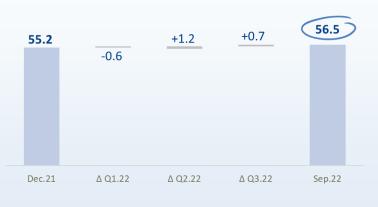

Strong new loan origination

Gross loans stood at ≤ 37.6 bn, up 5% yoy and 2% qoq, despite the NPE clean-up executed in 2021 and 2022. Performing loan portfolio reached ≤ 28.3 bn in 9M.22, up by ≤ 2.3 bn ytd, exceeding the annual target of ≤ 2.0 bn growth, owed to new loan disbursements of ≤ 6.7 bn. The vast majority of the latter is attributed to new CIB loans, with manufacturing industry accounting for the largest share of CIB disbursements. It is noted that the gross loan figure as at Sep.22 includes ≤ 6.1 bn of senior notes associated with the NPE securitizations concluded until now, namely Phoenix, Vega, Sunrise 1 and Sunrise 2.

Customer deposits reached historical highs again

Customer deposit movement in Greece (€bn)

Customer deposits reached another historical high , amounting to €56.7bn at the end of September 2022, up 9% yoy and c. 1% higher qoq. Deposit cost picked up slightly, reaching 8bps in Q3.22, compared to 6bps in Q3.21 and 6bps vs. Q2.22.

Q3.22 organic NPE path further improved

NPEs reached €3.3bn at the end of September 2022, while they stood significantly lower vs. a year ago (€5.9bn) aided by both the execution of the Group's securitizations' plan and organic reduction. The NPE ratio fell to 8.7% from 9.1% in the previous quarter, standing substantially lower vs the end of September 2021 (16.6%), mainly driven by NPE securitizations through HAPS and direct NPE sales executed in 2021 and the first half of 2022, as well as further organic NPE reduction.

Strong liquidity and funding profile

At the end of September 2022, the Group's funding under TLTRO auctions amounted to ≤ 14.4 bn, while the first repayment took place in Q3.22 (≤ 0.1 bn). Regarding the maturity profile of the aforementioned TLTRO funding, an amount of ≤ 0.3 bn matures in 2022, ≤ 11 bn in 2023 and the rest in 2024. Piraeus Group Liquidity Coverage Ratio (LCR) stood at the very satisfactory level of 192%. Strong liquidity profile is also reflected on the Group's net loan-to -deposit ratio, standing at 63.5% at the end of September 2022.

Capital ratios at satisfactory levels; FL CET1 on track to meet 2022 target

* 1 Oct.22 FL CET1 ratio as per FVTOCI reclassification recognized (definitions in the APM section of the presentation)

The fully loaded Common Equity Tier 1 (CET1) ratio of the Group at the end of September 2022 reached the level of 10.7%, well on track to exceed 11% at the end of 2022. Total fully loaded capital ratio stood at 15.4%, comfortably above capital requirements

Business developments

Recovery and Resilience Fund

The Recovery and Resilience Fund (RRF) has proceeded with the disbursement of the second tranche of €200mn to Piraeus Bank, following the successful absorption of the initial tranche allocated to it, pursuant to the Business Agreement between the Greek State and the Bank.

This confirms Piraeus Bank's support in financing businesses with a growth vision, extrovert character and innovative investment plans within the framework of the main pillars of the National Recovery and Resilience Plan "Greece 2.0".

Digital transformation program

Piraeus continues its strong execution of digital transformation projects' plan, as part of its Transformation Program, which covers both the retail and corporate banking segments.

Among Bank's strategic priorities recently developed are the delivery of Enhanced Bulk Payments solution for electronic payments via winbank for business customers, as part of a series of actions of Bank's Digital Transaction Banking platform, and the issuance of credit card online via winbank for the retail customers.

Digital transformation flagship projects include the improvement of customer journeys, through the development of automated processes in credit granting process along with new digital capabilities such as remote signing, remote document exchange, and online credential management; automated credit assessment tool for the AGRI division was recently delivered with Corporate and SME divisions coming up next.

Acquisition of lolcus Investments

Piraeus Financial Holdings' subsidiary Piraeus Bank S.A. has completed the acquisition of lolcus Investments AIFM as at 19 July 2022. The completion of the transaction is another important milestone towards the implementation of the Bank's strategy for assuming a leading role in asset management in Greece. lolcus' AuM are in the order of \leq 1bn. With the completion of lolcus' acquisition, Piraeus Group's AuM are in the order of c. \leq 6.5bn.

Piraeus' venture, Shnappi - the only mobile-first bank in Greece

Shnappi is a joint venture between Piraeus Financial Holdings and Natech, established in April 2022 as an LLC and applied for banking license in September 2022. Shnappi will launch as a digital-only bank, the only mobile-first bank in the Greek market able to offer consumer credit. Shnappi's offering will include a full everyday banking platform where users can seamlessly complete digital payments and money transfers.

Piraeus Bank undertakes the payment of Community Aid through OPEKEPE for the next 4 years, 2022-2026

Piraeus Bank, after an open international online competition, organized by the Greek Government for the keeping, cash management and financing of the Special Account of Agricultural Products Guarantee, has been assigned the project for the next 4 years, 2022-2026. Through the implementation of this project, a funding amount of € 2.5bn is available annually, in order to carry out timely direct payments to farmers and breeders, provided by the Common Agricultural Policy. The contract between the two parties was signed on 13 October 2022.

Agreement with Resolute for real estate servicing

On 11 October 2022, Piraeus Bank reached an agreement with Resolute for the latter to provide Piraeus with real estate services in Greece. The agreement refers to real estate servicing, real estate valuation services, and asset and property management of Piraeus' own-use and non-core properties in Greece. For Piraeus, the transaction is part of its strategy for further cost efficiencies and targeted assets utilization, bringing cost savings of more than €5mn per annum.

Project Future - 9th training cycle

Piraeus Bank has launched a social responsibility programme, Project Future, which offers young graduates training in specialist disciplines, i.e. Customer Experience, Digital Marketing and Java, giving them the skills they need to better transition into the job market. Project Future has been created in cooperation with ReGeneration Academy, which has joined forces with Google, Facebook, Code. Hub and Excelixi- Centre of sustainable entrepreneurship. The programme currently runs its 9th training cycle.

EQUALL programme

Piraeus Bank created the EQUALL programme in an effort to contribute to the formation of a society of equal people. The programme comprises the following actions:

- Women Founders and Makers for the reinforcement of female entrepreneurship
- Profession has no Gender for new generation's awareness regarding gender stereotypes.
- Piraeus EQUALL 360° Piraeus Bank created and offers "Piraeus EQUALL 360°", a comprehensive bundled products and services package, with preferential pricing and privileges, exclusively for women entrepreneurs.
- Creation of a mural for the promotion of UN Sustainable Development Goal #5 Gender Equality.

Agreement for the sale of Sunrise III portfolio of Non-Performing Exposures amounting to €0.5bn gross book value

Further to the HAPS application submitted by Piraeus Bank S.A. ("Piraeus") in July 2022 for inclusion of the Sunrise III senior notes within the Hellenic Asset Protection Scheme framework, Piraeus has now entered into definitive agreements with Intrum AB (publ) and Waterwheel Capital Management LP for the sale of, in aggregate, ninety-five percent (95%) of the mezzanine and junior notes of the Sunrise III securitization (the "Transaction").

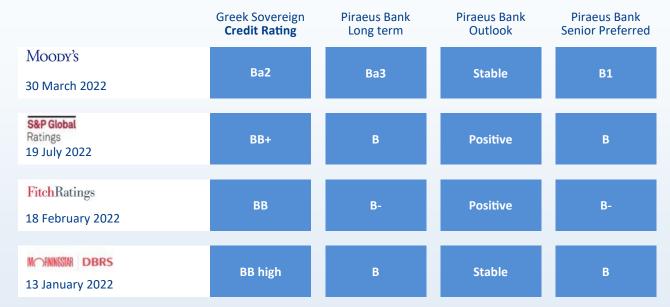

The Sunrise III portfolio comprises c.37k retail and corporate loans with a gross book value of €0.5bn as at 31 December 2021. The implied valuation of the Transaction, based on the nominal value of the senior notes and the proceeds from the sale of the mezzanine and junior notes, corresponds to 34.2% of the portfolio gross book value.

Piraeus will retain five percent (5%) of the mezzanine and junior notes of the Sunrise III securitization, as per the relevant securitization regulatory requirements, as well as the Sunrise III senior notes in their entirety.

Completion of the Transaction is subject to the approval by the Hellenic Republic for granting a guarantee on the senior notes amounting to €0.16bn, as well as to the consent of the Hellenic Financial Stability Fund.

CET1 Ratio FL (fully loaded), pro forma

(percentage, %)

For September 2022, CET1 regulatory ratio is not calculated on a pro-forma basis. As of October 2022, FL CET1 ratio of 10.7% incorporates recognized fair value through OCI reclassification impact.

For December 2021, Common Equity Tier 1 regulatory capital ratio, fully loaded is calculated by subtracting from the denominator, the RWAs of the Dory NPE portfolio classified as held for sale as up 31 December 2021, which was concluded during Q1 2022.

Relevance of use: Capital position regulatory metric

Cost of risk (CoR) underlying

(percentage, %)

Underlying cost of risk is calculated by dividing loan loss provisions excluding provisions related to NPE securitisations and sales and servicing fees and credit protection fees over the loans and advances to customers at amortised cost.

Loan loss provisions are defined as ECL impairment losses on loans and advances to customers at amortised cost (as in Group's condensed interim consolidated income statement), plus other credit-risk related charges on loans and advances to customers at amortised cost.

In Q3 2022, €18mn loan loss provisions were related with losses of the Sunrise III and other NPE sales. In Q3 2021, €698mn loan loss provisions were related with losses of the Sunrise I, and Sunrise II securitisations and other NPE sales.

Cost-to-income ratio, core

Core cost-to-income ratio is calculated by dividing the recurring operating expenses which equal total operating expenses before provisions minus one-off costs with core income.

Core income equals net interest income plus net fee and commission income plus rental income and income from non-banking activities.

One-off expenses refer to Voluntary Exit Scheme costs of 7 million and 20 million in Q2 2022 and Q3 2022 respectively.

Relevance of use: Efficiency metric

Net Profit, normalized

Normalized net profit is the profit/(loss) attributable to the equity holders of the parent (as reported in the condensed interim consolidated income statement), excluding one-off revenues, one off expenses and loan loss provisions related to NPE securitizations and sales (as defined herein), defined at any given period.

One-off revenues refer to the gains from the fixed income portfolio of €98 million and €52 million in Q2 2022 and Q3 2022 respectively with tax included in total.

One-off expenses refer to Voluntary Exit Scheme costs of 7 million and 20 million in Q2 2022 and Q3 2022 respectively with tax included in total.

Relevance of use: Profitability metric

NPE Coverage Ratio

NPE coverage ratio is calculated by dividing ECL allowance on loans and advances to customers at amortised cost (as presented in the Group's notes related to Financial Risk Management to condensed interim consolidated financial statements) over the non-performing exposures (NPEs).

NPEs are on balance sheet credit exposures before ECL allowance for impairment on loans and advances to customers at amortised cost that are: (a) past due over 90 days; (b) impaired or those which the debtor is deemed as unlikely to pay ("UTP") its obligations in full without liquidating collateral, regardless of the existence of any past due amount or the number of past due days; (c) forborne and still within the probation period under EBA rules; (d) subject to contagion from (a) under EBA rules and other UTP criteria.

Relevance of use: Asset quality metric

Non-Performing Exposure (NPE) Ratio

NPE ratio is calculated by dividing NPEs by gross loans, before impairments and adjustments (as defined herein). Gross loans are reported as total gross loans and advances to customers at amortised cost, grossed up with PPA adjustment (as presented in the Group's notes related to Loans and advances to customers at amortised cost to condensed interim consolidated financial statements).

Relevance of use: Asset quality metric

		Q3 2022	Q3 2021

Return on average Tangible Book Value (RoaTBV) normalized, adjusted for AT1 coupon

The RoaTBV is calculated by dividing normalized net profit for the period annualized minus AT1 coupon payment over tangible book value. Tangible Book Value for Q3 2022 (as defined herein) is calculated by taking the average of the two consecutive periods of 30/6/2022 and 30/9/2022.

For Q3 2021, TBV is calculated by taking the average of the periods of the two consecutive periods of 30/6/2021 and 30/9/2021.

Relevance of use: Return obtained on shareholders' funds, not including intangible assets

		Q3 2022	Q3 2021
	Normalized net profit, annualized (€ mn)	102*4 = 408	99*4 = 396
