Frigoglass Group

1. Summary notes to the financial statements

1.1 General Information

This condensed interim financial information includes the interim financial information of the parent company FRIGOGLASS S.A.I.C. (the “Company”) and the consolidated interim financial information of the Company and its subsidiaries (the “Group”). The names of the subsidiaries are presented in Note 14 of the financial information.

Frigoglass S.A.I.C. and its subsidiaries are engaged in the manufacturing, trade and distribution of commercial refrigeration units and packaging materials for the beverage industry. The Group has manufacturing plants and sales offices in Europe, Asia, and Africa.

The Company is a limited liability company incorporated and based in Kifissia, Attica. The Company’s shares are listed on the Athens Stock Exchange.

The address of its registered office is:

15, A. Metaxa Street
GR 145 64, Kifissia
Athens, Hellas

The company’s web page is: www.frigoglass.com

This condensed interim financial information was approved by the Board of Directors on the **6th of November 2007**.

2. Basis of Preparation

This condensed interim financial information for the nine months ended **30 September 2007** has been prepared in accordance with IAS 34, ‘Interim financial reporting’. The interim condensed financial report should be read in conjunction with the annual financial statements for the year ended **31 December 2006** that is available on the company’s web page www.frigoglass.com

3. Summary of significant accounting policies

The accounting policies adopted in preparing this condensed interim financial information are consistent with those described in the Company and Group annual financial statements for the year ended **31 December 2006**.

There have been no changes in the accounting policies used from those that were used for the preparation of the annual financial statements prepared by the Company and the Group for the year ended **31 December 2006**.

This condensed interim financial information has been prepared under the historical cost convention.

The preparation of the financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires Management to exercise judgement in the process of applying the accounting policies. Moreover, it requires the use of estimates and judgments that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of preparation of interim financial information and the reported income and expense amounts during the reporting period. Although these estimates and judgments are based on the best possible knowledge of Management with respect to the current conditions and activities, the actual results can eventually differ from these estimates.

Differences between amounts presented in the financial statements and corresponding amounts in the notes results from rounding differences.

New standards, amendments to standards and interpretations: Certain new standards, amendments to standards and interpretations have been issued that are mandatory for periods beginning during the current reporting period and subsequent reporting periods. The Group's evaluation of the effect of these new standards, amendments to standards and interpretations is as follows:

Standards & Interpretations effective for 2007

IFRS 7 - Financial Instruments: Disclosures and the complementary amendment to IAS 1 - Presentation of Financial Statements: Capital Disclosures

This standard and amendment introduces new disclosures relating to financial instruments. The Group will comply with the requirements of IFRS 7 in its annual financial statements for 2007 as is relevant and applicable. For the current interim period the applicable IFRS 7 disclosures have only been presented in respect of events and transactions related to financial instruments which are material to an understanding of the current interim period.

IFRIC 7 - Applying the Restatement Approach under IAS 29

This interpretation provides guidance on how to apply requirements of IAS 29 in a reporting period in which a company identifies the existence of hyperinflation in the economy of its functional currency, when the economy was not hyperinflationary in the prior period. As none of the Group companies operate in a hyperinflationary economy this interpretation does not affect the Group's financial statements.

IFRIC 8 - Scope of IFRS 2

This interpretation considers transactions involving the issuance of equity instruments – where the identifiable consideration received is less than the fair value of the equity instruments issued – to establish whether or not they fall within the scope of IFRS 2. This interpretation will not affect the Group's financial statements.

IFRIC 9 - Reassessment of Embedded Derivatives

This interpretation requires an entity to assess whether an embedded derivative is required to be separated from the host contract and accounted for as a derivative when the entity first becomes a party to the contract. This interpretation is not relevant to the Group's operations.

IFRIC 10 - Interim Financial Reporting and Impairment

This interpretation prohibits the impairment losses recognised in an interim period on goodwill, investments in equity instruments and investments in financial assets carried at

cost to be reversed at a subsequent balance sheet date. This interpretation does not have any impact on the Group's financial statements.

Standards & Interpretations effective after 1 January 2008

IFRS 8 - Operating Segments

This standard is effective for annual periods beginning on or after 1 January 2009 and supersedes IAS 14, under which segments were identified and reported based on a risk and return analysis. Under IFRS 8 segments are components of an entity regularly reviewed by the entity's chief operating decision maker and are reported in the financial statements based on this internal component classification. The Group will apply IFRS 8 from 1 January 2009.

IFRIC 11 - IFRS 2: Group and Treasury share transactions

This interpretation is effective for annual periods beginning on or after 1 March 2007 and clarifies the treatment where employees of a subsidiary receive the shares of a parent. It also clarifies whether certain types of transactions are accounted for as equity-settled or cash-settled transactions. This interpretation is not expected to have any impact on the Group's financial statements.

IFRIC 12 - Service Concession Arrangements

This interpretation is effective for annual periods beginning on or after 1 January 2008 and applies to companies that participate in service concession arrangements. This interpretation is not relevant to the Group's operations.

4. Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under current circumstances.

4.1 Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year concern income tax.

The Group is subject to income taxes in numerous jurisdictions. Significant judgement is required by the Group Management in determining the worldwide provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain. If the final tax outcome is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax.

4.2 Critical judgements in applying the entity's accounting policies

There are no areas that Management required to make critical judgements in applying accounting policies.

A statutory reserve is created under the provisions of Hellenic law (Law 2190/20, articles 44 and 45) according to which, an amount of at least 5% of the profit (after tax) for the year must be transferred to this reserve until it reaches one third of the paid share capital. The statutory reserve can not be distributed to the shareholders of the Company except for the case of liquidation.

The Company has created tax free reserves, taking advances off various Hellenic Taxation laws, during the years, in order to achieve tax deductions, either by postponing the tax liability till the reserves are distributed to the shareholders, or by eliminating any future income tax payment by issuing new shares for the shareholders of the company. Should the reserves be distributed to the shareholders as dividends, the distributed profits will be taxed with the rate that was in effect at the time of the creation of the reserves. No provision has been created in regard to the possible income tax liability in the case of such a future distribution of the reserves the shareholders of the company as such liabilities are recognized simultaneously with the dividends distribution.

The tax rates in the countries where the Group operates are between **10%** and **40%**.

Some of non deductible expenses and the different tax rates in the countries that the Group operates, create a tax rate for the Group approximately of **29,2%** (Greek Taxation Rate is **25%**)

The main reasons that the **2006** effective tax rate of **29,9%** reduced to **29,2%** for **2007** are disclosed below:

- There is a significant reduction of non profitable companies
- The tax rates, in the countries where the Group operates, have been reduced.

The tax returns for the Parent Company and for the Group subsidiaries have not been assessed by tax authorities for different periods. Until the tax audit assessment for the companies described in the table above is completed, the tax liability can not be finalized for those years.

Note 22 - Assets held for Sale

On December 15, 2005 Frigoglass announced the sale of its stockholding in VPI SA. Frigoglass is a stockholder of 51% of VPI SA based at the city of Volos. The final agreement was signed on 28/2/2006.

The Parent company's investment in VPI SA amount to € 12.998 ths.

The purchase price for the shares amounts to €15.000 ths., €12.000 ths will be paid upon completion of the transaction under the condition that the net asset position of VPI will be at least € 30.000 ths., while the balance will be paid in three equal annual instalments till January 2009, and is linked to the condition that VPI's sales will remain at their present level.

The completion of VPI sale was approved by the Greek Minister of Economy and Finance, given that VPI S.A has received government grants under law 1892/1990. The sale of VPI shares is consistent with the Frigoglass Group strategy to focus on its core business on ICM. (VPI paid dividends on 2004 and on 2005 of € 1.011 ths. to Frigoglass SAIC).
