**PRESENTATION OF H1 2023 FINANCIAL RESULTS
TO REPRESENTATIVES OF THE CAPITAL MARKET**

Today, Thursday, September 28, 2023, the presentation of EYDAP's six-month financial results to representatives of the capital market took place via video conference. The event was attended by CEO Haris Sahinis and Director of Financial Analysis and Investor Relations Ilias Dedousis.

The financial results of the semester and the factors that influenced them were presented in detail in the teleconference. However, special emphasis was placed on the adjusted EBITDA, without the increase in provisions (disputed cases from the outcome of court claims in the corresponding period of last year and impairment of financial assets mainly from the increase in the balance of municipalities) which would have shown an increase of +5% as well as correspondingly operating expenses which would have shown a decrease of 0.73%.

There was also a detailed discussion about the prospects of the Company under the new regulatory framework and the estimated relevant timetable. It was pointed out that 2023 is a transition year until the implementation of the new Regulatory Framework which, based on the Regulated Asset Base, will provide predictability and stability in income and recovery of amounts.

The investing public is informed that the Company's presentation will be posted on the EYDAP website (www.eydap.gr) in the Investor Relations section.
