The current condensed interim consolidated financial statements were approved by the Board of Directors on 25 November 2010.

## **2. Basis of preparation of condensed interim consolidated financial statements**

The condensed interim consolidated financial statements as of 30/09/2010 (hereinafter the "financial statements") have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and specifically with International Accounting Standard (IAS) 34 "Interim Financial Statements".

The condensed interim consolidated financial statements include limited information in relation to the annual consolidated financial statements and as a result must be reviewed alongside the annual financial statements of the Group for the period ended 31 December 2009.

The significant assumption, adopted by the Group for assessment of certain accounting sizes as well as sources of uncertainty that affect these assessments are those adopted under the preparation of the annual consolidated financial statements for the period ended as at 31 December, 2009.

The consolidated financial statements are presented in Euro, which is the reporting currency, rounded to the nearest thousand.

## **3. Summary of basic accounting principles**

The Group has fully adopted all the new IFRS and interpretations whose implementation is mandatory for the years starting as at January 1, 2010. Paragraph 3.1 presents Standards, amendments and interpretations that apply to the Group and have been adopted since January 1, 2010. Paragraph 3.2 presents Standards whose implementation is mandatory from January 1, 2010, but which, however, do not apply to the Group operations. Paragraph 3.3 presents effective Standards that are not effective yet and have not been adopted by the E.U.

### **3.1 Changes to accounting principles (Amendments to published standards effective as from 2010)**

- **Annual Improvements 2009**

During 2009, IASB issued the annual improvements to IFRS for 2009, a series of adjustments to 12 Standards, as a part of the annual improvement program. The annual improvement program of IASB aims to make necessary but not urgent adjustments to IFRSs and will not be a part of bigger revision program.

### **3.2 Standards, amendments and interpretations that are effective in 2010 but have not been adopted by the Group.**

- **Adoption of revised IFRS 3: "Business Combinations" and revised IAS 27: «Consolidated and Separate Financial Statements and Accounting for Investments in Subsidiaries»**

The revised standard IFRS 3 introduces significant amendments for the application of the acquisition method for business combinations. Among other changes the standard introduces the possibility of non-controlling interests being measured at fair value. Furthermore, the revised standard requires that the acquirer of a subsidiary recognizes the assets acquired and liabilities assumed as a transaction with owners of the business and any difference should be recognized in equity.

The amended IAS 27 requires that transactions leading to changes in participations in subsidiaries to be recognized in equity. Moreover, the amended standard changes the accounting treatment of losses incurred by a subsidiary in respect of the loss of control over the subsidiary. All the changes to the above standards will be applied subsequently and will affect future acquisitions and transactions with minority shareholders. The revised standards are expected to affect the accounting treatment of business combinations for future periods while this effect will be estimated when the above business combinations are realized and are applied by the entities for annual periods starting on or after 01/07/2009.

- **IAS 39: « Financial Instruments: Recognition and Measurement» - Amendment to IAS 39 Instruments which qualify as hedging instruments**

IAS 39 amendment clarifies hedge accounting issues and specifically those related with inflation and one-sided risk of a hedging instrument.

- **IFRS 2 (Amendment): «Share-Based Payments»**

The IASB has proceeded with the issue of an amendment to IFRS 2 concerned with the investment conditions of the fund and its cancellation. None of the current share-based payment schemes are affected by this amendment.

- **IFRS 1 (Amendment) «First-Time Adoption» - Additional Exceptions for first time adopters**

The amendment provides guidance on the retrospective application of the IFRSs with reference to the measurement of financial assets in oil, natural gas and leasing sectors. The amendment is applicable for annual accounting period starting on or after 01/01/2010.

- **IFRIC 16 “Hedges of a Net Investment in a Foreign Operation”**

IFRIC 16 applies to an entity that hedges the foreign currency risk arising from its net investments in foreign operations and meets the terms for qualifying as hedge accounting in accordance with IAS 39. IFRIC 16 provides guidance on identifying the foreign currency risks that qualify as a hedged risk in the hedge of a net investment in a foreign operation; where, within a group, hedging instruments that are hedges of a net investment in a foreign operation can be held to qualify for hedge accounting; and how an entity should determine the amounts to be reclassified from equity to profit or loss for both the hedging instrument and the hedged item. The current Interpretation is applied only to net investments in foreign operations while it does not apply to other types of hedges such as, for instance, fair value or cash flows hedges

- **IFRIC 17: «Distributions of non-cash assets to owners»**

When an entity proceeds with the announcement for distribution and when it has the obligation to distribute non-cash assets to owners then it should recognize a liability for these dividends payable.

The interpretation IFRIC 17 provides guidance on the cases when an entity should recognize dividends payable, how it should measure them and how it should account for differences

between the book value of non-cash assets distributed and the book value of dividends payable when actual payment takes place.

- **IFRIC 18: «Transfers of assets from customers»**

This interpretation is particularly relevant for entities or organizations in the utility sector. IFRIC 18 clarifies the requirements of IFRS for agreements in which an entity receives from a customer an item of property, plant and equipment that the entity must then use either to connect the customer to a network or to provide the customer with ongoing access to a supply of goods or services (such as a supply of electricity, gas or water). In some cases, the entity receives cash from a customer that must be used only to acquire or construct the item of property, plant and equipment in order to connect the customer to a network or provide the customer with ongoing access to a supply of goods or services (or to do both). The Interpretation provides guidance on cases where the definition of an asset is met, as well as on the recognition and measurement of initial costs. It also provides guidance on how to identify the entity's obligation to provide one or more separately identifiable services in exchange for the transferred asset as well as how to recognize revenue and accounting for cash received by clients.

### **3.3 Standards, amendments and interpretations to existing standards that are not effective yet and have not been adopted by the E.U.**

Furthermore, the IASB has proceeded with the issue of the following new IFRSs, amendments and interpretations which are not mandatory for these financial statements and as at the date of issue of these financial statements have not been adopted by the E.U.

- **IFRS 9: «Financial Instruments»**

The IASB is planning to fully replace IAS 39 «Financial Instruments: Recognition and Measurement» by the end of 2010, that will be put in force for annual financial periods starting at 01/01/2013. IFRS 9 constitutes the first stage of the ongoing project for the replacement of IAS 39. The main stages of the project are as follows:

- 1st stage: Recognition and Measurement
- 2nd stage: Impairment method
- 3rd stage: Hedge accounting

Furthermore, an additional stage concerns issues related with de-recognition. IFRS 9 aims to reduce complexity in the accounting treatment of financial instruments by offering fewer categories of financial assets and a principle based on the approach for their classification.

According to the new Standard, the entity classifies financial assets either at amortized cost or at fair value based on:

- a) the entity's business model for managing financial assets.
- b) the characteristics of the contractual terms of the financial asset give rise on specified dates to cash flows (if it has decided not to appoint the financial asset at fair value through profit and loss).

The division of all financial assets into two categories – amortized cost and fair value – means that only one impairment model will be required in the context of the new standard, thus

reducing complexity. The effect from the application of IFRS 9 is currently evaluated by the Group as it is estimated that the business model that will be selected by the Group for managing its financial assets will have an impact on its Equity and P&L.

- **Amendment to IFRS 1 “First-time Adoption of International Financial Reporting Standards” - limited exemption from Comparative IFRS 7 Disclosures for First-time Adopters**

The current amendment provides limited exemptions to IFRS first time adopters from provision of comparative information pertaining to disclosures required by IFRS 7 «Financial Instruments: Disclosures». The amendment applies to annual accounting periods starting on or after July 1, 2010. This amendment does not apply to the Group, since it is not a first time IFRS adopter.

- **IAS 24 (Amendment) «Related Party Disclosures»**

The aforementioned amendment clarifies the definition of related parties and reduces disclosures regarding related parties of the State. In particular, it rescinds the obligation of State entities to disclose details of all transactions with other State parties, it clarifies and simplifies the definition of a related party and endorses the disclosure not only of transactions and balances between related parties, but also undertakings, both in separate and consolidated statements. The aforementioned amendment has not been endorsed yet by the European Union and has obligatory adoption from 01/01/2011. This amendment is not expected to have significant impact on the financial statements of the Group.

- **IFRIC 14 (Amendment) «Prepayments of a Minimum Funding Requirement»**

The amendment has been issued to raise the limitations that an entity had on the recognition of an asset deriving from voluntary prepaid contributions for minimum funding requirements. The amendment is applicable for annual accounting period starting on or after 01/07/2011. The amendment is not applicable to the Group's operations.

- **IFRIC 19: «Extinguishing Financial Liabilities with Equity Instruments»**

IFRIC19 considers the accounting treatment when an entity renegotiates the terms of a financial liability with its creditor and the creditor agrees to accept the entity's shares or other equity instruments to settle the financial liability fully or partially. The amendment is applicable for annual accounting periods commencing on or after 01/07/2010 and earlier adoption is permitted.

In compliance with Interpretation 19, if a debtor issues equity instruments to a creditor to extinguish all or part of a financial liability, those equity instruments are 'consideration paid' in accordance with IAS 39. Accordingly, the debtor should derecognize the financial liability fully or partly. The debtor should measure the equity instruments issued to the creditor at fair value, unless fair value is not reliably determinable, in which case the equity instruments issued are measured at the fair value of the liability extinguished. If only part of a liability is extinguished, the debtor must determine whether any part of the consideration paid relates to modification of the terms of the remaining liability. If it does, the debtor must allocate the fair value of the consideration paid between the liability extinguished and the liability retained. The debtor recognizes in profit or loss the difference between the carrying amount of the financial liability (or part) extinguished and the measurement of the equity instruments issued. When only part of

the liability is extinguished, the debtor must determine whether the terms of the remaining debt have been substantially modified (taking into account any portion of the consideration paid that was allocated to the remaining debt). If there has been a substantial modification, the debtor should account for an extinguishment of the old remaining liability and the recognition of a new liability.

The amendment applies to annual accounting periods starting on or after July 1, 2010.

The Group does not intend to apply any of the Standards or Interpretations earlier. Based on the existing Group structure and accounting policies followed, the Management does not expect material effects (unless mentioned otherwise) on the financial statements of the company arising from the implementation of the aforementioned Standards and Interpretations as they become effective.

<b>Income tax</b>	<b>(14.089)</b>	<b>(25.703)</b>	<b>(1.322)</b>	<b>(20.472)</b>

Income tax is calculated based on taxable results and the nature of income and expense in accordance with effective tax legislation. With reference to temporary differences between the accounting and tax basis deferred tax has been calculated in accordance with IAS 12.

According to the effective tax legislation in Greece, until 2009 Societe Anonymes used to be taxed at 25% over their total profits. The current tax rate for the year 2010 has been set at 24%. In accordance with Law 3697/2008 from the year 2010 and onwards, the tax rate will be reduced by 1% for each year until 2014, the year in which it will have reached 20%.

Dividends distributed by companies domiciled in Greece and approved by the General Meetings after 1/1/2009 are subject to withholding tax at 10% rate and depletion of the tax liability of the recipient (3697/2008).

Under the Law 3842/23.4.2010 “Re-establishment of tax justice, confrontation of tax evasion and other provisions”, it is imposed, in the name of legal entity, tax of 40% in the profits that are distributed, while the undistributed profits are taxed according to the current tax rate. With the payment of tax 40%, the tax obligation is fulfilled when the beneficiary is legal entity, while when beneficiary is an individual he is taxed under the general provisions. The aforementioned are

applied also to the profits of preceding periods that are going to be distributed of capitalized starting from 1/1/2011.

### Social Responsibility Contribution

As in compliance with Article 5 of the Law 3845/6.5.2010 "Measures for the implementation of the support mechanism of the Greek economy by the Member States of the euro area and the International Monetary Fund", there was imposed on legal persons a lump sum contribution of social responsibility, on the total net income for year 2010 if the income exceeds 100.000 Euro. The contribution is imposed on net profits arising from IFRS implementation since they are higher than the total net income arising based on tax results.

On this basis, the special contribution was recognized in the Financial Statements of the Group of 30.09.2010 and amounted to 8.151 thousand Euros.

Within the nine months period of 2010, there was completed the tax inspection for the years 2005 - 2008 of Marfin Leasing S.A., for the years 2007 - 2008 of Marfin Factors & Forfaiters S.A. and for the years 2007-2008 of Investment Bank of Greece S.A. Regarding the two former companies, the arising tax amounts of 233 thousand Euro and 101 thousand Euro respectively were settled using the special provision and did not burden the period results, while the amount of 7.418 thousand Euro for Investment Bank S.A. burdened the results for the period.

## 7. Earnings per share

### a. Basic

Basic earnings per share are calculated by dividing profit after income tax attributable to shareholders by the weighted average of the existing shares of the Bank during the period, less the weighted average self owned Group companies shares, during the same period.

### a. Diluted

Diluted earnings per share are calculated by adjusting the weighted average of existing shares during the period for potentially irreconcilable shares.

The Group does not hold such shares; therefore there is no reason for differentiating diluted shares from basic earnings per share.

The Bank applied the amendments to IAS 39 and IFRS 7 "Reclassification of Financial Assets" and reclassified investments in securities held for sale into investments in securities available for sale and investment securities available for sale in debt securities loan portfolio. Under the amended IAS 39, the Bank has identified assets, which on July 1, 2008 it did not intend to trade or to sell in the near future. The reclassification was made effective as from July 1, 2008, in accordance with the amended IAS 39, at the carrying amount of the investments as at that date. The carrying amount and the fair value of reclassified investments are shown below:

(amounts in thousand Euro)

	1 July 2008 Book value	30 September 2010 Book value	Fair value
Securities available for sale reclassified as debt securities	414.502	459.070	450.492

If the Bank had not reclassified investments in securities as at 1 July 2008, the fair value reserves of financial assets available for sale would have included unrealized losses amounting to 8.578 thousand euro, representing change in fair value as till the nine month period of 2010 inclusively in investments available for sale, that were reclassified.

Out of the amount of loss of 8.578 thousand Euros, the amount of 3.339 thousand Euros pertains to the period 01.01.2010-30.09.2010, while the remaining amount Euro pertains to prior periods.

Out of the amount of Available for Sale portfolio that has been reclassified, an amount of € 187.387 thousand was hedged against changes in the fair value due to interest rate risk for which the Bank will continue to apply hedge accounting. Interest income from investments reclassified will continue to be recognized in profit and loss using the effective interest method.

In the year 2010, there were sold bonds of book value as at July 1, 2008 amounting to 81.674 thousand Euros with recoverable amount of 92.447 thousand euro. This resulted in incorporation of profit amounting to 5.013 thousand Euros.

At the reclassification date, the interest rates of the trading portfolio ranged between 4.0% and 8.875% and its recoverable amount amounted to € 463.322 thousand.

Furthermore, there was conducted further reclassification in the last quarter of 2009, in respect of available for sale portfolio to loan portfolio debt securities:

(amounts in thousand Euro)

	1 October 2009 Book value	30 September 2010 Book value	Fair value
Available-for-sale investments reclassified as debt securities	1.112.849	1.111.382	863.966

If the above reclassification had not been conducted, there would have been recognized in fair value reserves of financial assets available for sale unrealized loss of 247.415 thousand Euros,

representing the change in the fair value till the nine month period of 2010 inclusively of the investments available for sale that had been reclassified. Out of the aforementioned amount, loss of 180.172 thousand Euros corresponds to 2010.

Out of the amount of available for sale portfolio that had been transferred, an amount of 359.591 thousand Euros had been hedged for changes in the fair value due to interest rate change risk, which are due to interest rate change risk, for which the Bank will continue to apply hedge accounting. Interest from securities that had been transferred will continue to be recognized in interest income, using effective rate.

As at reclassification date, the available for sale portfolio interest rate fluctuated from 1,46% to 8,25% with the recoverable amount standing at 1.078.476 thousand Euros.

On 01/04/2010 there was made a new reclassification of loan portfolio available for sale to loan portfolio debt securities.

*(amounts in thousand Euro)*

	1 April 2010 Book value	30 September 2010 Book value	Fair value
Available-for-sale investments reclassified as debt securities	228.536	237.950	182.823

If the above reclassification had not been conducted, there would have been recognized in fair value reserves of financial assets available for sale unrealized loss of 55.127 thousand Euros, representing the change in the fair value till the nine month period of 2010 inclusively of the investments available for sale that had been reclassified.

Of the amount of available for sale portfolio that had been transferred, an amount of 71.955 thousand Euros had been hedged for changes in the fair value due to interest rate change risk, which are due to interest rate change risk, for which the Bank will continue to apply hedge accounting. Interest from securities that had been transferred will continue to be recognized in interest income, using effective rate.

As at reclassification date, the available for sale portfolio interest rate fluctuated from 6% to 6.1% with the recoverable amount standing at 229.945 thousand Euros.

## 13. Property, plant and equipment

In the financial statements as at 30/6/2010, the Management changed the accounting estimates of the useful life of the Bank's fixed assets, as compared to 1/1/2010 as follows:

Furniture and other equipment	:	from 6,6 years to 10 years
Computers	:	from 4,2 years to 5 years

The above change led to reduced depreciation for the period 1/1/2010 to 30/9/2010 by 838 thousand Euro.
