ANNUAL FINANCIAL STATEMENTS
OF THE PARENT COMPANY AND THE GROUP
FOR THE FISCAL YEAR
FROM JANUARY 1, 2006 TO DECEMBER 31, 2006

According to the International Financial Reporting Standards

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Lambrakis Press S.A.

Report on the Financial Statements

We have audited the accompanying financial statements of Lambrakis Press S.A. (the Company) and the consolidated financial statements of the company and its subsidiaries (the Group), which comprise the balance sheet as at December 31, 2006, the income statement, statement of changes in shareholders' equity and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards that have been adopted by the European Union. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Greek Auditing Standards, which are based on International Standards of Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of Lambrakis Press S.A. and the Group as of December 31, 2006, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards that have been adopted by the European Union.

1. INFORMATION ON THE PARENT COMPANY AND THE GROUP

The company LAMBRAKIS PRESS SA (hereafter Parent Company or DOL SA or the Company) with the trade name "DOL SA" was established in 1970 (Government Gazette No. 1107/30.6.70 section of societies anonymes and limited liability companies) and stemmed from the transformation of a sole proprietorship to a societe anonyme. After the company's registration in the Register of Societes Anonymes of the Greek Ministry of Development, Lambrakis Press SA is registered under number 1410/06/B/86/40. The Company's duration is set at 50 years from the date of its registration in the Register of Societes Anonymes and its registered office is in the municipality of Athens, at 3 Christou Lada street. The company's offices are at 80, Michalakopoulou street. The Company is listed on the Athens stock Exchange since 1998 and its shares are traded in the Large Capitalization market.

The Parent Company is organized on the basis of 5 business units (BUs), which are self-contained. The BU heads are responsible for the progress of business, the required investment and the financial results of the business activities assigned to their BUs:

Business Unit "TO VIMA": publishing the daily morning newspaper "TO VIMA", the Sunday edition "TO VIMA TIS KYRIAKIS" and the supplement magazines of these newspapers.

Business Unit "TA NEA": publishing the daily evening newspaper "TA NEA", the weekend edition "TA NEA SAVVATOKYRIAKO" and the supplement magazines of these newspapers

Magazine Business Unit: publishing all the magazines of the parent company and the Group

Digital Media Business Unit: developing digital products and services and implementing new internet technologies that focus on media sector applications

Media Affiliates Business Unit: supervising the companies active in the media sector and related prospective investments

The business units are supported by two Centers as follows:

The Business Development Center that is responsible for the overall business development of the Group and the Business Units. This center offers and co-ordinates sales and marketing services in co-operation with the business Units and also supervises the Circulation Office. The Business Development Center has also been assigned the exploitation of synergies among the media-sector affiliates of the Group and supervises the Media Affiliates Business Unit.

The Corporate Center that supervises the financial and administrative operations of the group and the HR department. The Corporate Center has also been assigned the supervision of the non-media sector affiliates of the Group.

The Consolidated Financial Statements include the Company, its subsidiaries and associates mentioned in Note 4 (a) – (c) (thereafter DOL Group or the Group).

The Group:

- a) Publishes newspapers, pre-eminently "**TO VIMA**" and "**TA NEA**", and magazines that cover an especially wide spectrum of subjects and reading audience and are established at the top positions in their sectors in terms of circulation, readership and attracted advertisement spending.
- b) Is active (through its subsidiary EUROSTAR SA) in offering tourist services, through the travel agencies TRAVEL PLAN and TRIAINA TRAVEL.
- c) Develops and operates (through its subsidiary DOL DIGITAL SA) the first and largest Greek portal on the Internet (www.in.gr), the electronic commerce store www.shop21.gr and participates in the first internet portal focusing on medical content, (health.in.gr).
- d) Holds an investment in IRIS PRINTING SA that owns two vertically integrated industrial printing units, ranking among the largest and most up-to-date in the area of south-eastern Europe. IRIS PRINTING possesses an important market share in Greece and covers all stages of printing from importing and trading paper to finishing, packaging and distributing printed material.
- e) Participates in the television station MEGA CHANNEL, in a company producing television programs, in book publishing houses, in bookstores, in a press distribution agency and a telesales and customer relationship management company.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

(a) Basis of preparation of the Financial Statements: The attached financial statements for the fiscal year from 1.1.2006 to 31.12.2006 of the Parent company and the Group (thereafter jointly referred to as the financial statements) have been prepared according to:

- the principle of historic cost, as amended by the adjustment of certain assets and liabilities at their fair value, mainly for the trading portfolio and real estate assets. Specifically land and buildings were valued at their fair value on the date of transition to IFRS (January 1 2004) and this fair value was recognized as inferred cost at the above date.
- principle of going concern,
- the accrual basis of accounting
- the principle of the independence of fiscal years,
- the consistency of presentation,

and comply with the International Financial Reporting Standards (IFRS) that have been issued by the International Accounting standards Board (IASB), as well as their interpretations issued by the International Financial Reporting Interpretations Committee (I.F.R.I.C.) of the IASB that have been adopted by the European Union under the EU Regulation No. 1606/2002 on December 31, 2006.

The Group applied the same accounting principles of recognition and valuation on 31.12.2006 to those applied in the financial statements of 31.12.2005, except for the adoption of new standards, the

application of which became mandatory for the fiscal years commencing after January 1, 2006. These standards are quoted below.

(b) Use of estimates: Under IFRS the preparation of financial statements requires that the management make estimates and judgment in the Group's application of the accounting principles. The most significant of the assumptions made are quoted in the notes of the financial statements, where this is deemed advisable. It is noted that in spite of the fact that these estimates are based on the best possible knowledge of the Management of the company and the Group in relation to current conditions and actions, the actual results may differ from such estimates.

(c) New standards, interpretations and amendment of existing standards

New IFRS, amendments and interpretations have been issued that are mandatory for the accounting years commencing on or after January 1, 2007. The estimate of the Management of the Company and the Group in relation to the effect of the adoption of these new standards and interpretations is stated below:

• IAS 19 (amendment) Employee benefits (valid from 1.1.2006)

This amendment offers the companies the option of an alternative method to recognize the actuarial profit or loss. It also enforces new qualifications for recognition in cases of multi-employer pension plans for which there is insufficient information to apply the method of defined benefit plan accounting. It also adds new disclosure requirements. As the Group does not intend to change its accounting policy that has adopted for the recognition of actuarial gains or losses, the adoption of this amendment will not affect the form and length of the disclosures stated in the annual financial statements.

• IAS 39 (amendment) Fair value option (valid from 1.1.2006)

This amendment changes the definition of financial instruments that have been classified at their fair value through profit and loss and restricts the eligibility of these assets to be classified as such. The Group believes that this specific amendment does not have an effect in the classification of its financial instruments. The Company and the Group apply this amendment from January 1, 2006.

The following new principles, amendments of principles and interpretations have been issued but are neither applicable in 2006 nor are they prematurely adopted.

I.F.R.S. 7. "Financial Instruments: Disclosures" and supplementary adaptation to IAS 1, "Presentation of Financial Statements – Capital Disclosures" (valid from 1.1.2007)

IFRS 7 requires further disclosures in relation to the financial instruments in order to improve the furnished information. This IFRS requires the disclosure of qualitative and quantitative information in relation to exposure to risks arising from financial instruments. More specifically it predefines the minimum required disclosures in relation to credit risk, liquidity risk and market risk (it requires the sensitivity analysis in relation to the market risk). IFRS 7 replaces IAS 30 (Disclosures in the Financial Statements of Banks and Financial Institutions) and the disclosure requirements of IAS 32 (Financial Instruments: Disclosures and Presentation). It applies to all companies preparing financial statements under IFRS.

The related adaptation of IAS 1 refers to disclosures in relation to the level of capital of an entity as well as the policies and processes for managing capital. The Company still examines the effect of IFRS 7 and the adaptation of IAS 1 in the Financial Statements of the Group.

I.F.R.I.C Interpretation 7 : "Applying the Restatement Approach under IAS 29 Financial Reporting in Hyperinflationary Economies" (valid from 1.1.2006)

I.F.R.I.C Interpretation 7 gives guidance for the application of the requirements of IAS 29 in a period of reporting that the entity identifies the existence of hyperinflation in its functional currency, when the economy was not hyperinflationary in the previous reporting period. I.F.R.I.C Interpretation 7 is irrelevant to the operations of the Group.

I.F.R.I.C Interpretation 8 : "IFRS 2 Share-based payments" (valid from 1.5.2006)

I.F.R.I.C Interpretation 8 pertains to transactions related to the issuance of shares or rights of shares – where the consideration is less than the fair value of the shares issued – in order to clarify whether they fall within the scope of IFRS 2. This Interpretation is irrelevant to the operations of the Group.

I.F.R.I.C Interpretation 9 : "Reassessment of Embedded Derivatives" (valid from 1.6.2006)

Interpretation 9 requires an entity to assess whether an embedded derivative needs to be separated from the host contract and be accounted for as a stand-alone derivative when the entity first becomes party to the contract.

Subsequent re-assessment is not allowed unless there is a change in the terms of the contract that modifies significantly the cash flows that otherwise would be required under the contract, in which case re-assessment is required. Interpretation 9 is irrelevant to the operations of the Group.

I.F.R.I.C Interpretation 10 : "Interim Financial Reporting and Impairment" (valid from 1.11.2006)

The Company will apply the new Interpretation from 2007 onwards. According to Interpretation 10 the reversal of recognition of impairment loss in interim periods for investments and financial assets carried at cost, is prohibited if effected in a different accounting period.

3. APPROVAL OF ANNUAL FINANCIAL STATEMENTS

The annual financial statements of the fiscal year ended 31.12.2006 for the Company and the Group have been approved by the Board of Directors of Lambrakis Press SA in its meeting of March 6, 2007.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES OF THE COMPANY AND THE GROUP

The key accounting principles adopted in the preparation of the attached financial statements of the parent company and the Group are the following:

(a) INVESTMENTS IN SUBSIDIARIES AND ASSOCIATES

In the financial statements the investments in associated companies are accounted for initially at cost (including the transactions costs).

For each period of preparation of the financial statements the Company reviews the existence of indication of permanent impairment (significant or prolonged decreases of the fair value) of these investments using various valuation models.

Besides the above models, in order to assess the value of affiliates and subsidiaries for the purposes of the above impairment tests, the Company also considers the resolutions of the Management to liquidate, suspend the operation of or merge the specific entities.

In cases of a permanent impairment, the loss is recognized in the profit and loss statement.

(b) INVESTMENTS IN OTHER ENTITIES

The investments of the Company in other entities are initially accounted for at cost plus the special acquisition expenses related to the investment. After the initial recognition, investments are classified on the basis of the purpose of their acquisition. The Management reviews such classification on every publication date.

• Investments held for trading

This classification includes financial assets acquired primarily for profiting by the short term fluctuations of their price. More specifically, this classification includes derivatives, unless acquired for hedging purposes, purchasing of shares for profiteering and investments with defined or definable payouts if the Company does not intend to hold them to maturity but to make a profit on them. The changes in the fair value of such investments are recognized directly in the profit and loss statements.

• Investments available for sale.

After the initial recognition, investments classified as available for sale are valued at their fair value. In case that the fair value of an investment cannot be measured reliably, then this investment is valued at acquisition cost. Profit or loss from investments available for sale are accounted for separately in the equity accounts until the investment is sold, settled or otherwise disposed of, or until there is an indication of impairment of the investment. In such case the accrued profit or loss that was previously accounted for in the equity accounts are included in the profit and loss statement.

For investments traded on regulated markets, the fair value is determined by the current market prices that are derived from the closing of these markets on the date of the financial statements. For investments for which no market price exists, the fair value is determined on the basis of the current market price of a comparable financial asset that is traded or valued on the basis of the analysis of discounted cash flows of the net equity of the issuer.

On every publication date the Management reviews whether there are objective indications leading to the conclusion that the financial assets have been impaired. An investment is considered having suffered an impairment of its value when its book value does not exceed its recoverable value and there are material indications that the decrease of its value has reached such a point that renders recovering the investment capital impossible in the near future. If there are reasonable indications for impairment, the arising loss is recognized in the profit and loss statement.

(c) PRINCIPLES OF CONSOLIDATION AND CONSOLIDATED COMPANIES

The consolidated financial statements comprise the financial statements of the parent company, its subsidiaries and associates as detailed below.

(c.1) Subsidiary companies: Subsidiaries are all companies managed and controlled directly or indirectly by the parent company. Control exists when the parent company through a direct or indirect investment maintains the majority (over 50%) of the voting rights or has the power to control the Board of Directors of affiliates. Subsidiaries are fully consolidated using the purchase method of accounting from the date of acquisition of such control and cease being consolidated on the date that such control is lost.

The purchase method of accounting is used to account for acquisitions of subsidiaries of the Group. The consideration paid plus the expenses directly related to the acquisition are regarded as acquisition cost. The recognized assets and liabilities, as well as the contingent liabilities of the acquired company are initially measured at their fair value on the date of the acquisition. The part of the acquisition cost that exceeds the fair value of the acquired company's equity that corresponds to the shareholders of the acquiring company is recognized as goodwill in the intangible assets. In case the acquisition cost is less than the fair value of the acquired company's equity that corresponds to the shareholders of the acquiring company, the difference is recognized as income directly to the profit and loss statement of the company. To determine the fair value of assets and liabilities as well as the contingent liabilities of first-time consolidated companies the purchase price allocation method is used.

Intercompany transactions, intercompany balances and unrealized profit and loss among the Group companies are written off.

The subsidiaries follow the same accounting policies that have been adopted by the Group.

The table below shows all the subsidiary companies along with the respective holding percentages of the Group :

SECTOR	COMPANY	DIRECT INVESTMENT (%)	INDIRECT INVESTMENT (%)	COUNTRY OF BUSINESS	BUSINESS
PUBLISHING	SPECIAL PUBLICATIONS SA	100,00%	-	Greece	Magazine publishing
	NEA AKTINA SA	50,50%	-	Greece	Magazine publishing

	ELLINIKA GRAMMATA S.A.	51,00%	-	Greece	Publishing house - bookstore

(c.2) Jointly controlled entities: The investments of the Group in jointly controlled entities are consolidated in the consolidated financial statements using the method of proportional consolidation, taking into consideration the investment percentage that the Group holds on the date of consolidation. In the consolidated statements such companies are accounted for at their acquisition value less any impairment provisions. According to this method the Group's holding percentage in the assets, liabilities, income and expenses of the entities is consolidated «line per line». The following table shows all the jointly controlled entities and the respective holding percentages:

SECTOR	COMPANY	DIRECT INVESTMENT (%)	COUNTRY OF BUSINESS	BUSINESS
PUBLISHING	MC HELLAS S.A.	50,00%	Greece	Magazine publishing
	HEARST-DOL PUBLISHING LTD	50,00%	Greece	Magazine publishing
	MIKRES AGGELIES S.A.	33,33%	Greece	Magazine publishing
PRINTING	IRIS PRINTING S.A.	50,00%	Greece	Printing

On February 1, 2006 the Company sold to PEGASUS PUBLISHING AND PRINTING SA 20% of the share capital of the subsidiary company IRIS PRINTING SA for a consideration of 17 million euros. After this sale, the investment of Lambrakis Press SA in the share capital of IRIS PRINTING SA became 50%, while the remaining 50% is owned by PEGASUS SA.

On August 31, 2006 the company ILISSOS PUBLISHING SA, that never went into business, was placed under liquidation. As a result it is no longer included in the consolidated financial statements of the Group.

(c.3) Investments in associates: The investments of the Group in associated companies are accounted for in the consolidated financial statements using the method of equity accounting. Associates are the companies in which the Group holds an investment of 20% to 50% and exercises significant influence but does not control them. Investments in associates are recognized initially at acquisition cost and their book value is increased or decreased to reflect the share of the investor in the profit or loss of the associate after the date of acquisition. In the financial statement associates are accounted at their acquisition value less any impairment provisions. The dividends received by the investor from an associate company decrease the associate's book value in the consolidated financial statements.

SECTOR	COMPANY	DIRECT INVESTMENT (%)	COUNTRY OF BUSINESS	BUSINESS
PUBLISHING	MELLON GROUP S.A. COMMUNICATION MEDIA	50,00%	Greece	Magazine publishing
	NORTHERN GREECE PUBLISHING S.A.	33,30%	Greece	Publishing – printing

	PAPASOTIRIOU INTERNATIONAL BOOKSTORE S.A.	30,00%	Greece	Publishing house – bookstore
	TILETIPOS S.A.	22,11%	Greece	TV station "Mega channel"

During the year ended on December 31, 2006, Lambrakis Press SA increased its investment in the share capital of TILETIPOS SA 10,76% to 22,11%. As a result in 2006 TILETIPOS SA was included in the consolidated financial statements of Lambrakis Press SA using the equity method of accounting, while in 2005 the company was not included in the consolidated financial statements of the Group.

The attached financial statements of the Group do not include the financial statements of the following companies :

Company	Business activity	Register Office	Holding	Remarks
PAPER PACK I. TSOUKARIDIS SA	Special Printings - Packaging	METAMORFOSI - ATTICA	36,34%	Available for sale
PHAISTOS NETWORKS SA	IT Applications – Digital Publications	HERAKLION - CRETE	41,31%	No Control
INTEROPTICS SA	IT Applications – Digital Publications	ATHENS	37,18%	No Control
ILISSOS PUBLICATIONS SA	Publishing – under liquidation	ATHENS	50,00%	No business activity – under liquidation
EKDOSEIS 4 LTD	Publishing – under liquidation	ATHENS	45,30%	No business activity – under liquidation

(d) FOREIGN CURRENCY TRANSLATION

The financial statements are presented in euro, which is the functional and presentation currency of the parent company and the group.

Transactions in other currencies are converted to euros applying the foreign exchange rates at the transaction date. The receivables and liabilities in foreign currencies are translated to euro at the balance sheet date to reflect the foreign exchange rates at such date. The gain or loss resulting from the translations of foreign currencies is included in the income statements.

(e) TANGIBLE ASSETS

Land and buildings are evaluated at their inferred cost (i.e. at their fair value on the transition date January 1, 2004) less their accumulated depreciation and any impairment provisions.

As detailed in Note 12, the Company proceeded to value its land and buildings at their fair value on January 1, 2004. These fair values were used as inferred cost on the date of transition to IFRS. The revaluation reserve that arose was transferred to retained earnings.

Machinery, transportation vehicles and furniture and appliances are valued at acquisition cost less accumulated depreciation and any impairment provisions..

Repairs and maintenance are recorded to expenses in the year they incurred. Significant improvements are capitalized in the cost of the relevant fixed assets if such improvements prolong the assets' useful life, increase their production capacity or improve their efficiency.

The recoverable value of a fixed or other asset is measured whenever there is an indication that an asset may be impaired. An impairment loss is recognized when the book value of the asset exceeds the recoverable amount. As recoverable amount is recognized the higher between the net selling price and

its value in use. Net selling price is the amount that may be received from the sale of an asset in an arm's length transaction between knowledgeable parties willing to transact, after the deduction of any selling expenses. Value in use is the present value of estimated future cash flows that are expected to arise from the continuous use of the asset and its sale at the end of its useful life.

Property, land and equipment is reduced upon the sale or withdrawal of the asset or when no further economic benefit is expected from their continued utilization. The profit or loss arising from the sale or impairment of an asset is included in the earnings of the year in which the asset was sold or impaired.

All tangible assets of the Group are used for the Group's operations. There are no real estate investments.

(f) DEPRECIATION

The depreciation of fixed assets is computed based on the straight line method at rates equivalent to the expected useful life of the assets. The expected useful life per class of fixed assets is as follows:

Asset class	THE GROUP Expected useful life	THE COMPANY Expected useful life
Industrial buildings	40 years	-
Other buildings	40 years	40 years
Building installations in third party buildings	5 - 40 years	5 - 40 years
Machinery and other equipment	8 - 20 years	8 - 16 years
Transportation vehicles	5 - 6 years	5 - 6 years
Furniture and other fixtures	3 - 8 years	3 - 8 years

The plots of land, the building lots and the fixed assets under construction are not depreciated

(g) INTANGIBLE ASSETS

Intangible assets include software licenses valued at the acquisition cost minus depreciation.

Intangible assets are recognized at their acquisition cost. Intangible assets that are acquired as part of a business combination are recognized separately from their goodwill if their actual value can be determined reliably at their initial recognition in the books.

Development expenses incurred after the stage of research are recognized in the intangible assets only if all the criteria of IAS Standard 38 are met. Expenses for research, launching an operation, education, advertising and marketing as well as relocation expenses or restructuring all or part of an enterprise are recognized as expenses at the time they occur.

After their initial recognition in the books, the intangible assets are carried at their acquisition cost less accumulated amortization and any accumulated impairment loss.

After the initial recognition, the Management of the Group reviews periodically the intangible assets to determine whether there is a probable impairment of their value. In case that events or conditions imply that the book value of an intangible asset may not be recoverable, a provision is made for impairment loss, so that the book value of this asset reflects its recoverable amount. Intangible assets are deleted from the balance sheet when they are disposed of or when no economic benefit is expected from their use.

Intangible assets are amortized over their useful economic life that does not exceed twenty years. The intangible assets generated internally are amortized over a period of five years.

(h) STATE GRANTS

The subsidies granted by the State within the framework of development regulations are recognized at their collection and recorded in the financial balance sheets as deferred income. The grant is released to the income statement over the expected useful life of the relevant fixed assets and is included with the depreciation expense.

(I) INVENTORIES

Inventories are evaluated at the lower between acquisition cost and net realizable value. The acquisition cost of inventories is determined using the "first in first out" method (FIFO).

The acquisition cost of inventories includes:

- The cost of purchase of goods and services, i.e. the purchase price, import duties and other non-refundable taxes as well as transportation and delivery costs and other expenses directly chargeable to the purchase of goods.
- The conversion costs include the expenditure directly related to the produced items, i.e. direct labor cost and a systematic allocation of fixed and variable production overheads that are incurred in converting raw materials to finished goods.
- Any other costs incurred in bringing the inventories to their present location and condition

The net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale.

(g) RECEIVABLES ACCOUNTS

Receivables are carried at their face value after provisions for non collectible balances. The calculation for doubtful receivables is applied when the full or partial collection of the receivable is no longer probable

(k) CASH AND CASH EQUIVALENTS

Consist of cash, short-term deposits and other investments that can be liquidated immediately with an initial maturity of no more than three months and short term, highly liquid investments that are readily convertible to specific amounts of cash and their value is subject to insignificant risk of fluctuation.

(l) INTEREST BEARING BORROWINGS

All borrowings are initially recognized at cost, that being the fair value of the received consideration less the issuance expenses related to the borrowing. After the initial entry, interest-bearing borrowings are valued at their undepreciated cost using the method of effective interest rate. The undepreciated cost is calculated after allowing for issuance expenses and the difference between the principal amount and the ending amount. Profit and loss is recognized in the net profit or loss when the commitments are deleted or impaired through the depreciation procedure.

Borrowings are classified as short term liabilities when the Group or the Company has the commitment to repay them within twelve months from the date of the balance sheets. In the contrary case, borrowings are classified as long-term liabilities.

(m) PROVISIONS FOR RISKS AND EXPENSES, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognized as required by IAS 37 requirements, when:

- the Group has a current commitment (legal or inferred) as a result of a past event;
- it is likely that an outflow of resources shall be required incorporating financial benefits for the settlement of the commitment; and
- it is possible to value the amount of the commitment reliably.

The provisions are reviewed on the date of every financial statement and are adjusted so as to reflect the present value of the expenses that are expected to be incurred for the settlement of the liability. If the effect of the time value of money is significant, the provisions are calculated discounting the expected future cash flows with a factor before tax that reflects the current estimates of the market for the time value of money and, where necessary, the risks related explicitly to the liability. The contingent liabilities are not accrued in the financial statements but are disclosed, except if the probability of an outflow of resources including economic benefits is minimal. Probable contingent receivables are not recognized in the financial statements but are disclosed when an inflow of economic benefit is probable

(n) PROVISIONS FOR PENSION LIABILITIES

According to the provisions of the Law 2112/20 each employee is entitled to compensation in case of retirement or dismissal from employment. The amount of compensation is related to the longevity of the employment and the salary of the employee at the time of dismissal or retirement.

The liabilities for pension compensation are calculated at the discounted value of the future compensations that are accrued at year end on the basis of the recognition of the employees' right to compensations during their expected employment life. The liabilities are calculated according to the financial and actuarial assumptions that are detailed in Note 28 and are determined using the actuarial method of projected units.

The net pension cost of the year is included in the wage costs in the attached income statement and consists of the present value of compensations that were incurred during the year, the interest on the compensation liability, the cost of former employment (if any), the actuarial profit or loss that are recognized in the year and any other additional pension costs.. The cost of former employment is recognized on a fixed basis on the average period until the benefits of the program are established.

The unrecognized actuarial profit or loss is recognized in the average remaining period of employment of active employees and is part of the net pension cost of each year if at the beginning of the year they exceed the estimated future liability for compensation by 10%. The liabilities for pension compensations are not financed.

The pension liabilities provision recognized in the income statement of the financial years ended on 31.12.2006 and 31.12.2005 were determined after an actuarial study.

(o) STATE PENSION PLANS

The personnel of the Group are covered in terms of pension and medical insurance by the Press Funds (primarily by T.S.P.E.A.TH., E.D.O.E.A.P., T.A.I.S.Y.T.) and the main public insurance fund (I.K.A.). Every employee is obliged to contribute part of his/her monthly salary to the fund while especially for the employees insured in I.K.A., part of their total contribution is covered by the employer. At retirement, the pension fund is responsible for the payment of the pension allowances to the employees and as a result the Group has no legal or constructive liability to pay any pension allowances or medical care to its employees.

(p) REVENUE / EXPENSES RECOGNITION

Revenue from the sale of products or services rendered is recognized in the year that it incurred only if the economic benefit related to the transaction is expected to be realized by the company. The nature of the goods of the Company and the other companies of the Group is such that the transfer of risk and ownership coincides with the issuance of the documents of sale.

Rental revenue is recognized systematically during the lease period according to the lease contract.

Interest is recognized on the accrued revenue basis (taking into consideration the actual return of the asset).

Dividends are recognized when the shareholders' right to collect is established.

Expenses are recognized in the income statement on an accrual basis.

(q) INCOME TAX (CURRENT AND DEFERRED)

Current and deferred income tax is calculated according to the relevant amounts of the financial statements according to the tax legislation applicable in Greece. The current income tax refers to tax on the Company's taxable profit as restated according to the requirements of the tax legislation and is calculated according to the applicable tax rate. The deferred tax is calculated using the liability method to all temporary tax differences on the date of the balance sheet between the tax basis and the book value of assets and liabilities. The expected tax effects from the temporary tax differences are determined and recorded either as future (deferred) tax liabilities or as future (deferred) tax assets. Deferred tax assets are recorded for all tax deductible temporary differences and the tax losses carried forward to the extent that it is estimated that a taxable profit will exist, against which this deductible temporary tax difference can be applied. The book value of deferred tax assets is revised on the date of each balance sheet. The deferred tax assets and liabilities for the current and previous years are evaluated at the amount that is expected to be paid to the tax authorities (or be recovered from them), using tax rates (and tax legislation) that have been established or actually established, until the date of the balance sheet.

(r) FINANCIAL AND OPERATING LEASES

Financial leases that transfer to the Company or the companies of the Group in essence all the risks and benefits related to the leased fixed asset are capitalized at the beginning of the leasing period at the fair value of the leased fixed asset or, if this is lower, at the present value of the minimum lease payments. The payments for financial leases are allocated between the financial expenses and the reduction of the financial liability so as to attain a fixed interest rate for the remaining balance of the liability. The financial costs are expensed directly to earnings. The capitalized leased fixed assets are depreciated according to the shortest period of the expected useful life of the fixed asset or the duration of the lease.

Leases where the lessor retains all risks and benefits arising from the ownership of the fixed asset are recognized as operating leases. The payments of operating leases are recognized as an expense in the income statement on a fixed basis during the lease period.

(s) FINANCIAL INSTRUMENTS – RISK FACTORS

The financial receivables and liabilities in the balance sheet include cash and cash equivalents, assets, investments, short and long term liabilities. The accounting policies of recognition and valuation of items are referred to in this Note. The Group does not use derivative financial instruments either for

hedging risks or for profiteering. The financial instruments are classified as assets, liabilities or equity items according to the nature and content of the relevant contracts from which they arise. Interest, dividend, profit and loss that arise from the financial instruments that are classified as assets or liabilities are recognized as expenses or revenue respectively. The distribution of dividends to shareholders is accounted directly to the net position. Financial instruments are offset when the Company, according to the law, has the legal right and intends to offset the net position (between them) or to recover the asset and to offset the liability at the same time.

The management of financial risk aims to minimize the probable negative impacts. Specifically:

- **Fair value:** The amounts carried in the attached balance sheets for cash and cash equivalents, short-term receivables and short-term liabilities approximate their respective fair values due to their short duration of these financial instruments. The fair value of long-term bank loans is not differentiated from their book value because of the application of floating interest rates.
- **Credit risk:** The Company and the other companies of the Group do not have a significant concentration of credit risk against counterparties due to the high degree of segmentation of their clientele. Retail sales are carried out against cash while for wholesale the Group has set policies to ensure that the counterparties in the sales of goods and services are clients with high creditworthiness.
- **Interest rate risk and foreign exchange risk:** The loans of the Company and the other companies of the Group are denominated in euros and have floating interest rates. Until the date of preparation of these financial statements the Company and the Group did not use derivative instruments in order to decrease their exposure to the risk of interest rate fluctuation. The Management of the Group believes that there are no significant risks from the fluctuations of interest rates and foreign exchange.
- **Market risk:** The Company and other companies of the Group have not signed contracts to hedge the market risk arising from the Company's exposure to fluctuations of prices of raw materials used in the production process.

(t) EARNINGS / LOSSES PER SHARE

The basic earnings/losses per share are calculated by dividing the profit or loss after tax that is attributable to the holders of common shares of the Parent Company with the weighted average number of common shares in circulation during the year. The Company does not calculate diluted earnings per share as it has not issued preferred shares, warrants, share options or share rights that would potentially be converted to common shares (Note 16).

(u). DIVIDEND DISTRIBUTION

Dividend distribution to the Company's shareholders is recognized as a liability in the parent's separate financial statements and in the consolidated financial statements in the period in which the dividends are approved by the General Meeting of the company's Shareholders.

5. ANALYSIS OF THE COMPANY'S TURNOVER

6. SEGMENT REPORTING

A **business sector** is defined as a group of assets and operations which provide products and services subject to different risks and returns from the ones of other business sectors.

The Group is active in the following sectors:

(a) Publishing sector: The publishing sector includes the Parent and other companies that publish newspapers and magazines. The Group publishes the top Greek newspapers "TO VIMA" and "TA NEA" and magazines covering an especially wide spectrum of interests and reading audience

(b) Printing sector: The printing sector includes companies active in electronic pre-press and printing of all kinds of publications

(c) Tourist sector: The tourist sector includes companies active in rendering tourist services through the operation of two travel agencies.

(d) IT and new technologies sector: The IT sector includes the operation of the first and largest Greek internet portal "in.gr" (www.in.gr).

(e) Other investments include publishing houses and bookstores, a TV productions studio, a distribution agency, a call centre and customer relationship management (CRM) company and an internet store (www.shop21.gr).

The Group recognizes the sales and the other transactions among the sectors as sales or transactions to third parties at current market prices.

There is no geographical separation, as the Group is active solely in Greece.

The following tables present information on revenue and profit as well as information on assets and liabilities that refer to the business sectors for the financial years 2006 and 2005.

In November 2004 the new tax law was passed, according to which the corporate tax rate will be gradually decreased. More specifically, for the year 2006 the tax rate decreased to 29%, while from 2007 onwards it will become 25%.

For the year ended 31.12.2006 the income tax expense of the Group is different from the nominal tax that would arise if the 29% tax rate were applied on the Group's earnings mainly due to the utilization of tax deductible losses of previous years of the parent company.

The following table shows the tax amounts according to the nominal and the effective tax rate:

In addition to the above tax-deductible loss for which deferred tax was recognized, the Group has additional tax-deductible loss amounting to 22.611.697,08 euros, for which no deferred tax receivable was recognized, because currently their tax utilization is deemed uncertain. According to the legislation the Group is entitled to utilize the above loss within a period of five years from the fiscal year in which they arose.

Also, a deferred tax receivable amounting to 1.523,75 thousand euros out of a total amount of 6.095,00 thousand euros (i.e. 25% on the right to form tax-deductible reserve of 20.568 thousand euros according to Law 2601), was not recognized by a jointly controlled company for significant investments in building and machinery installations during the years 2000, 2001 and 2002 because

currently its utilization is deemed uncertain. The company can utilize this right until the fiscal year 2015 inclusive.

Furthermore a deferred tax receivable amounting to 93,5 thousand euros out of a total amount of 373,50 thousand euros (i.e. 25% on the right to form tax-deductible reserve of 20.568 thousand euros according to Law 3299/2004, article 3, sec.1) for significant investments in building and machinery installations during the year 2005 was not recognized by the above company because currently their utilization is deemed uncertain. The company can utilize this right until the fiscal year 2015 inclusive.

The Group did not recognize deferred tax liabilities related to tax-exempt reserves of affiliates, because it does not intend to distribute such reserves.

16. PROFIT / (LOSS) PER SHARE

The basic profit/(loss) per share is calculated by dividing the profit or loss that is allocated to the holders of common shares of the Parent Company over the weighted average number of common shares outstanding during the period.

For the purpose of the calculation of basic profit / (loss) the following were taken into consideration:

i) Profit or loss that is allocated to the shareholders of the Parent Company. It is noted that the Parent Company has not issued preferred shares, options or rights convertible to shares.

The earnings of the Company and the Group have no further adjustments.

ii) The average weighted number of common shares outstanding during the period, i.e. the number of common shares outstanding at the beginning of the periods (1.1.2006 and 1.1.2005 respectively) adjusted by the number of common shares issued during these periods, multiplied by a factor of weighted duration of circulation. This factor is the number of days that such shares are outstanding in relation to the total number of days in the period.

During 2005 the parent company proceeded in a net increase of its share capital, consisting of a partial capitalization of the equity account "Share premium" and a decrease of the share capital against write off of losses. As a result of the above, the Company issued 7.700.000 new common shares allocated to the existing shareholders free of any payment and, as a result, the number of common shares outstanding was increased without any cash payment. The number of common shares outstanding before the increase (75.300.000 common shares) was adjusted to account for the new outstanding shares (7.700.000 common shares) from 75.300.000 shares to 83.000.000 shares as if the share capital increase had taken place in the beginning of the oldest of the fiscal years presented, i.e. on 1.1.2005. During 2006 there was no change in the company's share capital. According to the above, the basic profit / (loss) per share for the Group and the Parent Company are as follows:

in euros	<u>THE GROUP</u>		<u>THE COMPANY</u>	
	<u>01.01 – 31.12.2006</u>	<u>01.01 – 31.12.2005</u>	<u>01.01 - 31.12.2006</u>	<u>01.01 – 31.12.2005</u>

There is no reason to quote diluted profit/ loss per share.

17. DIVIDENT PER SHARE

On March 6, 2007 the Company's Board of Directors proposed the distribution of dividend amounting to 4.150.000 € (full amount 0,05 € per share) from the profit of the fiscal year 2006 and the distribution of taxed inventories from previous years. The dividend proposal is subject to approval by the General Meeting of the Shareholders. Under IFRS, the above dividend appears in the equity accounts of December 31, 2006. Following the approval of the distribution of dividend, the above amount will be moved from equity to other short-term liabilities. No dividend was distributed in the fiscal year 2005.

According to the Greek labor law each employee is entitled to compensation in case of retirement or dismissal from employment. The amount of compensation is related to the longevity of the employment and the salary of the employee at the time of dismissal or retirement. If the employee remains with the Company until his/her retirement, the employee is entitled to a benefit equal at least to 40% of the compensation he/she would be entitled to if he/she were dismissed from employment on the same date, unless otherwise provided for in the respective collective wage agreements. The Greek commercial law provides that the companies must form a provision pertaining to all personnel and at least for the liability created by retirement benefits (at least 40% of the total liability unless otherwise provided for in the respective collective wage agreements). This scheme is not financed.

The pension liabilities were determined after an actuarial study.

(b) Commitments from financial leases: On December 31, 2006 the Group does not have any commitments for financial leases.

(c) Commitments for capital expenditures: On December 31, 2006 the Group does not have any commitments for capital expenditures.

(d) Fiscal years unaudited by the tax authorities: The Company has not been audited by the tax authorities for the fiscal years from 2000 to 2006 inclusive. Furthermore, the affiliates of the Group have not been audited by tax authorities mainly for the fiscal years 2003 - 2006. As a result their tax liabilities are not considered final. In a probable future tax audit, the tax authorities may disallow some expenses, in this way increasing the taxable earnings of the Parent Company and its subsidiaries and may impose additional tax, fines and penalties. At this point in time, it is not possible to determine accurately the amount of additional taxes and fines that may be imposed as this depends on the findings of the tax audit and the negotiations that will follow. For this reason a relevant provision has not been formed in the attached interim financial statements. The unaudited fiscal years of the affiliate companies are presented in the following table :

(e) Pending litigation against the company: There are pending litigation matters against the Company and its subsidiaries mainly from articles in the newspapers, the final outcome of which is not expected to have material impact on the financial standing or operation of the Company or the Group. Also, there are appeals pending before the Administrative Court of First Instance of Athens against the payment of additional contributions to pension funds by an affiliate Company amounting to approximately 3 million euros. It is expected that the court ruling for these appeals will be favorable and that there will be no financial impact of the affiliate and the Group.

(f) Registered encumbrances and collaterals: There are no registered encumbrances on the fixed assets of Lambrakis Press SA. On the fixed assets of the jointly controlled IRIS PRINTING SA there is a registered prenotation of mortgage of 98.606 thousand euros securing bank loans having outstanding balance of 55.069 thousand euros on 31.12.2006 as follows (in thousand euros):

Perspectives for 2007

In fiscal year 2006, Lambrakis Press co-operated with an international consulting firm and carried out a plan of administrative and operational restructuring of the group based on the modern international standards followed by mass media companies. The restructuring plan is expected to be completed in 2007.

In the above context, Lambrakis Press Group

The Parent Company is organized on the basis of 5 business units (BUs), ("TO VIMA" newspaper BU, "TA NEA" newspaper BU, Magazine BU, Digital Media BU and Media Affiliates BU), that comprise the core business of the Group. The business units are self-contained and their heads are responsible for the progress of business, the required investment and the financial results of the business activities assigned to their Bus.

The business units are supported by two Centers as follows:

The Business Development Center that is responsible for the overall business development of the Group and the Business Units. This center offers and co-ordinates sales and marketing services in co-operation with the business Units and also supervises the Circulation Office. The Business Development Center has also been assigned the exploitation of synergies among the media-sector affiliates of the Group and supervises the Media Affiliates Business Unit.

The Corporate Center that supervises the financial and administrative operations of the group, and the HR and purchasing departments. The Corporate Center has also been assigned the supervision of the non-media sector affiliates of the Group.

The above structure is part of the Group's strategic planning to concentrate and utilize the Group's resources in order to develop profitable business activities directly related to its core business while concurrently disengaging resources from business that are either non-core or low making.

This strategic approach, as detailed in the 3-year business plan that the Company prepared, is expected to maximize the benefits arising from focusing the corporate resources on the core business, will strengthen its competitiveness, will lower the probable risks from the dispersion of resources in various business activities in which the Group does have any competitive advantages and will finally improve

the performance of the invested capital creating positive excess value and strengthening the Group's prospects to the benefit of its shareholders.

Moving towards this direction, the Group intends to strengthen its position in the mass media sector, whether those media refer to traditional printed media and TV or the emerging new digital media.

The targets of the Group for 2007 include strengthening the operational profitability through the immediate adoption of specific initiatives in sales promotion, decreasing the operational costs and exploiting economies of scale and synergies.

In particular, the measures already taken concern the upgrade of sales monitoring systems, the adjustment, the adjustment of commercial policies, the development of strategies on the basis of tested international practices to improve the image of the newspapers and magazines and the increase of their circulation, the rationalization of the distribution model through monitoring sales and unsold copy returns, the optimization of special offers per issue, the decrease of production costs and the rationalization of advertisement campaigns and promotions (maximization of results in the most efficient way).

SUPPLEMENTARY REPORT OF THE BOARD OF DIRECTORS
TO THE ANNUAL ORDINARY GENERAL MEETINGS OF SHAREHOLDERS

The present supplementary report of the Board of Directors to the Annual General Meeting of shareholders contains information in accordance with article 11a(1) of Law 3371/2005 as amended by article 30 of Law 3461/2006 (Government Gazette A' 106/30.5.2006).

(a) Share Capital Structure

The share capital of the Company amounts to € 45.650.000 fully paid up and is divided into 83.000.000 common registered shares, with a par value of € 0,55 each.

All the shares are listed for trading on the Securities Market of the Athens Exchange under Large Cap Classification.

There are no company's shares listed for trading on any other security market in Greece or abroad.

The Company's shares are common registered with a voting right.

The company's Articles of Association do not provide for shares related with special rights or obligations.

(b) Limitation on the transfer of Company shares.

The shares of the Company may be transferred as provided for by the Law concerning registered dematerialised shares and the Articles of Incorporation provide no limitations regarding the transfer of shares.

Furthermore there is no obligation for a previous approval, granted by the Company or by other shareholders or by public or administrative authority, regarding the transfer of the company's shares.

(c) Significant direct or indirect holdings according to the articles of Presidential Decree 51/1992

On 18.4.2007 the following shareholders held more than 5% of the total voting rights of the Company:

Shareholder	Voting Rights	% of Voting Rights	Shares	% of Share Capital
Christos D. Lambrakis	28.421.261	34,24%	6.941.706	8,36%
Stavros P. Psycharis	20.879.157	25,16%	20.879.157	25,16%
Lambrakis Foundation	0	0,00%	21.479.555	25,88%
Total of voting rights and shares	83.000.000	100,00%	83.000.000	100,00%

The Company is not aware of any other person or legal entity possessing – directly or indirectly - more than 5% of the voting rights of the Company.

Pursuant to the donation contract signed on 22.08.2005, Mr. Christos Lambrakis, shareholder and Executive President of the Company's Board of Directors, donated to Lambrakis Foundation the bare ownership of 21.479.555 common registered shares issued by Lambrakis Press SA. Mr Christos Lambrakis has withheld the usufruct of these shares for life. The usufruct includes the collection of dividends and the voting rights of the donated shares.

(d) Holders of shares which provide special controlling rights.

There are no shares of the Company that confer on their holders special controlling rights.

(e) Limitations on voting right.

There are no limitations provided for in the Articles of Incorporation regarding the right to vote or exercising of such right.

(f) Agreements among Company shareholders.

The Company is not aware of any agreements among shareholders entailing limitations on the transfer of shares or limitations on exercising voting rights.

(g) Rules governing the appointment and replacement of members of the Board of Directors and the amendment of the Articles of Incorporation.

The rules set out in the Articles of Incorporation of the Company on the appointment and replacement of members of the Board of Directors and the amendment of the provisions of the Articles of Incorporation do not deviate from those provided for in the Codified Law 2190/1920 as in force.

(h) Authority of the Board of Directors or certain of its members to issue new shares or to purchase the Company's own shares.

According to the provisions of the article 13 of the Codified Law 2190/20, and the article 6 of the Articles of Incorporation, the Company's Board of Directors, during the first five years following the Company's incorporation or during the first five years following a relevant authorization granted by a resolution of the General Meeting of Shareholders (reached by a two thirds (2/3) majority vote of its members), has the right to increase the share capital of the Company in part or in whole through the issuance of new shares. The amount of the increase cannot exceed the amount of the share capital already at the time of such resolution paid in.

This authorization of the Board of Directors may be renewed by resolution of the General Assembly for a period that cannot exceed five years per renewal.

By a resolution reached according to the provisions of the article 31 par. c of the Codified Law 2190/1920, the General Meeting has the right to increase in part or in whole the Company's share capital through the issuance of new shares. The amount of such increase cannot exceed the fourfold of the initial capital share paid in or the twofold of the share capital already paid in, at the time that such amendment of the Articles of Incorporation is approved.

Exceptionally to the regulations of the above paragraphs, a resolution of the General Meeting complying with the quorum and majority regulations of art. 28 par. C and art. 31 par. d of the Articles of Incorporation is required, in case the reserves exceed one tenth of the paid up share capital.

The share capital increases resolved upon according to paragraphs 1 and 2 do not consist amendments of the Articles of Incorporation.

According to the provisions of the article 16 par. 5 to 13 of the Codified Law 2190/1920, companies listed on the Athens Exchange may, by a resolution of their General Meeting of Shareholders, purchase their own shares on the Athens Exchange, up to 10% of the total outstanding shares, for the purpose of stabilizing the share price under the specific terms and conditions provided for in article 16 of the Codified Law 2190/1920. There is no provision in the Articles of Incorporation of the Company contrary to the above. Such authorization has not been granted to the Board of Directors.

(i) Significant agreement which the Company has entered into and is already enacted, amended or expires in case of a change in the control of the Company after a public offering and the effects of any such agreement.

The Company has no such enacted agreement.

(i) Any agreement which the Company has entered into with members of the Board of Directors or the employees, which provides for compensation in the case of resignation or dismissal without justified cause or termination of tenure or employment due to a public offering.

The Company has no agreements with members of the Board of Directors or its employees providing for the payment of compensation, especially in the case of resignation or dismissal without justified cause or termination of their period of office or employment due to a public offering.

ADDITIONAL DATA AND INFORMATION				
1. The Annual Financial Statements for the fiscal year 2006 - (from which the above Concise Data are derived) - were prepared using the same basic accounting principles and estimates that were applied in the Annual Financial statements of 2005.				
2. There are no registered encumbrances on the real estate assets of the Parent Company. On the real estate assets of affiliated companies of the Group, there are prenotations to mortgages amounting to 98.958 thousand euros as collateral for mainly long-term bank loans with an outstanding balance of approximately 55.069 thousand euros on 31.12.2006.				
3. There are pending litigation matters against the parent company and affiliates, stemming mainly from articles in the newspapers, the final outcome of which is not estimated to have a material impact on the financial standing or operation of the Company or the Group. Also, there are pending appeals by a jointly controlled company in the Administrative Court of First Instance of Athens against the payment of additional contributions to pension funds amounting to approximately 3 million euros. It is expected that the court ruling will be favourable for these appeals and that there will be no financial impact in the jointly controlled affiliate and the Group.				
4. The parent company is unaudited by the Tax Authorities for the fiscal years 2000 upto 2006 while for the consolidated companies the fiscal years unaudited by the Tax Authorities are shown in the relevant table.				
5. a) The analysis of the consolidated turnover per sector of business activity (STAKOD 03) for the period 1.1. - 31.12.2006 is the following (in thousand of euros): Code 221.2: € 102.242,55; code 221.3: € 39.205,45; code 222.1: € 32.754,78; code 633.0: € 31.783,32; code 922.2: € 26.230,89; code 221.1: € 10.709,09; code 521.4: € 10.332,14; code 748.4: € 7.657,78; code 222.4: € 3.288,20; code 222.3: € 2.885,69; code 642.0: € 2.439,31; code 527.1: € 2.228,25; code 741.5: € 1.753,02; code 514.9: € 1.485,70; code 745.0: € 993,95; code 515.7: € 429,03; code 524.7: € 350,22; b) The analysis of the consolidated turnover per sector of business activity (STAKOD 03) for the period 1.1. - 31.12.2005 is the following (in thousand of euros): Code 221.2: € 100.998,01; code 221.3: € 23.537,86; code 521.4: € 10.351,29; code 741.5: € 5.132,47; code 515.7: € 372,52.				
6. The number of employed personnel is the following: Parent company 31.12.2006: 814 employees (31.12.2005: 833 employees). Group 31.12.2006: 2.356 employees (31.12.2005: 2.417 employees)				
7. In February 2006, Lambrakis Press SA sold and transferred to third parties 20% of the share capital of IRIS PRINTING SA, against 17 million euros. As a result the holding of Lambrakis Press SA in the share capital of this affiliate was reduced to 50% from 70% before the sale. Following this sale IRIS PRINTING SA was consolidated proportionally in the consolidated annual financial statements of 2006, while in the annual consolidated statements of 2005 this affiliate was fully consolidated.
