COMPANY PROFILE

Space Hellas S.A. is a well-established System Integrator and Value Added Solutions/Service Provider, holding a leading position in the high technology arena since 1985. Space Hellas designs, supplies, implements and supports integrated ICT and Security solutions for the financial, enterprise, public and defense sectors.

Space Hellas Headquarters are situated in Athens, with branches in Athens, Thessaloniki, Patra, Heraklion Crete and Ioannina with subsidiaries in Cyprus, Romania, Serbia and Malta, and activities in the Balkans and the Middle East.

Space Hellas' commitment to quality and security are certified according to ISO 9001:2008 quality standard for its products and solutions and ISO/IEC 27001:2005 for its information security management system.

Space Hellas' Unique Selling Point is its diversified and extensive portfolio of ICT & Security technologies that are supported with in-house resources, with its engineers holding more than 300 leading international vendor certifications and accreditations boosting Space Hellas's technological lead.

Space Hellas SA stands out from its competitors with its exceptional nationwide technical support network. Supporting over 2,000 customers on a per-call basis, with its state-of-the-art ITILv3 conforming Service Desk / Network Operations Centre (NOC), Space Hellas serves the biggest enterprises on a 24h basis, with more than 40.000 calls yearly and a 2-hour repair time for customers with strict SLAs.

Last but not least, Space Hellas is particularly active into Research & Development both at National and European level, thus acknowledging the importance of niche scientific and technological knowledge on the one hand, and the exploitation of technological achievements and opportunities for innovation and satisfaction of new demands, on the other hand.

EXPORTS

Space Hellas is active in Cyprus, Romania, Albania, Serbia and Malta seeking to expand its business activities abroad by targeting large-scale integration projects and Service operations in the Balkans and the Middle East.

Space Hellas solutions that are being primarily offered in these markets include: Telecommunication Services and technical support to Multinational corporations, sports event management and e-ticketing solutions, physical security systems, telematics applications, disaster recovery services, IT infrastructure intelligence and monitoring (with "Space Hellas .Pulse" in house developed platform). All these capabilities have been demonstrated through the implementation of relevant large-scale projects, therefore offering Space Hellas SA a significant advantage over its competitors.

The group's turnover from foreign customers represents the 21.87% of the group's annual turnover in 2013.
