

New collaboration between FAMAR and Lavipharm: Joining forces in the production of pharmaceutical products

Athens, 23.01.2024 – FAMAR and Lavipharm, two prominent companies in the pharmaceutical industry, jointly announce their new collaboration. [FAMAR](#) is a leading provider of development and manufacturing services for pharmaceutical and cosmetic products (CDMO) and one of the major CDMO players in Europe. [Lavipharm](#), a pioneer in pharmaceutical technology and globally renowned for its expertise in and contribution to enhancing patients' quality of life for over a century, specializes in research and development, production, import, marketing and distribution of pharmaceuticals and healthcare products in Greece, with a strong international commercial presence.

As part of this new collaboration, FAMAR will undertake production of two pharmaceutical products recently added into Lavipharm's portfolio. Specifically, FAMAR will serve as the contract manufacturer for Lavipharm's analgesic pharmaceutical products Lonarid N® and Lonalgal®.

This collaboration confirms the strong developmental impact of both FAMAR and Lavipharm on the pharma industry. It represents a significant development for the domestic market, enhancing the competitiveness of Greek pharmaceutical companies. At the same time, it contributes to increasing the availability of high-quality pharmaceutical products, ensuring their consistent and efficient production, thus enhancing patients' quality of life.

Nikolaos Papapolitis, Chairman of the Board of Directors of FAMAR A.B.E., stated, "***The selection of FAMAR for the production of Lavipharm's two products reflects our commitment to providing the most innovative products and services that contribute to improving patients' quality of life. It reaffirms our dedication to consistently remaining the most reliable and dynamic partner throughout our value chain.***"

"For Lavipharm, FAMAR is a trusted partner with a global footprint. Their extensive manufacturing facilities and high standards were pivotal factors in our decision. The quantities of tablets for the two pharmaceutical products we recently acquired exceed the available capacity of Lavipharm's solid dosage production lines," commented Telemaque Lavidas, Executive Board Member of Lavipharm. ***"Our collaboration with a company such as FAMAR enables us to further focus on the production of transdermal systems, a core competency that positions Lavipharm among the leaders in the international market."***

Notes to Editors
