

**NIREUS AQUACULTURE AE**

**Ninth-month Financial Statements**

**For the ninth- month period**

**from 1 January to 30 September 2006**

**in accordance with the International Financial Reporting Standards (IFRS)**

This is to certify that the attached ninth-month period Financial Statements are those which have been approved by the Board of Directors of NIREUS AQUACULTURE AE on 24 November st 2006 and have been published by filing them with the Public Companies (S.A.) Register and by posting them on the company's web site, at the address, [www.nireus.gr](http://www.nireus.gr). It is noted that, the published in the press summary financial information aim to provide to any reader certain elements of financial information but they do not present a comprehensive view of the financial position and the results of the operations of the Company and the Group, in accordance with International Financial Reporting Standards. Attention is also drawn to the fact that, for simplification purposes, certain financial information published in the press may have been reclassified or amalgamated.

Aristides Belles

Chairman of the Board of Directors

NIREUS Aquaculture AE

## 1. Information on the Company

### 1.1 General Information

The company was established in 1988 in Chios with its object being the creation of production units – culture of fish, process of products, preparation of fishmeal and the trading of the products.

In 1995 the company was listed on the Athens Stock Exchange and since then began its spectacular development in the sector of aquaculture having as a result, today, to be in the Main Market of the ATHEX and having the highest position in the sector.

The main activities of the Group is the production of spawn, production of fish as well as the distribution and trading of various products in domestic and international markets, the production of equipment such as nets, cages etc. for fish farming units, the production and trade in fruit preserves, related sweets and confectionary, the production and trade of fish feed and animal food, the production and trade of processed fish as well as standardized delicacies for catering purposes and the industrial production of dairy products and the processing, production and trade of related food stuffs.

The group operates in Greece and the Company's shares are traded on the Athens Stock Exchange.

The company has its registered office in Greece in the Municipality of Kamphoron – Chios and has offices and production facilities in Koropi – Attica, Dimokritou Street, Portsi.

The company's web site is [www.nireus.gr](http://www.nireus.gr).

These Financial Statements have been approved for issue by the company's Board of Directors on 21.8.2006.

We consider important to report the following: (a) Parent company "NIREUS SA" having fulfilled the agreement of article 44 Laws 1892/1990 , 27/4/2006, and according to decision of Extraordinary General Assembly(25/8/2006), shareholders "SEAFARM IONIAN A.E. ", participates since 18/1/2006 in the increase of the share capital of the company SEAFARM IONIAN AE, as strategic investor by paying in cash until 30<sup>th</sup>/9/2006 the amount of € 5.862.777.78 holding percentage of voting rights 16.78% on the total voting rights of the company and equal percentage on its share capital.

Since 'Nireus' has undertaken the Management of the "Seafarm Ionian " group controlling completely the activities of the SFI group (as Strategic Investor) and meet the requirements of IAS 27 , it consolidates with the method of total consolidation the financial statements of SFI group , starting from the first quarter 2006. According to no 18402/28.6.2006 and the 18433/7.7.2006 pre-Agreement and Private Contract under date 4/7/2006, it was agreed 'Nireus' to purchase 3.144.907 nominal shares of "Seafarm Ionian " on a total price of Euro 7.731.000 .The payment and the corresponding delivery of shares will be realized in installments that will began from 6/7/2006 and will expire in the 30/6/2010.

The Group SEAFARM IONIAN (Seafarm Ionian AE & its subsidiaries) is involved in the wider field of aquaculture and is considered as one of the largest producers of sea bass and sea bream in the world.

NIREUS SA with the undertaking of the Management of the company SEAFARM IONIAN AE & its subsidiaries as strategic investor will proceed in replanning of the Group of SEAFARM IONIAN with the aim of its reorganisation and the reinforcement of its leading position in the sector of aquaculture worldwide.

Besides based on the special agreement between 'Nireus' as Strategic Investor of " Seafarm Ionian & the **Banks-creditors** which participate in the Share Capital of " Seafarm Ionian are also mentioned the following:

1. a)The INVESTOR ('Nireus') whenever after the expiration of the 10th year and up to the expiration of the 15th year from the payment of the increase, it is eligible for 'Nireus' to buy & also the **CONTRACTING BANKS-creditors** are compelled to sell proportionally, based on their participation in the share capital composition of SFI at the date of their

entry, globally percentage of action 30% at least of the total shares of **Seafarm Ionian**, on a purchased price defined as in the next paragraph.

B) It is defined as fixed price for the INVESTOR the nominal value of action equal to 1,00 Euros of henceforth interest calculated with interest-rate Euribor of the year + margin of interest-rate 1.00% and with annual compound interest for the time period from the date of certification of increase of capital (from now on “the increase”) and up to the date of repurchase

4. The INVESTOR in case of not exercise or partial exercise of the right of previous paragraph, is obliged to buy exclusively from the contracting Banks at the expiry of 15th year from the increase of the remaining action up to the completion of percentage of action of 31,80% of total shares of company proportionally, based on their participation in the share capital composition of **SFI** at the date of their entry.

5. It is able however the CONTRACTING BANKS CREDITORS at the time interval from the expiry of 10th year up to the expiry of the 14th from the payment of increase to oblige the INVESTOR to buy the percentage that is reported in paragraph 4 in the price that is defined according to paragraph 3[b] under the condition of simultaneous issuing in this joint and proportionally equal in amount with its value transaction of loan, duration of equal time up to the completion of 10 years with interest-rate Euribor of year + margin of interest-rate 1,00% plus legal taxes.

The international activity of NIREUS S.A will be realized via NIREUS INTERNATIONAL LDT as a subsidiary 100% company, based in Cyprus which will be the Holding company of all foreign Investment of the Group. NIREUS INTERNATIONAL LTD also holds MIRAMAR PROJECTS CO LDT based in London (England)(100% subsidiary). MIRAMAR PROJECTS CO LDT has established MIRAMAR SU URUNLERI VE BALIK YEMI URETIMI SANAYI VE TICARET based in Turkey. Turkes law demands at least five share holders for every company , thus the MIRAMAR SU URUNLERI VE BALIK YEMI URETIMI SANAYI VE has the following sharing composition:

1) MIRAMAR PROJECTS CO 99,92% 2) NIREUS SA. 0,02% 3) PROTEUS CONSTRUCTION S.A 0,02% 4) Aristidis Belles 0,02% 5) Nikolaos Haviaras 0,02%.

The ninth-month period financial statements include the company’s ninth-month period financial statements in accordance with the IFRS for the period ended on 30 September 2006, of “NIREUS AQUACULTURE AE” (the Company) and the ninth-month period consolidated financial statements of the Company according to the IFRS for the period ended 30 September 2006 (the Group). The Group’s structure and the subsidiaries are presented in Note 6.4 of the financial statements.

## 1.2 Nature of Activities

“NIREUS AQUACULTURE AE” (the Company) and the Group is involved in a range of activities in the aquaculture sector. More specifically:

- Production of spawn
- Production of fish
- Production of fish feed
- Processing/Manufacturing of fished fish

## NIREUS AQUACULTURE AE

- Processing/Manufacturing of pre-cooked meals
- Distribution and Trading of various products both in domestic and international markets

The company produces spawn, produced from the hatching of eggs obtained from spawn – generating adult fish. The Company itself to supply its fish production – fattening units, uses most of this spawn.

Then the fish production is distributed in the domestic and international markets.

Therefore, the company is to a significant degree well established and the object of its activities is of a wide range.

The production of various kinds of fish was, and remains the Company's most primary activity. The fattening process requires the most time, from the minute spawn is produced, until the product reaches the market.

Processing is one of the most important areas of development for the Company. This sector mostly involves the processing of fresh, frozen, smoked fish and oiled fish.

The company has been awarded for its export activities.

Moreover, the company, following the absorption of its subsidiary company FEEDUS AE in the year 2005 is involved in the production and trade of fish feed as well as the production and trade of sweets and other similar confectionary products.

### **1.3 The Company's position in the sector of Aquaculture**

The company holds the leading position in the sector of Aquaculture:

- \* Largest producer of sea bass and sea bream in the world
- \* Pioneer in the development of new kinds of fish (tuna, lingua, brills)
- \* Pioneer in research (food, spawn, fish equipment)
- \* Scattered production units for dissemination of risk
- \* Worldwide distribution network

NIREUS AE and the other companies contribute to the up till now development of the group. The new conditions requisition the re-planning of the group, in order to strengthen the clarity of its object and its further rationalization. Subsidiary companies have already been merged with NIREUS AE, other mergers will be made within the year 2006, while companies and units will be removed from the group that do not have a connection to aquaculture and fish. Leading part of the re-planning was the merger of "FEEDUS AE" with NIREUS AE. After the re-planning there will be a small number of companies, the size of NIREUS AE will be significantly increased, the cost will further be rationalised and significant synergies will arise, strengthening the efficiency and value of the group.

Finally, the activities and products of the group will be the aquaculture, the fish products and the fish feed, with emphasis on well establishment of production and achievement of added value.

#### 1.4 “NIREUS AE” Group

## 1.6 Operations and main activities

The Group is active in the development and production of fish (biological assets), which then sells to various customers. At 30/9/2006 the Fair value of Spawn amounted to € 10.417.200 the fish to €131.404.507

## 2. Basis of preparation of the financial statements

The ninth-month period financial statements of “NIREUS AQUACULTURE” AE at 30 September 2006 covering the period from 1 January to 30 September 2006, have been prepared under the historical cost convention as amended with the adjustment of certain assets and liabilities items at current value, the going concern basis and are in accordance with the International Financial Reporting Standards (IFRS) as these have been published by the International Accounting Standards Board (IASB), as well as their interpretations, as published by the International Financial Reporting Interpretations Committee (I.F.R.I.C.) of the IASB and which have been adopted by the European Union.

The International Accounting Standards Board (IASB) has issued a series of standards that are referred to as “IFRS Stable Platform 2005”. The Group adopts the IFRS Stable Platform 2005 from 1 January 2005, which includes the following standards:

|        |   |
|--------|---|
| IAS 1  | Presentation of Financial Statements  |
| IAS 2  | Inventories   |
| IAS 7  | Cash Flow Statements  |
| IAS 8  | Accounting Policies, Changes in Accounting Estimates and Errors                     |
| IAS 10 | Events After the Balance Sheet Date   |
| IAS 11 | Construction Contracts  |
| IAS 12 | Income Taxes  |
| IAS 14 | Segment Reporting   |
| IAS 16 | Property, Plant and Equipment   |
| IAS 17 | Leases  |
| IAS 18 | Revenue   |
| IAS 19 | Employee Benefits   |
| IAS 20 | Accounting for Government Grants and Disclosure of Government Assistance            |
| IAS 21 | The Effects of Changes in Foreign Exchange Rates                                    |
| IAS 23 | Borrowing Costs   |
| IAS 24 | Related Party Disclosures   |
| IAS 26 | Accounting and Reporting by Retirement Benefit Plans                                |
| IAS 27 | Consolidated and Separate Financial Statements                                      |
| IAS 28 | Investments in Associates   |
| IAS 29 | Financial Reporting in Hyper-inflationary Economies                                 |
| IAS 30 | Disclosures in the Financial Statements of Banks and Similar Financial Institutions |
| IAS 31 | Interests in Joint Ventures   |

|        |  |
|--------|--|
| IAS 32 | Financial instruments: Disclosure and Presentation                 |
| IAS 33 | Earnings per Share   |
| IAS 34 | Interim Financial Reporting  |
| IAS 36 | Impairment of Assets   |
| IAS 37 | Provisions, Contingent Liabilities and Contingent Assets           |
| IAS 38 | Intangible Assets  |
| IAS 39 | Financial Instruments: Recognition and Measurement                 |
| IAS 40 | Investment Property  |
| IAS 41 | Agriculture  |
| IFRS 1 | First-time Adoption of International Financial Reporting Standards |
| IFRS 2 | Share-based Payment  |
| IFRS 3 | Business Combinations  |
| IFRS 4 | Insurance Contracts  |
| IFRS 5 | Non-current Assets Held for Sale and Discontinued Operations       |

The financial statements are prepared under IFRS 1 “First-time Adoption of International Financial Reporting Standards”, because they are the first financial statements prepared and published on that basis.

The accounting policies mentioned below have been implemented with consistency for all the periods presented.

The preparation of financial statements in conformity with IFRS requires the use of estimates and assumptions in the process of applying the Company’s policies. Significant management assumptions in the process of applying the company’s accounting policies are mentioned where necessary.

### **3. Basic Accounting Policies**

The accounting policies based on which are prepared the accompanying financial statements and which the Group systematically applies are the following:

#### **3.1 New accounting standards and IFRIC interpretations**

The International Accounting Standards Board (IASB) as well as the International Financial Reporting Interpretations Committee (IFRIC) has already published a series of new accounting standards and interpretations, which are not included in the “IFRS Stable Platform 2005”. The IFRS and the IFRIC are mandatory for accounting periods beginning on 1 January 2006. The Group’s assessment of the impact of these new standards and interpretations is set out below:

**- IFRS 6, *Exploration for and Evaluation of Mineral Resources***

The Group does not have any exploration and evaluation assets. This standard will not affect the Group's financial statements.

**- IFRIC 3, *Emission Rights***

Not applicable to the Group and will not affect the Group's financial statements.

**- IFRIC 4, *Determining whether an Asset contains a Lease/IFRS for Oil and Gas Emission rights***

Not applicable to the Group and will not affect the Groups' financial statements.

**- IFRIC 5, *Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds.***

Not applicable to the Group and will not affect the Group's financial statements.

### **3.2 Segment Reporting**

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments.

A geographical sector is defined as a geographical area providing products and services within a particular economic environment that is subject to risks and returns that are different from those of segments operating in other economic environments.

The primary activity segments of the Group are aquaculture, the production and sale of fish meal, the production of foodstuffs & confectionery products as well as their resale and other related services. As for the geographical area, the Group is active in the Greek Territory, the Euro zone and in Other countries.

### **3.3 Consolidation**

**Subsidiaries:** are all entities that are managed or controlled, directly or indirectly, by another entity (parent company), either through the holding of the majority of the shares of the investee company or through its dependence on the know-how provided by the group. That is to say that subsidiaries are entities on which the parent company exercises control. Nireus AE gains and exercises control through voting rights. The existence of potential voting rights that are exercisable during the preparation of the financial statements is considered in order to assess whether the parent company controls the subsidiaries. The subsidiaries are fully consolidated (full consolidation) with the acquisition method from the date on which control is transferred to the group and are de-consolidated from the date on which control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured, as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the identifiable assets acquired, the difference is recognised directly in the income statement.

Especially for the business combinations that took place before the date of transition of the Group to the IFRS (1<sup>st</sup> January 2004) was used the exemption of IFRS 1 and was not retrospectively applied the purchase method. Within the framework of the above exemption, the Company did not recalculate the cost of subsidiaries acquired before the date of transition to the IFRS, or the fair value of the assets and liabilities acquired on the date of the acquisition. Therefore, the goodwill recognised on the transition date was based on the exemption of the IFRS 1 and was calculated according to the previous accounting policies and was presented in the same way that it was presented in the last published financial statements of the group, before the transition to the IFRS.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Subsidiaries' accounting policies have been changed where necessary to ensure consistency with the policies adopted by the Group.

**Associates:** are entities over which the Group has significant influence but do not meet the conditions to be considered either as subsidiaries or participation in a joint-venture. The assumptions used by the group have a shareholding of between 20% and 50% of the voting rights of a company states a significant influence on this company. Investments in associates are accounted for by the equity method of accounting and are initially recognised at cost. At the end of each year, the cost is increased with the percentage of the investing company of the changes in equity of the invested company and is decreased with the received dividends from the associate.

As regards to the surplus acquisition, this reduces the value of the participation with charge of the income statement, when its value is reduced. The Group by applying the IFRS 3 does not perform depreciation and the goodwill will be presented in the net book value that has been formed until 31/12/2003, less any impairments of its value.

The Group's share of its associates' post-acquisition profits or losses is recognised in the income statement, and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment in associates. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

The companies participating in the interim financial statements are set out in the following table:

| COMPANY  | COUNTRY OF INCORPORATION | PARTICIPATION PERCENTAGE                   | CONSOLIDATION METHOD |
|--|--------------------------|--|----------------------|
| AQUACOM LTD  | BRITISH VIRGIN ISLANDS   | 100,00%                                    | FULL CONSOLIDATION   |
| MILOKOPIS FISH FARMING SA  | GREECE                   | 100,00%                                    | FULL CONSOLIDATION   |
| ALPINO S.A   | GREECE                   | 98,77%                                     | FULL CONSOLIDATION   |
| FOKIDA FISH FARMING S,A  | GREECE                   | 98,53%                                     | FULL CONSOLIDATION   |
| EUROCATERERS A.E.B.E.  | GREECE                   | 100,00%                                    | FULL CONSOLIDATION   |
| PROTEUS CONSTRUCTION S.A.  | GREECE                   | 50,00%                                     | FULL CONSOLIDATION   |
| INTERPESCA AE  | GREECE                   | 96,64%                                     | FULL CONSOLIDATION   |
| A-SEA AEBE   | GREECE                   | 61,22%                                     | FULL CONSOLIDATION   |
| NIREUS INTERNATIONAL LTD   | CYPRUS                   | 100,00%                                    | FULL CONSOLIDATION   |
| MIRAMAR PROJECTS CO LTD - UK                                     | ENGLAND                  | 100% indirect                              | FULL CONSOLIDATION   |
| MIRAMAR SU URUNLERI VE BALIK YEMI URETIMI SANAYI VE TICARET A.S. | TURKEY                   | 100% indirect                              | FULL CONSOLIDATION   |
| ILKNAK   | TURKEY                   | 3,096% direct + 42,203% indirect = 45,299% | FULL CONSOLIDATION   |
| BLUFIN TUNA AE   | GREECE                   | 25,00%                                     | NET EQUITY           |
| SEAFARM IONIAN A.E.  | GREECE                   | 16,78% direct                              | FULL CONSOLIDATION   |
| SEAFARM KALAMOS A.E.   | GREECE                   | 16,647% indirect                           | FULL CONSOLIDATION   |
| ALPHA ZOOTROFES LOKRIDOS   | GREECE                   | 14,506% indirect                           | FULL CONSOLIDATION   |
| SEAFARM IONIAN (CENTRAL EUROPE)GMBH                              | GERMANY                  | 16,78% indirect                            | FULL CONSOLIDATION   |
| OCTAPUS A.E.   | GREECE                   | 16,771% indirect                           | FULL CONSOLIDATION   |

| AQUA TERRAIR A.E.  | GREECE                   | 8,222% indirect                            | NET EQUITY           |

### 3.4 Biological Assets and Agricultural Activity

Agricultural activity is the management by an enterprise of the biological transformation of biological assets for sale, into agricultural produce, or into additional biological assets. A biological asset is a living animal or plant under management by an enterprise, while agricultural produce is the harvested product of the enterprise's biological assets, which are intended for sale, process or consumption. The right of management of biological assets can arise from ownership or from another type of legal action.

With the definition “**Agricultural Activity**” we describe a diverse range of activities, which have certain common features such as:

- ✓ Capability of change, for example, living animals and plants, which are capable of biological transformation.
- ✓ Management of change, creating, reinforcement or at least stabilising conditions necessary in order for the living organism to develop.
- ✓ Measurement of change, that is the difference brought about by biological transformation so much in quality (ripeness, fat cover) as also in quantity (weight, progeny) of the enterprise's biological assets.

An enterprise should recognise a biological asset or agricultural produce when, and only when:

- 1) The enterprise controls the asset as a result of past events.
- 2) It is probable that future economic benefits associated with the asset will flow to the enterprise.
- 3) The cost of the asset can be measured reliably.

A biological asset should be measured upon initial recognition and at each balance sheet date at its fair value less estimated point-of-sale costs, except for the case where the fair value cannot be measured reliably.

If an active market exists for a biological asset or agricultural produce, the quoted price in that market is the appropriate basis for determining the fair value of that asset. If an enterprise has access to different active markets, the enterprise uses the most relevant one.

If an enterprise has access to two active markets, it would use the price existing in the market expected to be used.

There is a presumption that fair value can be measured reliably for a biological asset. However, that presumption can be rebutted only on initial recognition for a biological asset for which market-determined prices or value are not available and for which alternative estimates of fair value are determined to be clearly unreliable. In such a case, that biological asset should be measured at its cost less any accumulated depreciation and any accumulated impairment losses. Once the fair value of such a biological asset becomes reliably measurable, an enterprise should measure it at fair value less estimated point-of-sale costs.

The company after the initial recognition of the biological assets measures them at each subsequent balance sheet date at fair value less the estimated until disposal cost.

A gain or loss that may arise on initial recognition of a biological asset and its subsequent measurement (less the estimated point-of-sale costs in both circumstances), are recognised in the results for the year in which it arises. Gain may arise also on initial recognition of biological assets, as for example, the birth of a living organism.

Biological assets are divided into subcategories depending on the stage of ripeness so that the reader of the financial statements is informed for the timing of future cash flows, which the enterprise expects to have from the exploitation of the biological assets.

### **3.5 Foreign currency translation**

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the Group operates (the "functional currency"). The interim financial statements are presented in Euros, which is the parent Company's and all of its subsidiaries functional and presentation currency.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement. Translation differences on non-monetary items measured at fair value through profit or loss, are reported as part of their fair value gain or loss.

The Group's operations abroad in foreign currency (which comprise an inseparable part of the parent's operations), are translated into the functional currency using the exchange rates prevailing at the dates of the transactions, while the assets and liabilities of the operations abroad, including goodwill and the adjustments of the fair value, resulting from the consolidation are translated into Euro with the exchange rates prevailing at the balance sheet date.

The individual financial statements of the companies participating in the consolidation, and which are initially presented in a different currency from that of the presentation currency of the Group are translated into Euro. The assets and liabilities have been translated into Euro at the exchange rate prevailing at the closing date of the balance sheet. The income and expenses have been translated into the Group's presentation currency at the average exchange rates of the referred period. Any exchange differences arising from that procedure have been debited/(credited) to the reserve for translation of subsidiaries balance sheets in foreign currency of the equity.

### **3.6 Property, plant and equipment**

All property, plant and equipment are presented in the financial statements at cost or at values of cost incurred as defined according to the fair values at the date of transition, less the accumulated depreciation and impairments of assets. Cost includes all directly attributable expenditure for the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow the Group and the cost of the item can be measured reliably. All repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation on assets (except land which is not depreciated) is calculated using the straight-line method over its estimated useful lives, as follows:

|                               |           |
|-------------------------------|-----------|
| Buildings                     | 40 years  |
| Plant & Mchinery              | 7-8 years |
| Vehicles                      | 5-7 years |
| Furnitures & other equipments | 3-5 years |

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the income statement. All repairs and maintenance are charged to the income statement during the financial period in which they incurred.

Company-developed property, plant and equipment are added to the cost of the assets, which include the direct payroll cost of the staff that participates in the development (respective employer contributions), the cost of consumables and other general costs.

### 3.7 Investment Property

Investment property are investments that concern all property (in which are included land, buildings or part thereof) that is held by the owner (or by the lessee under a finance lease), or for the purpose of earning rentals from their leasing either for the increase of their value (strengthening of capital) or for both.

Investment property is initially recognised at cost, which is surcharged with all expenses related to the transaction for their acquisition (e.g. notary fees, broker's fees, transfer taxes).

After the initial recognition the investment property is measured at fair value, that is, at the cost at which the property can be exchanged between informed and willing parties in a usual trade transaction. A professional qualified valuer determines the fair value of the investment property annually.

Any change at fair value of investment property is presented in the income statement in the financial period in which it arises.

At 30/9/2006, the Group has classified in investment property, land and buildings totalling € 5.584.870,57.

### 3.8 Intangible assets

Intangible assets include goodwill, concessions and industrial property rights such as exploitation in fish farming, as well as the computer software.

**Goodwill:** Goodwill represents the excess of the cost of acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary/associate at the date of acquisition. The company at the date of acquisition recognizes goodwill arising from the acquisition, as an asset item, and disclosed it at cost. This cost is equal to the amount by which the consolidation cost exceeds the enterprises share assets, liabilities and in the contingent liabilities of the acquired company.

After the initial recognition goodwill is measured at cost less accumulated losses owing to decrease of its value. Goodwill is not depreciated, but is tested annually for impairment of its value, if there are events that provide evidence for loss under IAS 36.

In the circumstance where the cost of acquisition is less than the company's share in equity of the acquired enterprise, then the first calculates once again the cost of the acquisition, measures the asset items, the liabilities and contingent liabilities of the acquired enterprise and is directly recognised in the income statement as profit any difference remains after the recalculation.

**Concessions and industrial property rights:** The concessions and the industrial property rights concern the licences for aquacultures and are measured at fair value according to the appraisal of qualified appraisers, less amortisation. Amortisation is calculated using the straight-line method over the useful life of these assets, which has duration of the duration of the exploitation licence of the ocean. The measurement appraisal is found in progress and will be stated in the financial statements when completed by applying standard 38 in connection with standard 20. This standard in paragraph 44 states, "in some cases, an intangible asset may be acquired free of charge, or for nominal consideration, by way of a government grant. This may occur when a government transfers or allocates to an enterprise intangible assets such as airport landing rights, licences to operate radio or television stations, import licences or quotas or rights to access other restricted resources". Under IAS 20, Accounting for Government Grants and Disclosure of government Assistance, an enterprise may choose to recognise both the intangible asset and the grant at fair value initially.

**Computer software:** Acquired computer software licences are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives 1 to 3 years. Costs associated with developing or maintaining computer software programs are recognised as an expense as incurred.

### 3.9 Impairment of assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment and whenever events indicate that the carrying amount may not be recoverable. Assets that are subject to amortisation are tested for impairment whenever events indicate that the carrying amount may not be recoverable. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. The loss due to decrease of the assets value is recognised by the enterprise, when the carrying amount of these assets (or cash-generating units) is higher to their recoverable amount.

The net costs to sell are considered the amount from the disposal of an asset within the frame of a reciprocal transaction, in which the parties have full knowledge and enter willingly, after the deduction of any additional direct disposal costs of the asset, while the value in use is the present value of the estimated future cash flows, expected to flow to the enterprise from the use of an asset and from its distribution at the end of its estimated useful life.

### **3.10 Financial Instruments**

A financial instrument is any contract that gives rise to both a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

The financial instruments of the Group are classified in the following categories based on the essence of the contract and the purpose for which they were acquired.

#### **i) Financial assets at fair value through profit or loss**

They refer to financial assets that satisfy any of the following presumptions:

- ✓ Financial assets held for trade purposes (including derivatives, except those that are defined and effectively hedged, those acquired or created for the purpose of disposal or reacquisition and those that comprise part of the portfolio from recognised financial instruments).
- ✓ During the initial recognition is defined by the enterprise as an item that is measured at fair value, with recognition of changes in the income statement.

#### **ii) Loans and receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. In this category (Loans and receivables) are not included:

- ✓ receivables from advances for purchase of goods or services,
- ✓ receivables that have to do with tax transactions, that have been imposed legislatively by the State,
- ✓ whatever is not covered by a contract so that it gives the right to the enterprise for receiving cash or other financial assets.

Loans and receivables are included in current assets, except for maturities greater than 12 months after the balance sheet date. The latter are included in the non-current assets.

#### **iii) Held-to-maturity investments**

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity. The Group did not hold any investment in this category.

#### **iv) Available-for-sale financial assets**

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.

Then, the available-for-sale financial assets are measured at fair value and gains or losses are recognised in a reserve under equity until the assets are sold or characterized as impaired.

On sale or when characterized as impaired, gains or losses are transferred to the income statement. Impairment losses that have been recognised in the income statement are not reversed through the income statement.

Purchases and sales of investments are recognised on trade-date the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Investments are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

Loans and receivables are carried at amortised cost using the effective interest rate method.

Realised and unrealised gains and losses arising from changes in the fair value of the financial assets at fair value through profit or loss' category are included in the income statement in the period in which they arise.

The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active, the Group establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, and discounted cash flow analysis refined to reflect the issuer's specific circumstances.

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is considered in determining whether the securities are impaired. If such evidence exists, the cumulative loss -measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss- is removed from equity and recognised in the income statement.

### **3.11 Inventories**

At the balance sheet date, inventories are stated at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses. Cost of inventories does not include finance expenses.

The cost of inventories includes all costs of purchase, conversion and other costs realised in order for the inventories to reach their present state and position.

The cost of purchase of inventories comprises the purchase price, import duties and other taxes (other than those subsequently recoverable by the enterprise from the tax authorities), and transport, handling and other costs directly attributable. Trade discounts, debates and other similar items are deducted in determining the costs of purchase.

The costs of conversion of inventories include costs directly related to the units of production, such as direct labour. They also include a systematic allocation of fixed and variable production overheads that are incurred in converting materials into

finished goods. Fixed production overheads are those indirect costs of production that remain relatively constant regardless of the volume of production, such as depreciation and maintenance of factory buildings and equipment, and the cost of factory management and administration. Variable production overheads are those indirect costs of production that vary directly, or nearly directly, with the volume of production, such as indirect materials and indirect labour. The allocation of fixed production overheads to the costs of conversion is based on the normal capacity of the production facilities. Normal capacity is the production expected to be achieved on average over a number of periods or seasons under normal circumstances, taking into account the loss of capacity resulting from planned maintenance. The actual level of production may be used if it approximates normal capacity.

Other costs are included in the cost of inventories only to the extent that they are incurred in bringing the inventories to their present location and condition. For example, it may be appropriate to include non-production overheads or the costs of designing products for specific customers in the cost of inventories.

### **3.12 Trade receivables**

Trade receivables are recognised initially at fair value and subsequently, measured at amortised cost using the effective interest method, less provision for impairment. In case the amortised value or cost of a financial asset exceeds the current value, then this asset is valued at its recoverable amount, e.g. at the current value of its future cash flows, which is calculated based on the real initial interest rate. The loss is directly transferred to the income statement. The amount of the impairment loss, e.g. when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables, is recognised in the income statement.

### **3.13 Cash and cash equivalents**

Cash and cash equivalents include cash in hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months, such as products of the financial market and the bank deposits as well as the overdraft bank accounts. The products of the financial market are financial assets measured at fair value through the income statement.

### **3.14 Non-current assets classified as held-for sale**

The assets held for sale comprise the other assets (including goodwill) and the property, plant and equipment that the Group intends to sell within the year starting from the date on which they were classified as “held for sale”.

The assets, which are classified as «held for sale», are valued at the lowest price between their carrying amounts right before their classification as held for sale and their fair value less the cost of sale. The assets classified as “held for sale” are not subject to depreciation. The gains or losses occurring from the sale and revaluation of the “held for sale” assets is included in the “Other income” and “Other expenses” items respectively, in the income statement.

The Group has not classified non-current assets as held for sale.

### **3.15 Share capital**

Expenses realised for the issue of shares are shown in equity as a deduction, net of tax, from the proceeds. Expenses related to the issue of shares for acquisition of enterprises are included in cost of the enterprise that is acquired. Where any Group company purchases the Company's equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs, is deducted from equity attributable to the Company's equity holders until the shares are cancelled, reissued or disposed of. Every gain or loss from sale of treasury shares net from direct for the transaction of other expenses & taxes is shown as a reserve in equity.

### **3.16 Borrowings**

Borrowings are recognised initially at fair value. Borrowings are subsequently stated at amortised cost using the effective interest method. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

### **3.17 Income tax & deferred tax**

The taxes charged to the period consist of current and deferred taxes, i.e. taxes and tax relieves related to the financial benefits incurring within the period but have been charged or are going to be charged from the tax authorities to different periods. The income tax is recognised in the income statement of the period, except when the tax concerns transactions directly classified in equity, in which case it is directly charged in equity.

Current income taxes include short-term liabilities or receivables attributable to the tax authorities related to payable taxes on the period's taxable income and any additional prior period's taxes.

Current taxes are calculated according to effective tax rates and tax laws prevailing in the relevant periods, based on taxable profits for the year. All changes in short-term tax assets or liabilities are recognised as tax expenses in the income statement. Deferred taxes are calculated with the liability method in all temporary tax differences as of preparation date of the balance sheet occurring between the tax base and the book value of the assets and liabilities. The deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction, other than business combination, that at the same time of the transaction affects neither accounting nor taxable profit or loss.

Deferred tax assets and liabilities are determined using tax rates that (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. In case it is not possible to determine the time of reversal of the temporary tax differences, the tax rate used is that of the fiscal year following that of the balance sheet.

Deferred tax assets are recognised only to the extent that is likely that taxable profit will be generated in the future, which will generate the deferred tax asset.

The deferred income tax is recognised for the temporary tax differences arising from investments in subsidiaries and related parties, except where the Group controls the timing of reversal of the temporary tax differences and it is probable that the temporary differences will not reverse in the foreseeable future.

Most of the changes in the deferred assets or liabilities are recognised as part of the tax expenses in the period's income statement. Only these changes in the assets or liabilities affecting temporary tax differences are directly recorded in equity, such as the revaluation of the value of property, and cause the slight change in the deferred tax receivables or liabilities to be debited against the equity account.

### 3.18 Employee benefits

**Short-term benefits:** Short-term benefits to employees (except for indemnities for termination or retirement) in money or in kind are recognised as an expense when they are accrued. Any outstanding amounts are classified as a liability, while in case the amount already paid exceeds the amount of the benefits, the company recognises the excessive amount as an asset (prepaid expense) only to the extent that the prepayment will lead to a reduction of future or in return payments.

**Benefits on retirement:** The benefits on retirement include a lump sum pension indemnity or other benefits (social security or medical coverage) paid to employees upon retirement in exchange for their service. Therefore, they include both defined contribution plans and defined benefit plans. The accrued cost of the defined contribution plans is recorded as an expense in the period to which it refers.

#### ✓ **Defined contribution plan**

According to the defined contribution plan, the company's obligation (legal or inferred) is limited to the amount agreed to be contributed to the entity (e.g. social security entity), which manages the contributions and grants the benefits. Therefore, the amount of benefits received by the employee is defined by the amount contributed by the company (or the employee as well) and the paid investments of these contributions.

The contribution paid by the company in a defined contribution plan is recognized either as a liability after deducting the contribution paid or as an expense.

#### ✓ **Defined benefit plan**

The liability recorded in the balance sheet for the defined benefit plan is the current value of the liability for the defined benefit less the fair value of the assets of the plan (if any) and the changes occurring from any other actuarial profit or loss and the cost of work experience. The commitment of the defined benefit is calculated on a yearly basis from an independent actuary with the projected unit credit method. For prepayment thereof, the exchange rate of the long-term Greek Government bonds is used.

The actuarial profits or losses are part of both the benefit obligation of the undertaking and the cost that will be recognized in the Income Statement. Those arising from adjustments based on historical data that are higher or lower than the 10% margin of the accumulated obligation are recorded in the Income Statement within the anticipated average insurance time of the participants to the plan. The cost of previous service is recognized directly in the Income Statement, except for the case where the changes in the plan are dependent upon the remaining time of service of the employees. In the said case, the cost of previous service is recorded in the Income Statement using the straight-line method within the maturity period.

**Employee termination benefits:** The benefits due to termination of the employment relationship are paid when employees leave before their normal retirement date. The Group records such benefits when it is committed, either when it actually terminates the employment of current employees based upon a detailed formal plan without possibility of withdrawal, or when it provides the said benefits as an incentive for voluntary redundancy. When these benefits are due for payment in a period, which exceeds twelve months from the balance sheet date, they must be prepaid according to the returns of high quality company bonds or government bonds.

In case of an offer made to encourage voluntary redundancy, the valuation of employment termination benefits should be based on the number of employees expected to accept the offer.

In case of an employment termination where the number of employees that will be using those benefits cannot be determined, they are not recorded but presented as contingent liability.

### 3.19 Government grants

The Group recognizes the government grants, which satisfy the following criteria: **a)** There is reasonable assurance that the enterprise will comply with all attached conditions and **b)** the grants will be received. Grants are recognised at fair value and recognised on a systematic basis in income, based on the correlation principle of the grants with the respective cost, which will be granted.

Government grants related to assets are included in the long-term liabilities as deferred income and are recognised on a systematic basis and correctly in income over the useful lives of the asset.

### 3.20 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are re-examined on the date of preparation of each balance sheet and are adjusted so as to disclose the present value of the expense expected to be required to settle the obligation. Contingent liabilities are not recognised in the financial statements, but are disclosed, unless the possibility of outflow of resources incorporating financial benefits is low. Contingencies are not recognised in the financial statements but disclosed as long as the inflow of economic benefits is probable.

### 3.21 Revenue and Expense Recognition

**Revenue:** Revenue comprises the fair value of the produced Fish and Other Biological assets, sale of goods and services net of value added tax, rebates and discounts and after eliminated sales within the Group. Revenue is recognised as follows:

- **Fair value of produced Fish:** It is recognised at sale (of the fish) after their gathering. Products are delivered to the customer; the customer has accepted the products and collectibility of the related receivables is reasonably assured.
- **Sales of goods:** Sales of goods are recognised when a Group entity has delivered products to the customer, the customer has accepted the products and collectibility of the receivables is reasonably assured.

- **Gain/Loss due to changes in Fair Value of Biological Assets:** A gain or loss is recognised during the year/period and arise from changes so much as in price as also in the quantity of the Biological assets.
- **Sales of services:** Sales of services are recognised in the accounting period in which the services are rendered, by reference to completion of the specific transaction assessed on the basis of the basis of the actual service provided as a proportion of the total services to be provided.
- **Royalty income:** The fair value of the rendered rights is recognised as deferred income and is depreciated in the income statement depending on the time of execution of the agreements for which have been pledged as an exchange.
- **Interest income:** Interest income is recognised on a time-proportion basis using the effective interest method. When a receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at original effective interest rate of the instrument, and continues unwinding the discount as interest income.
- **Dividend income:** Dividend income is recognised when the right to receive payment is established.

**Expenses:** Expenses are recognised in the income statement on an accrual basis. Payments realised for operating leases are transferred in the income statement as expenses, during the time of use of the leased element. The expenses from interest are recognised on an accrued basis.

### 3.22 Leases

**The Group is the lessee:** Leases of property, plant and equipment where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the lower of the fair value of the leased property and the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The corresponding rental obligations, net of finance charges, are included in other long-term payables. The interest element of the finance cost is charged to the income statement over the lease period. The property, plant and equipment acquired under finance leases is depreciated over the shorter of the asset's useful life and the lease term.

Leases where the lessor retains substantially all the risks and rewards of ownership are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

**The Group is the lessor:** When assets are leased out under a finance lease, the present value of the minimum lease payments is recognised as a receivable. The difference between the gross receivable and the present value of the receivable is recognised as unearned finance income. Lease income is recognised over the term of the lease using the net investment method, which reflects a constant periodic rate of return.

### **3.23 Dividend distribution**

Dividend distribution to the Company's shareholders is recognized as a liability in the Group's financial statements in the period in which the dividends are approved by the Company's shareholders.

### **3.24 Discontinued Operations**

A discontinued operation is a component of an entity that either has been disposed of, or that is classified as held for sale and represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations or is a subsidiary acquired exclusively with a view to resale. The Group discloses according to the IFRS 5 "Non-current assets held for Sale and Discontinued Operations" all the necessary information defined by the standard.

### **3.25 Related-party transactions**

The transactions and inter-company balances between the related parties and Group are disclosed according to IAS 24 "Related Party Disclosures". These transactions concern the transactions between the management, the principal shareholders and the subsidiaries of a group with the parent company and other subsidiaries that comprise the Group.

## **4. Financial risk management**

### **4.1 Financial risk factors**

The Group's activities expose it to a variety of financial risks, market risk (including currency risk, fair value interest risk and price risk), credit risk, liquidity risk and cash flow interest-rate risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

The finance department in cooperation with the other directly involved departments of the Group carries out the risk management.

### **4.2 Market risk**

#### *Foreign exchange risk*

The Group operates internationally. The exposure to foreign exchange risk is zero because the transactions over a percentage of 90% are realised in Euro.

To manage their foreign exchange risk, the finance department makes respective provisions wherever deemed necessary.

The Group is exposed to equity securities price risk because of investments held by the Group and classified on the consolidated balance sheet either as available-for-sale or at fair value through profit or loss. The values of these assets are not considerable so that any large changes to create risks for the Company. There is no significant risk from changes in issue prices of the biological assets, which have a fixed and anticipated within the year small variation. The Group estimates the price risk changes of the biological assets regularly and examines the need to take actions to face the financial risk. The department of financial analysis of the sector operates as to this purpose, which collects information for the offer of the product from the domestic and international production, as well, the changes in demand from the existing Traditional International market and the New markets opening in Eastern Europe and America. This information is assessed and are defined the parameters of the size of the inventories of the product and the expected prices for the following two (2) years.

#### **4.3 Credit risk**

The Group has no significant concentrations of credit risk. The wholesale of fresh fish are made to customers with an appropriate credit history. Moreover, the sale of spawn is realized in total with the term of retention of ownership of the product up until its payment. Therefore, because the time needed up until the cycle of production of fresh fish is completed is greater than the credit time of sale, the receivable is fully secured.

#### **4.4 Liquidity risk**

The liquidity risk is maintained at low levels. The Company has planned investments in fixed equipment (property), which do not offer to the production operation of the enterprise and operate as placement of low yield. Moreover, it has placed as an object the liquidation of its portfolio from participations, which did not return any yield.

#### **4.5 Cash flow and fair value interest rate risk**

The Group's income and operating cash flows are substantially independent of changes in market interest rates. The Group does not have assets with interest. Group policy, estimating the present economic junctures and in general the fluctuation of the interest rates of the Euro, is to maintain its total borrowings at products with floating interest rates EURIBOR and SPREAD.

At the end of the accounting period, the total borrowings were loans with floating interest rates.

The risk of change of the interest rates mainly arises from the long-term borrowings, which have duration until the year 2007. The Company's estimation is that there can be no problem from fluctuation of interest rates for this period and therefore has not proceeded in production agreements to be secured from this risk.

### **5. Segment information**

#### **Primary reporting format - Business segments**

The Group is active in five business sectors:

Aquaculture, fish meal, foodstuffs & Confectioneries, Pet and Services - Other.

## 6. Notes to the Financial Statements

### 6.1 Property, plant and equipment

The land and buildings were measured at the date of transition to the IFRS (01/01/2004) at deemed cost, according to the provisions of the IFRS 1. As deemed cost, is considered the fair value of the fixed equipment at the date of the transition to the IFRS, which was determined after appraisal by independent qualified valuers. The company will re-estimate at regular time periods its above category of property, plant and equipment. In concern of the other property, plant and equipment the measurement at the date of transition was made at cost less the accumulated depreciation. A determination of their useful lives and their residual values was made and according to this will be performed depreciation.

The property, plant and equipment is analysed as follows:

#### GROUP

|   | <u>Land</u>      | <u>Buildings</u>   | <u>Machinery &amp; Equipment</u> | <u>Vehicles</u>    | <u>Furniture and other equipment</u> | <u>Work in progress</u> | <u>Total</u>        |

On the non-current assets of the parent company "NIREUS AE" have been registered real mortgages for an amount of € 15.000.00,00 for securing a debenture loan in favour of Eurobank the outstanding balance of which at 30 September 2006 amounted to € 50.000.000,00 and a pre-notice of real mortgage of € 1.220.000,00 for securing a long-term loan by the National Bank of Greece, the outstanding balance of which at 30 September 2006 amounted to 1.020.000,00. On PPE of a consolidated subsidiary unlisted on the ATHEX has been registered a pre-notice of real mortgage of € 4.225.000,00 for securing a debenture loan in favour of ALPHA Bank, the outstanding balance of which at 30 September 2006 amounted to € 4.225.000,00.

On the land of the consolidated subsidiary company "SEAFARM IONIAN AE" is registered a mortgage of € 200.000,00 in favour of the Attica Bank as well as a mortgage of € 100.000,00 and pre-notice of mortgage of € 80.000,00 in favour of a third party. Moreover, on the non-current assets of the consolidated subsidiaries: (a) "OCTAPUS AE" there are registered pre-notices of mortgage of € 296.404,99 to secure loans of the National Bank of Greece and amount of € 381.511,37 to secure a loan of the Bank of Cyprus and (b) "ALFA ANIMAL FOOD LOKRIDAS AE" there are registered pre-notices of mortgage of € 352.164,35.

## 6.2 Investment property

The land and buildings that concern investments under IAS 40 were measured at the date of transition to the IFRS (01/01/2004) at deemed cost, according to the provisions of the IFRS 1. As deemed cost, is considered the fair value of the fixed equipment at the date of transition to the IFRS, which was determined after an appraisal by independent qualified valuers. The company at regular time periods will re-estimate its above category of property, plant and equipment.

The investment property is analysed as follows:

|   | GROUP            |                  |                  | COMPANY          |                |                  |

The Group's and the Company's Goodwill has arisen as follows:

|   |                   |
|---|-------------------|
| a) From acquisition in the year 2004 of subsidiary "OINOUSSES FISH FARMING AE                                   | 2.009.935         |
| b) From acquisition in the year 2005 of subsidiary company "FEEDUS AE"  | 3.708.975         |
| c) From acquisition in prior years of a subsidiary company of the consolidated company "FOKIDA FISH FARMING AE" | 531.181           |
| d) From consolidation of the acquired in the year 2005 foreign company "ILKNAK SU URUNLERI SAV VE TIC A.S."     | 413.987           |
| e) From consolidation of the acquired in the year 2005 company "MYLOKOPI FISH FARMING AE"                       | 218.866           |
| g) From the consolidation of the SEAFARM IONIAN purchased in 2006   | <u>5.004.244</u>  |
|   | <u>11.887.188</u> |

The account "Aquaculture licences" on Group level concerns the fair value of the aquaculture licenses of the companies of the Group "SEAFARM IONIAN AE", which arose following a study by an independent appraisal firm (in the frame of the participation of "NIREUS AQUACULTURE AE" in the increase of the Share Capital of "SEAFARM IONIAN AE") and was determined to the amount of € 8.500.000,00.

The said fair value is not depreciated, but will be examined for impairment of its value, if there are events that provide indications for loss, according to IAS 36.

#### 6.4 Investments in subsidiaries

In the individual financial statements, the investments in subsidiary companies have been measured at impaired acquisition cost.

|   | <b>GROUP</b>     |                   | <b>COMPANY</b>    |                   |
|---|------------------|-------------------|-------------------|-------------------|
|   | <u>30/9/2006</u> | <u>31/12/2005</u> | <u>30/9/2006</u>  | <u>31/12/2005</u> |
| <b>Beginning of the year</b>              | 39.414           | -                 | 11.091.627        | 17.031.749        |
| Additions/Impairments due to acquisitions | 362.506          | 39.414            | 5.892.778         | (5.940.122)       |
| Additions due to increase of capital      |                  | -                 |                   | -                 |
| Less: Impairments                         | -                | -                 |                   | -                 |
| <b>Total</b>                              | <u>401.920</u>   | <u>39.414</u>     | <u>16.984.406</u> | <u>11.091.627</u> |

The amount of € 401.920 that is disclosed in the ninth-month period financial statements at 30/09/2006 concerns by € 39.414 the impaired cost of subsidiary company “THETIS AE”, which was not consolidated in the current period 2006, since it was put under liquidation and by amount € 362.506 the impaired cost of the subsidiary company of the Group SEAFARM IONIAN AE. “DIATROFIKI AE”, which was not consolidated in the present period 2006 for the same reason.

We deem expedient to state that:

(a) In the individual financial statements is included participation (acquired in the period 1/1 -30/9/2006) of 5.862.777.78 (percentage 16.78%) of “NIREUS AE” “SEAFARM IONIAN AE”, in capacity as strategic investor fully undertaking the Management of the Company (realisation from 27.4.2005 agreement of article 44 of L. 1892/1990).

The participation percentage of the company in investments, which are unlisted on the ATHEX, (besides “SEAFARM IONIAN AE”, which is listed on the ATHEX, but is suspended from trading since 06/08/2003) have as follows:

| <u>COMPANY</u>            | <u>Cost</u>       | <u>Impairment</u>   | <u>Balance Sheet Value</u> | <u>Country of Incorporation</u> | <u>Participation percentage</u> |
|---------------------------|-------------------|---------------------|----------------------------|---------------------------------|---------------------------------|

## 6.9 Biological assets

The biological assets of the Group were measured at their fair value, according to IAS 41. The fair value was determined based on market prices at the Balance Sheet date.

Biological assets are the reserves of spawn-generating adult fish, fish and spawn at that time and are measured at fair value (i.e. selling price) based on IAS 41. This method has as a consequence in periods with intensive harvesting the significant growth of reserves and gains that arise from the difference between cost of produce and measurement at selling prices.

Fair value reconciliation of biological assets is presented in the following table:

|   | GROUP              |                    | COMPANY            |                    |

| Over 5 years          | 39.703.360        | 22.778.181        | 17.548.319        | 22.778.182        |
|                       | <b>88.470.591</b> | <b>61.071.987</b> | <b>52.943.667</b> | <b>55.411.896</b> |

**6.18 Retirement benefit obligations**

The Group and the company recognises as retirement benefit obligation the present value of the legal commitment that has assumed for the payment of lump sum compensation to retired personnel. The relative obligation was determined based on actuarial calculations.

The respective obligation of the Group and the Company is as follows:

|   | <b>GROUP</b>     |                   | <b>COMPANY</b>   |                   |
|---|------------------|-------------------|------------------|-------------------|
|   | <b>30/9/2006</b> | <b>31/12/2005</b> | <b>30/9/2006</b> | <b>31/12/2005</b> |
| <b>Balance liability at beginning of</b>  | 1.538.117        | 1.109.129         | 1.318.626        | 903.513           |
| Transfers                                 | 165.065          | -                 | -                | -                 |
| Current service cost                      | 231.122          | 117.743           | 200.842          | 93.660            |
| Interest cost                             | -                | 49.550            | -                | 40.658            |
| Compensation paid                         | (3.781)          | (163.315)         | -                | (66.627)          |
| Net actuarial (profit)/losses recognis    | -                | 425.010           | -                | 347.422           |
| <b>Total liability at end of the year</b> | <b>1.930.524</b> | <b>1.538.117</b>  | <b>1.519.468</b> | <b>1.318.626</b>  |

The principal actuarial assumptions used were as follows:

|                           | <b>30/9/2006</b> | <b>31/12/2005</b> |
|---------------------------|------------------|-------------------|
| Discount rate             | 4,5%             | 4,5%              |
| Future salary increases   | 3,5%             | 3,5%              |
| Inflation                 | 2,5%             | 2,5%              |
| Percentage of retirements | 0,5%             | 0,5%              |

**6.19 Government Grants**

The analysis of Grants of the Group and the Company, is as follows:

|                           | <b>GROUP</b>     | <b>COMPANY</b>   |
|---------------------------|------------------|------------------|
| <b>Balance 1/1/2005</b>   | <b>6.926.759</b> | <b>3.186.915</b> |
| Transfers                 | -                | 1.891.382        |
| Receipts                  | 52.982           | 16.241           |
| Changes within the year   | (1.173.112)      | (440.248)        |
| <b>Balance 31/12/2005</b> | <b>5.806.629</b> | <b>4.654.290</b> |
| Transfers                 | 668.694          | -                |
| Changes within the year   | (428.197)        | (239.857)        |
| <b>Balance 30/9/2006</b>  | <b>6.047.126</b> | <b>4.414.433</b> |

**6.20 Other non-current liabilities**

The analysis of other non-current liabilities, of the Group and the Company, is as follows:

|                                      | <b>GROUP</b>     |                   | <b>COMPANY</b>   |                   |
|--------------------------------------|------------------|-------------------|------------------|-------------------|
|                                      | <b>30/9/2006</b> | <b>31/12/2005</b> | <b>30/9/2006</b> | <b>31/12/2005</b> |
| Greek State (Taxes due)              | -                | 5.514             |                  |                   |
| Liability for purchase of PPE assets | 5.575.695        | 455.206           | -                | -                 |
| <b>TOTAL</b>                         | <b>5.575.695</b> | <b>460.721</b>    | <b>-</b>         | <b>-</b>          |

The other non-current liabilities at concerning the Group arise from liabilities of the Group “SEAFARM IONIAN AE” owing to its subject to article 44 of L. 1892/90.

**6.21 Trade and other payables**

The analysis of the balances of trade and other payables of the Group and the Company, is as follows:

|                              | <b>GROUP</b>      |                   | <b>COMPANY</b>    |                   |
|------------------------------|-------------------|-------------------|-------------------|-------------------|

| Tax rate   | 29%                | 32%                | 29%                | 32%                |
| <b>Estimated tax charge</b>                                      | <b>(3.507.497)</b> | <b>(3.219.208)</b> | <b>(3.294.529)</b> | <b>(2.509.544)</b> |
| Deferred income tax asset  | (1.483.099)        | (57.720)           | (988.125)          | 40.296             |
| Other adjustments (tax-free reserves, other tax relieves, expens | 1.338.555          | (384.694)          | 1.358.461          | 169.194            |
| Tax audit differences  | (1.533.051)        | (130.001)          | -                  | (89.771)           |
| Other non-incorporated in the operating cost taxes               | (1.463)            | -                  | (1.463)            | -                  |
| <b>Actual Tax Charge</b>   | <b>(5.186.554)</b> | <b>(3.791.623)</b> | <b>(2.925.655)</b> | <b>(2.389.824)</b> |

For the ninth month period of 2006 the tax charge has been calculated at tax rate 29% on taxable profit.

## 6.29 Earnings per share

Analysis of earnings per share of the Group and the Company as follows:

|  | <b>GROUP</b>     |                  | <b>COMPANY</b>   |                  |
|--|------------------|------------------|------------------|------------------|
|  | <b>30/9/2006</b> | <b>30/9/2005</b> | <b>30/9/2006</b> | <b>30/9/2005</b> |
| Profit attributable to equity holders of the Company | 7.456.945        | 4.601.799        | 8.434.788        | 5.452.501        |
| Weighted average number of ordinary shares           | 40.368.514       | 29.005.671       | 40.368.514       | 29.005.671       |
| Basic earnings per share (€ per share)               | <b>0,185</b>     | <b>0,159</b>     | <b>0,209</b>     | <b>0,188</b>     |

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the parent Company by the weighted average number of ordinary shares in issue during the year, excluding ordinary shares purchased by the Company and held as treasury shares.

**6.30 Critical accounting estimates and judgements**

The preparation of the financial statements under IFRS necessitates the use of certain critical accounting estimates and the management to exercise its judgement in selecting appropriate assumptions concerning matters, which may cause a material effect on the reported carrying amounts of assets and liabilities, the required disclosures for contingent receivables and payables as of the date the financial statements are prepared as well as the reported amounts of revenue and expenses that were recognised during the accounting period. The use of available information and the application of judgement by management constitute integral part of making estimates. Future results may differ from the above estimates, while the variances may have a material effect on the financial statements. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

**7. Commitments and Contingencies**

The Company and the Group has contingent liabilities in respect of Bank, other guarantees and other matters arising in the ordinary course of business, as follows:

**Information in respect of contingent liabilities**

There are no disputed or under arbitration cases of national or arbitral courts that may have a material effect on the financial position or operation of the Group.

|   | <b>30/9/2006</b>        | <b>31/12/2005</b>       |
|---|-------------------------|-------------------------|
| <b>Liabilities</b>  |                         |                         |
