Independent Auditors' Review Report on Interim Condensed Consolidated Financial Statements

Translation from Greek original audit report text

To the shareholders of "C. Rokas SA"

We have reviewed the accompanying interim condensed consolidated financial statements of C. ROKAS S.A. and its subsidiaries (the "Group"), for the six-month period ended 30 June 2006. We did not separately review the income statement for the second quarter of 2006. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Financial Reporting Standards applicable to interim financial reporting as adopted by the European Union (IAS 34 "Interim Financial Reporting"). Our responsibility is to issue a report on these interim condensed consolidated financial statements based on our review.

We conducted our review in accordance with the Greek Standard on Review Engagements, which is based on the relevant International Standard on Review Engagements. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than the work performed in order to issue an audit report on financial statements. Consequently, we do not express an audit opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim condensed consolidated financial statements of the Group, in order to comply with the International Financial Reporting Standards applicable to interim financial reporting, as adopted by the European Union (IAS 34).

Notes to the interim consolidated financial statements

1. General information

The Rokas Group of Companies (“the Group”) operates in the segments of electromechanical projects, wind energy, and fish farming.

The Group’s activities are in Greece, and its total number of employees is 233 as at 30 June 2006.

The parent company (“the Company”) of the Group is C. Rokas SA, which is a societe anonyme (SA) incorporated and domiciled in Greece at the address Rizareiou 3, Halandri 152 33, Athens, Greece.

The Group’s website address is: www.rokasgroup.gr

The Company is listed on the Athens Stock Exchange.

On 28 August 2006, the Board of Directors of the Company approved these interim consolidated financial statements for issue.

2. Group accounting policies

2.1 Basis of preparation

The interim consolidated financial statements of C. Rokas SA of 30 June 2006 cover the period from 1 January 2006 to 30 June 2006 and have been prepared in accordance with International Financial Reporting Standards, as those have been adopted by the European Union, and more specifically according to IAS 34 “Interim Financial Reporting”.

The accounting policies and the valuation methods that have been used for the preparation and presentation of these interim consolidated financial statements are the same with those applied during the preparation of the most recent annual financial statements, and are presented analytically in the consolidated financial statements of the Rokas Group of 31 December 2005, which are posted on our website www.rokasgroup.gr.

These consolidated financial statements have been prepared under the historical cost convention, as modified by the valuation of derivative financial instruments and available for sale investments at their fair values, and in accordance to the going concern concept for the companies of the Group.

The preparation of financial statements in accordance with IFRS requires the use of certain critical accounting estimates and assumptions. The critical estimates and assumptions have been mentioned in these financial statements where considered appropriate.

These financial statements contain a provision for income tax attributable to the period, based on best estimates of Management with regards to the income tax that will be payable at the end of the running year.

2.2 Accounting estimates

As at 30 June 2006 the Group, based on new facts that occurred and which allowed a more precise review of the Group tax position, re-assessed the relevant provisions for open tax years and also reconsidered the recognition of a deferred tax asset with regards to eliminations of intercompany sales of fixed assets from the parent company to its subsidiaries. The re-assessment of the above matters resulted in a net gain of € 2.2 m, which reduced the income tax charge shown in the consolidated income statement, according to the principles of IFRS with regards to changes in accounting estimates.

3. Financial risk management

Financial risk factors

The Group's activities expose it to various specific financial risks such as market risk, credit risk, liquidity risk, and cash flow interest-rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group uses derivative financial instruments to hedge certain risk exposures.

Risk management is carried out by a central treasury department, under policies approved by the Board of Directors. The treasury department identifies, evaluates, and hedges financial risks in close cooperation with the Group's operating units. The Board approves written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments, and non-derivative financial instruments, and the investment of excess liquidity.

(a) Foreign exchange risk

The Group does not operate internationally, neither does it have long-term borrowings in foreign exchange, and therefore is not exposed to foreign exchange risk arising from currency fluctuations.

(b) Interest rate risk

The operating income and cash flows of the Group are in effect independent from interest rate fluctuations. The Group does not hold significant interest earning investments.

The danger of interest rate fluctuations relates mainly to long-term borrowings. It is Group policy to maintain the majority of its borrowings under floating rates, and to manage this danger via derivative financial instruments.

(c) Credit risk

The Group has no significant concentrations of credit risk. It has policies in place to ensure that sales are made to customers with an appropriate credit history.

(d) Liquidity risk

Liquidity risk is kept at low levels, by maintaining sufficient cash and marketable securities, as well as maintaining flexibility in funding by keeping committed credit lines available.

4. Segment reporting

Primary reporting format - business segments

The Group is organised into three main segments:

1. Electromechanical projects: Study, construction and installation of lifting and transportation equipment, as well as metal constructions for the wind park subsidiaries.
2. Wind energy: Production of electricity via wind energy.
3. Fish farming: Fish farming unit.

The segment results of the Group are as follows:

For the period ended 30 June 2006	E/M projects	Wind energy	Fish farming	Group
Total gross segment sales	11.694	18.296	592	30.582

Income tax expense				(1.023)
Profit / (loss) for the period				9.077
For the period ended 30 June 2005	E/M projects	Wind energy	Fish farming	Group
Total gross segment sales	7.952	16.930	1.024	25.906
Inter-segment sales	(857)	-	-	(857)
Net sales	7.095	16.930	1.024	25.049
Profit / (loss) before income tax	1.919	6.831	(65)	8.685
Income tax expense				(3.435)
Profit / (loss) for the period				5.250

Inter-segment transactions are entered into under normal commercial terms and conditions that would also be available to unrelated third parties.

Secondary reporting format – geographical segments

The Group operates only in Greece, which is the country of incorporation and domicile of the parent Company and its subsidiaries, except for the subsidiary company Rokas Aeoliki Cyprus Ltd, which is domiciled in Cyprus, but has no activity yet.

5. Earnings per share

The basic earnings per share are calculated by dividing the profit attributable to the equity holders of the Company by the weighted average number of ordinary shares in issue during the year, excluding ordinary share purchased by the Company and held as treasury shares.

	Period ended 30 June 2006	Period ended 30 June 2005
Profit attrib. to equity holders of the Co (€ thousands)	8.945	5.189
Weighted average no. of ordinary shares in issue (thousands)	23.774	22.956
Basic and diluted earning per share (€per share)	0,38	0,23

6. Dividends per share

At the Annual General Meeting of the Shareholders of the Company, which took place in 27 April 2006, a dividend of €0,17 per share was approved for the year ended 31 December 2005. These financial statements reflect this dividend as paid, and charged directly to equity during the current period ended 30 June 2006.

(All amounts in € thousands unless otherwise stated in text)

7. Contingencies

Further to those for which provision has been made in these financial statements, there are no other cases that may have significant negative effect on the financial position or operation of the Group.

8. Related party transactions

(a) Main shareholder

The main shareholder of the Company is IBERDROLA ENERGIAS RENOVABLES II SA (subsidiary of the Spanish Group IBERDROLA SA), which, as at 30 June 2006, held 49,9% of the common share capital of the Company. Mr. C. Rokas held 6,5% and Mr. G. Rokas held 3,4%. The rest of the shares are widely held by individual investors.

(b) Transactions and balances with related parties

The transactions that were carried out between the Company and its related parties (subsidiaries), as well as the balances that resulted from these transaction, have been fully eliminated from these consolidated financial statements.

(c) Key management compensation

For the period ended 30 June 2006, the total salaries and benefits of the key management of the Group was € 490 thousands, while the equivalent for the period ended 30 June 2005 was € 473 thousands.

9. Subsidiary companies

The Rokas Group consists of the parent Company C. Rokas SA, as well as 34 further subsidiary companies, the data of which are as follows:
