The real estate market has an important bearing on macroeconomic developments and financial stability.

- In 2021-22, foreign direct investment inflows increased strongly, reaching a 20-year high. The net inflow of funds for property purchases from foreign investors, as recorded in the data of the Bank of Greece, for 2022 was increased by 68,0% compared to 2021 and amounted to € 1,97 billion against € 1,17 billion in 2021.
- The new sales transactions carried out by REIC during 2022 were mostly directed to high-rise and bioclimatic offices specifications (29,6% of the total amount of investments), while great investment interest was also recorded for the development of new or reconstruction of existing office buildings. Hotels and logistics absorbed 21,8% and 4,5% of funds respectively, while significant investments were also made in retail stores in highly commercial locations.
- During the first 4 months of 2023, 3.064 Golden Visa applications have been submitted, increased by 155% compared to same period in 2022, which correspond to investments of a minimum amount of 766 million euros.
- Rent levels in offices located in Athens increased by 7% between 2016 and 2022.
- Sale prices per sqm in office buildings in Athens also increased by 26% for same period.

ESG Governance

BriQ Properties adopting an environmentally friendly policy, which aims to reduce its environmental footprint, is in the process of implementing actions that cover both the wider range of its business activity and its role as a responsible corporate citizen.

From December 2021, after Evaluation, BriQ became the first REIC which was included in the Athex ESG index of the Athens Stock Exchange.

The "Athex ESG" index includes listed companies

with good practices and performance in matters of environment, society and corporate governance as evaluated and distinguished (ESG Scoring). In September 2022, the 2nd annual Sustainable Development Report was published for the fiscal year 2021, which was prepared in accordance with the updated ESG Information Disclosure Guide 2022 of the AXA. In addition, an external verification check was carried out of the contents, indicators of the Report by an independent external body [TÜV HELLAS (TÜV NORD)], regarding compliance with the disclosure information.

Short term goals

- Our Company settled in its new privately owned offices, 260 sq.m. approx., on the 3rd floor of Mitropoleos Street 3, Syntagma Square. The company completely renovated the property and used environmentally friendly materials, double energy windows and low consumption lighting. The company also decided to eliminate all single-use plastics in its new offices.
- GAP analysis of the portfolio. Energy efficiency recording of all the buildings in the portfolio with the aim of reducing the environmental footprint and improving the PEA (Energy Performance Certificates) by 15% by carrying out all the necessary actions.
- Planned investment of 5 m for the demolition and new construction of a LEED GOLD certified 1.900 sq.m. office building at 42 Posidonos St. in Kallithea.

- New warehouse construction in Aspropyrgos with a low energy footprint.
- Decision to install photovoltaic systems for net metering in roofs of all Company's logistics facilities.
- Installation of digital document and digital signature software to minimize paper printing and ink consumption.

Medium-long term goals

The proper environmental management of our properties is one of our most important goals, which is deemed necessary both for the sustainability of our activities and for our business continuity.

We commit to:

- we are taking measures to reduce the environmental footprint of our portfolio
- follow the provisions of no. 4936/2022 of the New Climate Law in order to achieve the long-term goal of climate neutrality by 2050.
- invest in "green" newly built properties and upgrade existing ones taking into account new technologies and the parameter of "smart infrastructures".
- ensure the prevention and control of pollution by taking measures in existing and new properties within the framework of circular economy principles.
- minimize the impact of our properties on the natural environment, including reducing the volume of waste, through prevention, reduction, recycling and reuse.

Continuous development based on the principles of sustainable development has significant effects on the Company's business model, reputation and ability to achieve its goals, being an essential issue for its stakeholders as well.

- Creation of financial value/ financial performance
- Equal opportunities and non-discrimination
- Providing timely and competitive wages/benefits to employees
- Providing training

More specific:

- The Company, based on its Policies, provides equal opportunities to all, employees and prospective employees. There is no discrimination in any matter. The professional development of women is encouraged, providing equal opportunities in terms of pay and promotion.
- The Company systematically urges its employees to maintain a balance between their professional and personal lives and in order to actively contribute in this direction organizes various actions, corporate gifts (Christmas, Easter) as well as offers the possibility of flexible hours, the possibility of early departure on Friday (from July 15 to August 31) etc.
- The Company makes sure to be consistent in its obligations towards employees and payroll payments are made on specific dates without delays.
- Taking care of the health and safety of all human resources employed by the Company is a key part of its wider business policy and philosophy.
- The continuous growth of BriQ Properties allows it to return a dividend of its profits to Society.

CSR actions

The continuous growth of BriQ Properties allows it to return a dividend of its profits to Society.

BriQ undertakes part of the basic operating expenses of the House that maintains the “Smile of the Child” in Moschato. The “House” accommodates 21 children aged between 20 months and 17 years. From 2022 BriQ helps the “House” with the following actions:

- Electricity and oil costs
- Replacement of lamps with modern ones of lower consumption
- Installing a Heat Pump for cheaper heating / cooling costs
- Monthly meal donation
- Christmas and Easter gifts for children

The company places particular emphasis on regulatory compliance, having established internal structures and incorporating manuals, codes, policies and procedures into its operation, which aim to strengthen transparency, responsible operation and collective decision-making, in all areas which aim at the sustainable development of the Company and at safeguarding the interests of Shareholders and Stakeholders.

BriQ Properties is in full compliance with the provisions of art. 1-24 of Law 4706/2020 and of the Greek Corporate Governance Code of the Hellenic Corporate Governance Council which came into effect in June 2021.

Committees

BriQ Properties has the following Board Committees:

- Audit Committee
- Investment Committee
- Remuneration and Nominations Committee
- Sustainable Development Committee

Regulations

For the proper governance of the Group, the following regulations are followed:

- Internal Regulation of Company Operation
- Regulation of the Operation of the Audit Committee
- Regulation of Internal Control Operation
- Regulations on the Functioning of the Remuneration and Nominations Committee
- Code of Ethics and Ethical Behavior

Policies

The basis for the governance of the Company is the Policies and Procedures, which constitute the official formulation of the guidelines by the Board of Directors. The Policies ensure the Company's compliance with the institutional framework, the integration of good practices in its operation and are specialized at the level of application with the corresponding standard Procedures.

Evaluation of the Internal Control System (ICS)

The Company, with the decision of its Board of Directors, assigned to PKF EUROELEGTIKI S.A. the evaluation of the adequacy and effectiveness of the Internal Control System of the company BriQ Properties REIC and the important subsidiary of Sarmed Warehouses SA, with a reference date of December 31, 2022, in accordance with the provisions of Law 4706/2020 and decision of the Board of Directors of the Capital Market Commission, as applicable.

Based on the work carried out by the evaluator regarding the assessment of the adequacy and effectiveness of the Company's Internal Audit System, we report that no material weaknesses were identified.

The above conclusion is an additional confirmation that the Company complies with the current legislative and regulatory framework governing the Internal Control System, and that it has adopted and applies best international practices, with the aim of lawful and orderly operation to achieve its sustainable strategic development.
