ATHEX FX OUTLOOK FORUM

When Global FX is a Greek affair

Once again, **macro and geopolitics** will likely drive all markets in 2023. No other asset class is more sensitive to these drivers than foreign exchange. The Athens Exchange Group is privileged to host in Athens three of the leading global FX strategists in the world, who also happen to be Greeks. They will help our clients begin to navigate a challenging, yet, full of opportunities 2023.

Yianos Kontopoulos will go into a targeted deep dive with our **three top global strategists** to cover the key pivotal macro questions for next year. If you are a **CEO, a CFO, a market strategist, a large company analyst, or a wealth manager**, you should not miss this targeted, special event for our ATHEX clients.
