Executive

Chief Accountant

STATEMENTS OF MEMBERS OF THE BOARD OF DIRECTORS

(in accordance with article 4, paragraph 2c of Law 3556/2007)

In our capacity as executive members of the Board of Directors of J&P-AVAX SA (the «Company»), and

according to the best of our knowledge, we,

1. Joannou Christos, Chairman

2. Kouvaras Constantinos, Deputy Chairman and Executive Director

3. Mitzalis Constantinos, Vice Chairman and Managing Director,

declare the following:

• the financial statements for the period from 01.01.2015 to 31.12.2015, prepared under the

International Financial Reporting Standards currently in effect, give a true view of the assets,

liabilities, equity and financial results of the Company, as well as the businesses included in the

consolidation of the Group,

the Annual Report of the Board of Directors of the Company gives a true view of the evolution,

the performance and the stance of the Company, as well as the businesses included in the

consolidation of the Group, including an overview of the main risks and uncertainties they

face.

#### ANNUAL REPORT OF THE BOARD OF DIRECTORS

#### FOR THE PERIOD FROM 01.01.2015 TO 31.12.2015

[in accordance with article 4 of Law 3556/2007, articles 1 & 2 of Decision #7/448/11.10.2007 of Greece's Capital Markets Commission, and article 2 of Law 3873/2010]

#### Dear Shareholders,

political developments and tight fiscal conditions in 2015 prevented the Greek economy from returning to growth, as projected by the country's 2<sup>nd</sup> financing deal with its international lenders and macroeconomic indicator trends. Prolonged negotiations between the government and its lenders towards a new financing framework, the banking system shut down and the economy's return to recession led to the postponement of tenders for new public works, lack of progress in PPP-based projects and a cut back in payments by the Greek State. The halt in growth impacted overall construction activity in the country, resulting in a financial loss for the Group in 2015, which nevertheless was lower compared to the previous year.

Group work-in-hand based on signed projects exceeded €1.6 billion as of 31.12.2015, with additional projects pending to be signed in the coming period. This stock of projects has the size and quality to maintain Group business in the medium term. Work-in-hand has started to grow in early 2016 with the signing of new projects, offering restrained optimism for improvement of financial results in the current year in conjunction with slightly improved prospects of the economy.

Management will propose to shareholders at the Annual General Meeting scheduled for 22.06.2016 that no dividend shall be distributed for fiscal 2015 due to the loss incurred in the year.

#### **Business segment activity**

#### Construction

The performance of the construction segment deteriorated during 2015, in particular during the second half of the year, due to the tight conditions on public finances and the imposition of capital controls which hit further on the low level of construction activity.

The Greek state discontinued payments towards public works and did not contribute equity towards the highway concession contracts, which were amended towards the end of 2014. The banking sector halted the provision of liquidity and guarantees towards sector companies, which could not find the required working capital to continue their work. At the same time, the schedule of tenders for new public projects and concessions, such as the new airport at Kastelli, were delayed, with most tenders pushed back in time.

Construction towards international projects, such as Cyprus, Qatar and Jordan faced no issues.

During 2015, construction in the local market contributed 51% of total Group revenues.

#### Energy (Power Stations & LNG)

The Group's main energy projects currently in the works is the extension of LNG installations on the Isle of Revythoussa for the operator of Greece's natural gas pipeline network, and the construction of floating LNG installations in Malta. Works proceed normally and the Group hopes it will enhance its bids for similar projects, mainly in international markets where demand for design & construction by specialized contractors is strong.

Operations at the power station in Lebanon have been halted due to the ongoing search for project financing by the Lebanese state, while works towards the Trans Adriatic Pipeline in northern Greece are expected to start by mid-year.

#### RES and Energy Trading

The Group holds a 50% equity stake in VOLTERRA SA, which is active in the following areas:

- 1. development of projects for power generation, mostly from renewable energy sources
- 2. supply of electric energy in the retail market
- 3. wholesale trading in the cross-border system (imports-exports) mostly between Greece, Italy and Balkan countries

In the field of renewable energy sources, Volterra has a portfolio of 461MW in projects at various stages of development. Construction towards a 16MW wind park is expected to start in the first half of 2015, while the tender stage towards a 43MW wind park has been concluded and its construction will start in 2017. A total of 60MW of wind parks and a 2.7MW solar park are also at the final stage of licensing.

Installation of current project portfolio is expected to be completed by 2021, should financing conditions are favourable. The company is also in partnership talks with other companies regarding large projects at a mature stage of development.

The company takes careful steps in growing its share in the local retail energy market. Its clientele base includes industries, commercial areas, large hotels, small factories, buildings and residential units. Volterra is widening its collaboration with new companies in cross-border energy trade, thereby growing the volume of traded energy.

The company is hiring additional senior personnel, improving its productivity in the areas of services and project development.

#### Real Estate

Group real estate development operations are pursued via its subsidiary J&P Development SA. Due to the crisis in the real estate market in recent years, the company has not proceeded to develop any new property, instead it focuses on pushing forward with licensing issues for some of its property in Greece and abroad, while also occasionally selling some of the property developed in earlier years.

No significant changes are expected in Greece's economic conditions in the near-term, therefore the local real estate market and consequently J&P Development are not seen recovering to produce significant improvement in the financial results before 2017.

#### Concessions

Group accounts only incorporate low income from its participations in concessions because it does not fully consolidate them, with the exception of Athens Marina and the Athens Schools PPP project. 2015 results include income from associates corresponding to Group share in the profit of concession participations, such as the Athens Ring Road, the Rio-Antirrio Bridge and the Aegean Motorway.

Despite normal fluctuations in the income and dividends of those concessions in line with the country's economic conditions, the course of those concessions is in line with long-term projections due to their key position in local transportation and vehicle traffic. Therefore no problems are expected in receiving dividends from those concessions.

There can be no safeguard against a downturn in other road concession projects included in the Group portfolio when they move into dividend payment stage. In contrast, prospects for other projects, such as Limassol Marina in Cyprus, are positive.

#### Facility Management

The Group is active in facility management with success through its subsidiary Task J&P-AVAX SA, which boasts a good clientele base in the private and the public sector. The company is constantly profitable and offers a wide range of services for managing and maintaining business installations, corporate offices and buildings.

The outlook is positive because the targeting of the client base reduces doubtful receivables and is based on long-term contracts and relations with clients.

#### Financial Results 2015

Fiscal 2015 results were impacted by the following extraordinary and non-operating charges, totaling €13.5 million (2014: €55.7 million):

- write-off of doubtful receivables amounting to €11.7 million,
- impairment of the value of Group participations, amounting to €1.8 million,

in addition to a €1.3 million impairment of the value of Group real estate property.

Following the realization of those extraordinary charges for 2015, the Group turned in a loss for the year despite a slightly positive operating result.

Consolidated turnover fell 3.4% on an annual basis to €500.3 million versus €518.1 million in 2014 versus €410.7 million in 2013, with Group activity retreating in the latter half of the year due to controls imposed on the banking system which presented problems to construction works.

Gross profit on a consolidated level eased to €41.5 million in 2015 relative to €54.7 million in 2014, due to the drop in overall work volume and a slower rate of execution in the Group's most profitable projects in the local market. This led the gross profit margin to shrink to 8.3% in 2015 from 10.6% in 2014.

On a pretax basis, the Group produced a  $\in$ 31.4 million loss in 2015, lower than the  $\in$ 55.1 million loss recorded a year earlier, as extraordinary losses were substantially lower in 2015 relative to 2014. Extraordinary results in 2015 mostly concern provisions for doubtful receivables from clients, while in 2015 also included a large sum of impairment of goodwill. The net after tax result for the year amounted to a  $\in$ 437.6 million loss as opposed to a  $\in$ 40.6 million loss in 2014. The net result after tax and minorities moved accordingly, recording a  $\in$ 32.7 million loss in 2015 from a  $\in$ 35.2 million loss in 2014.

Consolidated EBITDA for all company activities registered a €26.4 million profit in 2015 versus a €49.7 million profit in the previous year. The respective EBITDA profit for construction-related activities amounted to €21.2 million in 2015 versus €43.1 million in 2014.

Net financial expenses amounted to €32.4 million in 2015, marginally lower compared to year-earlier €32.6 million, due to a €37.4 million drop in net debt for the Group during 2015, reaching €487.8 million at the end of the year versus €525.2 million in 2014. Management places emphasis on careful cash planning, but investments are constantly made mostly in concessions. The easing in net debt in 2015 is a first indication of the general trend for Group debt levels, as dividends start to flow in from concession participations, most notably the Athens Ring Road.

With some exceptions for which waivers have been granted by its bondholders, according to the consolidated and non-consolidated accounts for 2015, the Company meets the financial ratios on liquidity, capital adequacy and profitability are included in the contracts signed at end-2014 with Greek banks for the issue of syndicated bond loans worth €238 million and €187 million.

Current assets were reduced by €31.4 million during 2015, due to the collection of receivables from clients and a further drop in receivables from construction contracts. More specifically, receivables from construction contracts fell €18.2 million in 2015 to €242.8 million, while receivables from clients recorded a €33.4 million drop in 2015 to €419.0 million at the end of the year relative to €452.4 million in 2014.

The Group proceeded to write off doubtful receivables amounting to €11.7 million during 2015 versus €16.8 million in 2014. The drop in receivables from clients in 2015, both at non-consolidated and consolidated level, is due to collections recorded towards the end of the year. It should also be noted that consolidated cash and equivalent increased by €23.7 million during 2015.

Non-bank and other short-term liabilities to suppliers and other creditors fell substantially by €28.2 million during 2015, reaching, reaching €438.3 million at the end of the year versus €466.4 million in 2014, as part of the Group's broader policy for meeting liabilities for payments and cash management. The decrease in suppliers and liabilities from cash advances in 2015, both at Group and parent company level, is mostly related to the low rate of addition of new projects.

At the end of 2015, long-term debt for the Group amounted to €419.2 million versus €431.6 million a year earlier, mostly financing long-term investments in fixed assets and concessions.

According to a sensitivity analysis of the Group's debt to potential changes in interest rates, as of the end of 2015 the effect of a  $\pm 100$  basis point variation in interest rates amounts to  $\pm 4.9$  million in Group profitability, versus  $\pm 5.3$  million in the previous year.

Sensitivity analysis of Group financial position to potential shifts in foreign currency parities shows that the impact on financial results and shareholder funds of a  $\pm 100$  basis point variation in the exchange rates which the Group is exposed to amounts to -€2.3 million / +€2.9 million at the end of 2015, versus -€0.6 million / +€0.7 million in the previous year. It should be noted that the largest effect on Group results and shareholder funds from exchange rate swings came from the currencies of the UAE and Jordan in 2015, while in 2014 the largest impact came from the currencies of Poland and Qatar, besides the currencies of the UA and Jordan.

Despite the decrease in total shareholders' funds to €177.4 million at the end of 2015 from €216.9 million in the previous year due to the loss incurred in 2015, the Group's capital structure remained sound and corresponds to a book value of €2.28 per share. The value of Group participations eased by €9.2 million to €229.6 million at the end of 2015.

The balance sheet item titled "Other Long-Term Provisions & Liabilities" at consolidated level shrank to €26.9 million at the end of 2015 from €39.9 million in the previous year.

The Group's financial results for 2015 are broken down by business segment as follows:

amounts in euro	Construction	Concessions	Real Estate &	Total
Total Turnover by Division	484,862,492	17,629,891	Other Activities 20,720,135	523,212,517
Intra-Group	(21,192,327)	0	(1,735,508)	(22,927,835)

Net Sales	463,670,165	17,629,891	18,984,627	500,284,683
Earnings Before Tax, investments results, depreciation and provisions	21,157,746	3,541,878	1,747,973	26,447,597
(EBITDA)				
Depreciation and Impairments	(22,309,901)	(209,482)	(2,916,971)	(25,436,353)
Goodwill Impairment				0
Financial Results				(32,434,397)
Pre-Tax Profit				(31,423,154)

The Group's financial results for 2015 are broken down geographically as follows:

amounts in euro	Greece	International	Total
		Markets	
Total Turnover by Division	273,509,191	249,703,326	523,212,517
Intra-Group	18,072,447	(41,000,282)	(22,927,835)
Net Sales	291,581,638	208,703,045	500,284,683
Earnings Before Tax, investments results,			
depreciation and provisions (EBITDA)	42,736,704	(16,289,107)	26,447,597
Depreciation and Impairments	(14,905,680)	(10,530,673)	(25,436,353)
Goodwill Impairment			0
Financial Results			(32,434,397)
Pre-Tax Profit			(31,423,154)

At parent company level, turnover in 2015 eased marginally to €380.3 million from €382.2 million in 2014, however gross profit fell disproportionately to €60.3 million in 2015 from €79.7 million a year earlier, as the cost of sales increased to €320.0 million in 2015 from €302.5 million in 2014. The negative turn of financial results is due to a deterioration of economic conditions in 2015, with new delays in the construction of large concessions and the start of other large projects, trimming the parent company gross profit margin to 15.9% in 2015 from 20.9% in 2014.

The parent company's income from participations substantially improved in 2015 to €34.6 million from €29.3 million in 2014, due to increased profits from concessions.

Earnings before interest, tax and amortization for the parent company amounted to a €77.4 million profit in 2015 versus €88.5 million a year earlier.

#### **Corporate Governance**

#### **Management**

Several Company management changes took place during 2015, which are presented in detail in the section titled "Important Events during 2015".

#### Remuneration of members of Board of Directors in 2015 - Remuneration Policy

As mentioned in the Corporate Governance Statement, the Company has not formally established a Remuneration Committee, but has long ago voluntarily adopted and adheres to some basic principles regarding remuneration of the members of its Board of Directors.

#### More specifically, the Company:

- does not pay a fee to its directors for their participation in meetings of the Board or other decision-making bodies, such as the Audit Committee and the Strategic Planning & Risk Management Committee
- pays a flat, low-value remuneration to non-executive and independent, non-executive members of the Board of Directors

#### According to Company policy, remuneration of its Board directors

- remains unchanged for a number of years at an annual gross total of €1,050,000
- ❖ is proposed by the Board of Directors and put in the judgement of shareholders at the Annual General Meeting
- ❖ is significantly lower than similar remuneration in peer local companies

The Corporate Governance Statement does not include a Remuneration Report on the members of its Board of Directors on the grounds of equal treatment and competition. A Remuneration Report will be published in line with Corporate Governance Rules as soon as this is deemed compulsory by law.

#### **Important Events during 2015**

#### Management Changes

- ❖ January 2015: Vice chairman Mr Nicholaos Gerarhakis resigns
- ❖ June 2015:
  - Mr Alexios Sotirakopoulos is appointed new independent, non-executive member of the Board of Directors, replacing Mr John Hastas who resigned
  - Managing Director Mr Konstantinos Mitzalis also assumes the duties of Vice Chairman of the Board of Directors
  - Election of new Board of Directors for a three-year term ending on 30.06.2018 by the
     Annual General Shareholders Meeting of the Company held on 24.06.2015
- ❖ December 2015: Executive director Mr Stelios Georgallides resigns

#### Intra-Group transaction on concession participations

Contracts for the transfer of the shares and bonds in the following BOT projects under construction from subsidiary ATHENA SA to its parent J&P-AVAX SA were signed on 01.04.2015:

- ❖ AEGEAN MOTORWAY SA (participation 5%)
- ❖ OLYMPIA MOTORWAY SA (Participation 2.1%)
- ❖ OLYMPIA MOTORWAY OPERATION SA (Participation 2.1%)

The transfer of those participations does not affect financial results at consolidated level because they constitute an intra-group transaction which does not alter total Group participation.

#### Queen Alia

The company transferred its 9.5% participation in "Airport International Group", concessionaire of the Queen Alia international airport of Jordan, to associated company Joannou & Paraskevaides (Overseas) Limited. Pending the final legal approval for the transfer of ownership by the project owner, the transaction is recorded as sale of "Available for sale Financial Asset" because the buyer has received all rights and obligations arising from those shares.

The transaction produced an approximate €4.6 million profit, as the difference between the price of the transaction and the value of the participation recorded in Company books. This profit is included in 2015 financial results as "Profit/loss from associates". At the same time the balance of the account "Available for sale Financial Asset" has been reduced according to the book value of the asset, while the amount received was recorded as income in the "Financial transactions with associates" account.

#### New Projects

Following a satisfactory year in 2014 regarding the increase in Group project portfolio, the pace of new project take-up in 2015 was substantially lower as newly added projects primarily concerned low-budget or additional works and service provision.

#### Share capital increase of subsidiary ATHENA SA

The Annual General Meeting of shareholders of subsidiary ATHENA SA held on 24.06.2015 approved the increase of its share capital by €35 million, capitalising an equal amount of payable liabilities to its parent company J&P-AVAX SA. The capital increase was reserved exclusively for J&P-AVAX SA, waiving the rights of other shareholders, raising J&P-AVAX's stake in ATHENA SA from 89.5% to 92.9%. Following the approval in September of 2015 of the capital increase by the Development Ministry, the Capital Markets Commission approved in February 2016 the Information Memorandum for the investment public and the new shares were subsequently listed for trading on the Athens Stock Exchange.

#### Impairment of Value of Subsidiaries

The 31.12.2015 financial accounts of J&P-AVAX SA include an impairment of the value of its subsidiaries amounting to €63 million. The €43 million impairment of subsidiary ATHENA SA concerns losses from its UAE operations and the balance of €20 million pertains to the impairment of the value of two subsidiary companies.

#### Appointment of Market Maker on Company shares

Starting on 14.12.2015 for a one-year term, Eurobank Securities was appointed market maker on Company shares, in a bid to boost their market liquidity.

#### Change of the tax rate

The corporate tax rate from 2015 onwards was raised from 26% to 29%, in line with article 1 paragraph 4 of Law 4334/2015. The impact of this event on shareholder funds is calculated as a  $\in$ 6.6 million and  $\in$ 9.2 million reduction, respectively for the Company and the Group, while the impact on the income statement is calculated as a  $\in$ 1.6 million increase for the Company, and a  $\in$ 1.7 million increase for the Group.

#### Main Risks & Uncertainties for 2016

#### 1. Recent Economic & Political Developments

Political developments in 2015 and prolonged international negotiations regarding the terms of Greece's new funding programme had a negative impact on the local macroeconomic and financial environment. Free operation of the banking system was suspended at the end of June 2015 with the imposition of capital controls, while in August 2015 the country signed its 3<sup>rd</sup> financial aid programme, which includes a loan amounting up to €86 billion.

Capital controls hindered transactions for individuals and corporations, with the construction sector failing to secure adequate financing for working capital needs in projects and issue letters of credit towards tenders for new projects and works. At the same time, the liquidity squeeze of Greece's public sector led the state to suspend payments from the European Union into infrastructure investments, causing further delays in payments towards public projects and road concessions, thus worsening the liquidity conditions of the construction sector. This condition gradually eased, but in any case the business environment of 2015 was clearly more adverse compared to previous years.

#### 2. Risks and Uncertainties

The most important risks and uncertainties for the sector which the Group operates in, are the following:

- <u>Input Prices:</u> Most materials used by the Group are internationally-priced commodities, including cement, metal rebars and fuel, which exhibit wide price fluctuations in recent years.
  - The Group is centrally purchasing supplies for all its subsidiaries to secure economies
    of scale. In several cases it pre-orders large quantities of supplies to lock in their
    purchase price and escape future price shifts.

- <u>Labour Cost</u>: The cost of Group administrative personnel is set through freely negotiable individual work contracts which are not very flexible. In contrast, the cost of construction workers is very flexible because it concerns specific time periods.
  - Labour cost has been reduced in recent years due to the economic crisis, but its evolution cannot be forecast.
- <u>Financial Risk:</u> The Group finances its operations with working capital and requires performance bonds be issued by banking institutions to participate in public project tenders and guarantee their proper execution to clients. The terms and pricing of those financial products, ie interest rates and bond fees, are determined by international and local liquidity conditions. The economic crisis in recent years, and in particular the conditions which led around mid-year to the imposition of capital controls in the local banking system and deemed its recapitalisation necessary, have squeezed liquidity conditions in the banking sector, and in turn tight liquidity conditions in the construction sector. (see previous section 1)
- <u>Foreign Exchange Risks:</u> The Group receives a large part of its revenues from works in international markets, but only a small part of that income is derived outside the eurozone
  - In most cases of operations outside the eurozone, the Group makes sure its receivables in foreign currency are matched with payables in the same currency, effectively hedging part of its foreign exchange risk.
- <u>Liquidity Risk:</u> The risk of clients failing to meet the terms agreed upon in project contracts is always appreciable, especially in periods of economic crisis such as the one we are going through.
  - The Group maintains ample credit lines and cash to support its cash flow management from liquidity risks, also provisioning a sizeable proportion of its doubtful receivables in its accounts.
- <u>Country / Geo-Political Risk:</u> Geopolitical risk is present throughout the Eastern Mediterranean region, the Middle East and Northern Africa Group due to conflicts and unrest linked to the overturning of old political regimes, the rise of new fanatic religious groups, and the conflict for control of natural resources.
  - The Group's international activities and expansion, especially in the Middle East, is focused on countries with limited geo-political risk, in collaboration with our strategic investor, the Joannou & Paraskevaides Group, who has a long presence in those local markets.

It should be noted that Greece's Competition Commission initiated an inquiry into greek and international construction companies operating in Greece, including the Company, regarding a possible breach of competition rules. Senior staff from those companies have appeared before the Commission for questioning.

#### **Projections & Prospects for 2016**

Despite the adverse economic and business environment which evolved in the local market in 2015, the anticipated flow of works by the Group and the new conditions prevailing in the economy allow for some restrained optimism regarding the financial performance of the Group in 2016. Provided the flow of funds into the country as part of its 3<sup>rd</sup> financing programme is normalised sooner rather than later, the construction sector and the Group have the potential to register an appreciable recovery from midyear onwards.

More specifically, the positive developments expected to affect the Group in 2016 include the following:

- on the back of a low performance in 2015, the group has started again to ad new projects in Greece and in international markets, the full impact of which will show up on financial results onwards from the latter half of the year
  - pending outcome of tenders for works and concessions in the markets of the Middle
     East and the Persian Gulf, jointly with strategic investor Joannou & Paraskevaides
     group
- the pace of execution in road concessions is accelerating after a long halt, following the revision of their financing terms
- tenders for many public works, which were postponed in 2015 due to political developments, are restarting
- privatisations of several infrastructure assets in Greece pave the way for large investments, involving considerable construction works.

#### **Important Transactions Between the Company and Related Parties**

The most important transactions of the Company over the 01.01.2015-31.12.2015 period with related parties as per IAS 24, pertain to transactions with subsidiaries (as defined in article 42 of Law 2190/1920), as follows:

#### (amounts in € '000)

The Company transferred its 9.5% stake in "Airport International Group", concessionaire in the Queen Alia international airport in Jordan, to associated company Joannou and Paraskevaides 90verseas) Limited. The price of the transaction was €28.7 million, producing a profit of around €4.6 million.

#### Important Developments past the Balance Sheet Date (31.12.2015)

Award of joint venture project for TAP pipeline

The Company participates with Italy's Bonatti SpA in the joint venture which signed with Trans Adriatic Pipeline AG a contract for the engineering, procurement & construction (EPC) of a 360km natural gas pipeline section in northern Greece. TAP pipeline is the European segment of European Union's so-called "Southern Gas Corridor" which also includes the Trans Anatolian Natural Gas Pipeline (TANAP) crossing Turkey, and the South Caucasus Pipeline (SCPX) crossing Azerbaijan and Georgia.

#### Approval of Equity Changes in subsidiary ATHENA SA

The Extraordinary shareholders meeting of subsidiary ATHENA SA held on 28.03.2016 approved a number of capital changes, aimed at strengthening its capital structure. More specifically, it approved:

- increase of nominal value of each common share of the company from €0,80 to €8,00 with a simultaneous 10-for-1 reverse split of its shares, reducing its stock from 134,652,904 to 13,465,290 common shares
- reduction of the nominal value of company equity by means of a reduction of shares' nominal value from €8,00 to €0,30 to write-of accumulated losses amounting to €103,682,736
- share capital increase worth €30 million through the capitalization of an equal amount of payables to its main creditor and strategic investor J&P-AVAX SA, waiving the right of other shareholders in favour of J&P-AVAX SA.

On behalf of the Board of Directors J&P-AVAX SA

Konstantine Mitzalis
Vice Chairman & Managing Director

#### **Corporate Governance Statement**

### 1. Reference to the Code of Corporate Governance observed by the Company and public access to that Code

This Statement concerns the entire set of principles and practices observed by the Company in accordance with Law 3873/2010.

The Company adheres to the corporate governance practices described in its Code of Corporate Governance, accessible at its website www.jp-avax.gr

Corporate Governance refers to a set of relations between the Company administration, its Board of Directors, its shareholders and other interested parties. It is the structure used to approach and set corporate targets, identify the main risks to its operations, define the means to achieving corporate targets, set up the risk management system and enable the monitoring of the management's performance and effectiveness in dealing with all the afore-mentioned issues.

The legal framework around J&P-AVAX's Code of Corporate Governance is as follows:

- 1. Law 3016/2002 which introduced:
  - the participation of non-executive as well as independent nonexecutive members to the Boards of Directors of Greek listed companies
  - the operation of an internal auditing unit
  - the adoption of a corporate code of conduct
- 2. Law 3693/2008 which enforced the setup of audit committees and corporate disclosure of sensitive information regarding the ownership status and governance of companies
- 3. Law 3884/2010 on shareholder rights and additional corporate disclosure to shareholders ahead of General Assemblies.

The basic rules of J&P-AVAX's governance adhere to Greece's main Corporate Law (2190/1920) and its amendments as per Law 3604/2007.

Through its Code of Corporate Governance, the Company meets all relevant legal obligations and develops a corporate culture which rests upon the principles of business ethics as well as the protection of the interests of shareholders and all interested parties.

## 2. Corporate Governance practices applied by the Company in excess of legal requirements, and reference to public accessibility to those information

The corporate governance practices applied by the Company are in line with pertinent legislation and mentioned in its Code of Corporate Governance. The Company has segregated the duties of its Chairman, who is non-executive, from those of the Managing Director and applies an integrated system of internal auditing in accordance with international standards and the regulatory framework in effect.

It has also introduced a Code of Conduct to apply the standards of modern corporate governance and effective Internal Auditing.

The percentage of non-executive members of the Board of Directors exceeds the minimum 1/3 of total Board members required by legislation.

In line with Law 3016/2002, at least two non-executive Board members need also be "independent". The Company Board includes five non-executive members, two of which are also Independent.

Company Board members are elected for a three-year term, whereas Law 2190/1920 provides for a maximum six-year term.

#### The Board of Directors

The Board of Directors, whose term ends 30.06.2018, comprises the following:

1	Christos Joannou	Chairman, Executive Member
2	Constantine Kouvaras	Alternate Chairman & Executive Member
3	Constantine Mitzalis	Vice Chairman & Managing Director
4	Constantine Lysaridis	Executive Member
5	Athena Eliades	Executive Member
6	Efthyvoulos Paraskevaides	Non-Executive Member
7	Leoni Paraskevaides Mavronikola	Non-Executive Member
8	John Pistiolis	Non-Executive Member
9	Alexios Sotirakopoulos	Independent, Non-Executive Member
10	David Watson	Independent, Non-Executive Member

Brief CVs of Board members are available at the company website.

#### Notes to Board member status:

- Members 1 to 5 are Executive
- Members 6 to 8 are Non-Executive
- Members 9 and 10 are Independent & Non-Executive
- Members 1 to 4 comprise the Corporate Planning and Risk Management Committee
- Members 7, 9 and 10 comprise the Audit Committee

Of the Board's total ten (10) members, five (5) are executive, three (3) are non-executive, and two (2) are independent, non-executive.

The following are executive members:

- Chairman
- Alternate Chairman
- Vice Chairman & Managing Director
- 2 members

The following are non-executive members:

• 3 members

The following are independent, non-executive members:

#### • 2 members

The authorities of executive Board members are defined and described in relevant official minutes of a Board meeting.

Non-executive and independent Board members are assigned the task of supervising corporate activities. Those Board members are seasoned professionals from the business and academic community with both local and international work experience, selected on the basis of their education and social status. To that extent, those Board members are perfectly suited to have an unbiased and all-round understanding of business affairs and express objective views on those affairs.

Acting collectively, the Board of Directors manages and handles all corporate affairs. It decides on all issues concerning the Company and acts accordingly, except for those issues and actions where jurisdiction rests by Law or by the Company Charter with the General Assembly of Shareholders.

Collective action by the Board of Directors is required in the following cases:

- Collective actions required by Law to be taken by the Board of Directors
- The sale or offer of Company shares, the acquisition of other businesses or proposals for merger with other businesses
- The sale or acquisition by the Company of assets (either current or fixed) worth at least €1,000,000
- Signing contracts or entering obligations worth at least €3,000,000
- The provision of loans, credit or other financial facility, guarantee, compensation or other insurance to third parties, either legal entities or individuals, outside the ordinary course of the Company business worth at least €3,000,000, as well as the provision of trading credit valued at a minimum of €3,000,000 to clients outside the normal Company policy.
- Signing loans worth at least €3,000,000
- The acceptance of encumbrances on Company assets valued at a minimum of €3,000,000
- Changes in accounting policies already adopted by the Company
- Signing contracts or significantly amending signed contracts, or signing contracts with non-commercial terms worth at least €3,000,000

The Board of Directors issues an annual report outlining the Company's transactions with related parties, as per article 42e, paragraph 5 of Corporate Law 2190/1920. This report is filed with the supervising authorities.

The Board of Directors reserves the right to take special decisions on delegating all or part of its authority and powers stated in the Company Charter and the Corporate Law, to grant specific members of the Board of Directors or other Company employees or third persons, acting either on their own or jointly, specific rights of representation of the Company.

All practices governing the role and jurisdiction of the Board of Directors are included in the Company Code of Corporate Governance.

The Board of Directors has set up the following committees:

#### **Corporate Planning and Risk Management Committee**

The Corporate Planning and Risk Management Committee comprises the following four (4) executive members of the Board of Directors of the Company.

Constantine Kouvaras
 Constantine Mitzalis
 Constantine Lysaridis
 Chairman
 Member
 Christos Joannou
 Member
 Member

The Board of Directors is empowered to decide on the change in the total of members and replacement of the members of the Corporate Planning and Risk Management Committee.

The Corporate Planning and Risk Management Committee convenes at least once per month following invitation by its Chairman or its Vice-Chairman.

The term of the Corporate Planning and Risk Management Committee coincides with the term of the Board of Directors. Therefore, the term of the afore-mentioned members of the Corporate Planning and Risk Management Committee is three-year and ends on 30.06.2018.

The Corporate Planning and Risk Management Committee is responsible for submitting proposals to the Board of Directors on the following matters:

- Overall Company strategy and business plans
- Expansion into new business areas or countries where the Company has no presence
- Acquisitions and mergers
- Deciding the dividend policy
- Preparation and updating of the Company organisation chart and submission to the Board of Directors for approval
- Changes at senior director level (ie directors directly answerable to the Managing Director) following a proposal by the Managing Director
- Periodic assessment of Company operations and achievement of targets set through investment and business plans, and implementation of any necessary corrective decisions and actions
- Decision-making on all issues transferred to the Committee by the Board of Directors or the Managing Director or executive Board members
- Any authority transferred specifically through decisions of the Board of Directors
- Submission of proposals for setting the Company's objective targets and business risks towards action plans and performance checks
- Compilation and updating of the Company's Code of Conduct and its submission for approval by the Board of Directors
- Any changes in the regulation of operations of the Corporate Planning and Risk Management Committee are prepared and approved by decision of the Board of Directors

#### **Audit Committee**

David Watson
 Alexios Sotirakopoulos
 Independent, Non-Executive Member
 Independent, Non-Executive Member

3 Leoni Paraskevaides Mavronikola Non-Executive Member

The Audit Committee comprises independent and non-executive members of the Board of Directors with considerable managerial and accounting knowledge and experience. Its wide-ranging auditing authorities cover the supervising of the operation of the Company's Internal Auditing unit, which is hierarchically answerable upon it, and the monitoring of the effective operation of the internal auditing system.

The Audit Committee's duties and jurisdiction, as well as its operation charter are analysed in the Code of Corporate Governance, which may accessed at the Company website <a href="https://www.jp-avax.gr">www.jp-avax.gr</a>

The Audit Committee meets at least four times per annum to monitor the internal auditing systems and the Company's risk management function, also holding extraordinary meetings whenever deemed necessary.

Meetings of the Audit Committee with the Company's Internal Auditor may be jointly attended by the appointed external chartered accountants/auditors.

# 3. Description of the main characteristics of the Company's internal audit and risk management systems in relation with the process of preparing financial accounts

#### **Internal Auditing**

Internal auditing is performed by the independent Internal Auditing unit, which has a written operations regulation (the Internal Auditing Charter). Internal auditing is currently carried out by three persons with the required skills and expertise for excelling at their work. The prime purpose of Internal Auditing is the evaluation of risk management systems throughout the Company's range of operations in terms of adequacy, performance and efficiency relative to strategic target achievement. The Internal Auditing unit's authority also includes compliance to Internal Regulations and Legislation, at all locations of operations.

#### Changes during 2015

According to the Internal Auditing Charter, during 2015 the Audit Committee held regular meetings with the head of the Company's Internal Auditing unit, discussing operational and organisational issues and receiving all required information and updates regarding the applied controls, their efficiency and the course of various audits.

The Internal Auditing unit submitted to the Audit Committee its annual report, summarizing its main findings and proposals & actions on improving the audited Company divisions.

The Audit Committee of the Board of Directors assesses on an annual basis the Internal Audit system efficiency, based on the relevant information and data

provided by the Internal Audit unit as well as the findings and notes of external auditors and the supervising authorities.

Following a report of the Audit Committee, the Board of Directors approved the audits schedule for 2016 specified the operations and points which internal auditing should focus on.

#### **Internal Auditing Systems and Risk Management**

The Company has in place a clearly defined set of Policies & Procedures regarding the handling of corporate events and the preparation of financial accounts. Its accounting system is supported by specialised information systems adjusted to its operational requirements. Controls and accounting procedures have been specified to secure the correctness and validity of accounting book entries as well as the integrity and reliability of financial accounts. The Audit Committee of the Board of Directors supervises and evaluates the procedures for preparing the Company's interim and annual financial reports, in line with pertinent accounting standards, and examines the reports of external auditors for any divergence from current accounting practices.

#### **Risk Management**

The Board of Directors is in the process of implementing a Risk Management system to fully comply with the Company's Code of Corporate Governance. The risk management system is expected to become fully operational in 2014. To this extent, the Company organized training seminars for its personnel regarding the management of operational risks, using models such as COSO-ERM.

# 4. Information on the operation of the General Assembly of Shareholders and its main powers, description of shareholder rights and their exercise

Shareholders exercise their rights to controlling the Company solely through their participation in the General Assemblies of Shareholders. The rights and obligations attached to each share are transferred to its lawful owner, while ownership of shares is proof of the endorsement of the Company Charter and the decisions of the General Assembly of Shareholders and the Board of Directors which are taken within their jurisdiction and according to laws.

The General Assembly of the Company's Shareholders is its supreme body and has the right to decide on any issue concerning the Company. Its lawful decisions are binding for shareholders who abstain or disagree.

The General Assembly of Shareholders has the sole right to decide on the following areas:

- a. Amendment of Corporate Charter
- b. Increase or decrease of share capital
- c. Election of members to the Board of Directors
- d. Election of Auditors
- e. Approval of annual financial accounts
- f. Appropriation of annual profit
- g. Merger, split, conversion, activation, term extension or liquidation of the Company
- h. Appointment of liquidation supervisors

The preceding paragraph excludes the following:

- a. Increases decided by the Board of Directors in accordance with paragraphs 1 and 14 of article 13 of Corporate Law 2190/1920, as well as increases imposed by other laws
- b. Amendment of the Corporate Charter by the Board of Directors in accordance with paragraph 5 of article 11, paragraph 13 of article 13, paragraph 2 of article 13a and paragraph 4 of article 17b of Corporate Law 2190/1920
- c. The election of new members to the Board of Directors to replace members who resigned, deceased or were deprived of their member status in any way, in accordance with paragraph 7 of article 18 of Corporate Law 2190/1920
- d. The absorption of a 100%-owned societe anonymes in accordance with article 78 of Corporate Law 2190/1920
- e. The distribution of profits or optional capital reserves within the current fiscal year with a Board of Directors decision, provided an earlier General Assembly of Shareholders has granted its permission to do so.

Following a petition by shareholder(s) representing at least 1/20 of the paid-up share capital, the Board of Directors must invite shareholders to an Extraordinary Assembly, setting a meeting date no more than 45 days from the day of delivery of the petition to the Chairman of the Board of Directors. The shareholders' petition must state the agenda of the meeting. Should the Board of Directors fail to invite shareholders to a General Assembly within 20 days from the delivery of the request, the Assembly takes place by the shareholders who requested it after securing an order by the Court of First Instance, with all expenses paid by the Company. The court order sets the date and place of the Shareholders' Assembly, as well as the agenda.

By written petition of shareholder(s) representing at least 1/20 of the paid-up share capital, the Board of Directors must append additional items to the agenda of a General Assembly which has already been invited, provided the petition has been delivered to the Board of Directors a minimum of 15 days prior to the General Assembly date. In accordance with article 26 of Corporate Law 2190/1920, the Board of Directors is required to publish or disclose additional items to the agenda a minimum of 7 days prior to the General Assembly of Shareholders.

Shareholder(s) representing at least 1/20 of the paid-up share capital may enforce only once the postponement by the Chairman of the General Assembly, either Ordinary or Extraordinary, for all or part of the agenda, stating the date on which the Assembly will be continued. That date may not be more than 30 days later than the date of the enforcement of the postponement of the shareholder meeting.

A General Meeting which has been called following a petition for postponement is deemed continuing from the initial General Meeting, thereby eschewing the need for publishing an invitation to shareholders, with new shareholders entitled to participate in it, in accordance with articles 27 and 28 of Corporate Law 2190/1920.

Any shareholder may send at least 5 days prior to the date of a General Assembly a written petition to the Board of Directors for the provision of additional information on particular issues to facilitate the evaluation of agenda items. Furthermore, shareholder(s) representing at least 1/20 of the Company's paid-up share capital

may force the Board of Directors to disclose at the General Assembly, provided it is an annual ordinary meeting, the remuneration in the last two years of each member of the Board of Directors or senior-level employee, as well as any other provisions to those persons, regardless of the existence of a relevant contract. In all aforementioned cases, the Board of Directors may decline the provision of additional information citing reasonable cause, which must be stated in the General Assembly minutes. Such reasonable cause may be the representation of petitioning shareholders to the Board of Directors, in accordance with paragraphs 3 or 6 of article 18 of Corporate Law 2190/1920.

Following a petition by shareholder(s) representing at least 1/5 of the Company's paid-up share capital which is submitted to the Company within the time frame mentioned in the previous paragraph, the Board of Directors is required to provide the General Assembly with information regarding the business and its assets. The Board of Directors may decline to provide this information citing reasonable cause, which must be stated in the General Assembly minutes. Such reasonable causes may include the representation of petitioning shareholders to the Board of Directors, in accordance with paragraphs 3 or 6 of article 18 of Corporate Law 2190/1920, provided those members of the Board of Directors have received adequate information on this matter.

Shareholder(s) representing at least 1/20 of the Company's paid-up share capital may force the decision on any General Assembly agenda item to be taken by a roll call voting procedure.

The right to request an audit of the Company from the local Single-judge Court of First Instance where the Company is headquartered rests with: a. shareholders of the Company representing at least 1/20 of its paid-up share capital, b. the Capital Markets Commission, and c. the Minister of Development or any other supervising body. The audit in question is ordered on suspicion of acts in breach of the law, the Corporate Charter or the General Assembly decisions. In any case, the petition for the audit must be submitted within three years from the date of approval of the financial accounts of the fiscal year in which the alleged breaches took place.

Shareholder(s) representing at least 1/5 of the Company's paid-up share capital may seek the order of an audit of the Company by the local Single-judge Court of First Instance should they believe the Company is not managed properly and prudently.

### Derogations from the Code of Corporate Governance, and justifications to those derogations

The Company has not yet established a formal Remuneration Committee. The remuneration of members of the Board of Directors is proposed by the Board of Directors and approved by the General Meeting.

The report on remuneration of the members of the Board of Directors is not included in this Report on Corporate Governance on the basis of fair treatment and competition. The report on remuneration will start to be published in line with Corporate Governance as soon as this is required by law.

#### **Explanatory Report of the Board of Directors**

[in accordance with article 11a, paragraph 1 of Law 3371/2005, and article 4, paragraph 8 of Law 3556/2007

#### Company share capital structure

The Company's share capital amounts to € 45,039,813 and is split into 77,654,850 common registered shares of a par value of € 0.58 each. The Company's shares are common registered with voting rights, listed on the Athens Stock Exchange's Large Capitalisation market in paperless format.

#### Restrictions on the transfer of the Company's shares

The transfer of the Company's shares is governed by Greek Law and the Company Charter does not place any restrictions.

#### Significant direct or indirect participations according to articles 9-11 of Law 3556/2007

According to the Company share register on 30.03.2016, the following shareholders control in excess of 5% of the Company share capital:

Shareholder Name	Participation
Joannou & Paraskevaides (Investments) Ltd	44.18%
Constantine Mitzalis	13.93%
Constantine Kouvaras	5.97%

#### Holders of any type of a share granting special rights of control

No shares of the Company provide special rights of control

#### **Restrictions on voting rights**

The Company Charter does not provide for any restrictions on voting rights

#### Agreements between Company shareholders

The Company is not aware of any agreements between its shareholders which might result in restrictions on the transfer of its shares or the exercise of voting rights

#### Rules of appointment and replacement of Board members and amendment of Charter

The rules provided for by the Company Charter regarding the appointment and replacement of its Board members as well as the amendment of its Articles do not differ from the provisions of codified law 2190/1920 and its amendments

Authority of the Board of Directors or specific Board members to issue new shares or purchase own shares

According to the provisions of Article 16 of codified law 2190/1920 and its amendments, the Boards of companies listed on the Athens Stock Exchange may only be authorised to increase company capital through the issue of new shares and to acquire up to 10% of their total number of shares through the Athens Stock Exchange for a specific time period following a decision of the General Meeting of their shareholders. The Company Charter does not make any provisions for this matter that differ from pertinent legislation.

Important agreements entered by the Company, which will come into effect, be amended or expire upon any changes in the Company's control following a public offer and the results of this agreement

There is no such agreement outstanding

Agreements that the Company has entered with its Board members or its personnel, providing for compensation in case of resignation or release from duties without substantiated reason or in case of termination of their term or employment due to a public offer

There are no such agreements outstanding

On behalf of the Board of Directors J&P-AVAX SA

#### [Translation from the original text in Greek]

### AUDIT REPORT BY INDEPENDENT CERTIFIED AUDITOR To the Shareholders of "J&P-AVAX S.A."

#### Report on the Separate and Consolidated Financial Statements

We have audited the accompanying separate and consolidated financial statements of "J&P-AVAX S.A.", which comprise the separate and consolidated statement of financial position as at December 31, 2015, and the separate and consolidated statement of comprehensive income, statement of changes in equity and Statement of cash flow for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### Management's Responsibility for the Separate and Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these separate and consolidated financial statements in accordance with International Financial Reporting Standards as adopted by European Union, and for such internal control as management determines is necessary to enable the preparation of separate and consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these separate and consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the separate and consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate and consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the separate and consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the separate and consolidated financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the separate and consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the accompanying separate and consolidated financial statements present fairly, in all material respects, the financial position of the Company "J&P-AVAX S.A." and its subsidiaries as at December 31, 2015, and of their financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards that have been adopted by the European Union.

#### Report on Other Legal and Regulatory Requirements

- a) The Board of Directors' Report includes a statement of corporate governance that provides the information required by Paragraph 3d of Article 43a of Codified Law 2190/1920.
- b) We verified the agreement and correspondence of the content of the Board of Directors' Report with the attached separate and consolidated Financial Statements, in the scope of the requirements of Articles 43a (paragraph 3a), 108 and 37 of Codified Law 2190/1920.

#### Notes and accounting policies

#### A. ABOUT THE COMPANY

#### A.1 General Information about the Company and the Group

J&P-AVAX S.A. was listed on the Athens Stock Exchange's Main Market in 1994 (then incorporated as AVAX S.A.) and is based in Marousi, in the Attica prefecture. It boasts substantial expertise spanning the entire spectrum of construction activities (infrastructure projects, civil engineering, BOTs, precast works, real estate etc) both in Greece and abroad.

In 2002, former AVAX S.A. merged with its subsidiaries J&P (Hellas) S.A. and ETEK S.A. and was renamed into J&P-AVAX S.A, whereas another 100% subsidiary unit, namely ETETH S.A., merged with its own subsidiary AIXMI S.A. The new business entities which evolved out of these mergers made use of Law 2940/2001 on contractors' certification for public works. The Group's leading company J&P-AVAX S.A. was awarded a  $7^{th}$ -class public works certificate, which is the highest class available, whereas ETETH S.A. acquired a  $6^{th}$ -class certificate and PROET S.A. entered the new public works certification registry with a  $3^{rd}$ -class certificate, which was upgraded to  $4^{th}$ -class towards the end of 2005. In the year 2007 J&P Avax SA acquired the subsidiary Athena SA.

#### A.2 Activities

Group strategy is structured around four main pillars:

#### Concessions

- Intense presence in concession project tenders, to maintain a substantial backlog of projects and secure long-term revenue streams
- Strengthening the project finance business unit and expanding our network of specialized external business partners (design consultants, financial and insurance advisors, legal firms) to enhance the Group's effectiveness in bidding for concession projects and maximize the return from their operation by means of financial risk management

#### Business Activities

- Development along the lines of major international construction groups, diversifying revenue through expansion into related business areas, eg environmental projects, facility maintenance & management, waste management, maintenance of large infrastructure projects, and management of large facilities constructed towards the Athens 2004 Olympic Games
- o Pursuit of synergies of various business activities on Group level

#### • Real Estate

- Selective investment in quality projects offering high aesthetics and status, focused mainly on the residential and vacation housing sectors, as well as in select commercial and real estate projects
- Advisory services and development of new markets and products, such as retirement villages

#### Other Activities

- Participation in BOT infrastructure projects for the reconstruction of neighboring counties and regions (Eastern & SE Europe, Middle East, North Africa) in collaboration with J&P Overseas and other international partners with long local presence and expertise
- Promotion of the use of precast technology

#### B. FINANCIAL REPORTING STANDARDS

J&P-AVAX S.A.'s consolidated accounts for the year running from January  $1^{st}$ , 2015 to December  $31^{st}$ , 2015 are prepared in accordance with the 'historic cost' principle, inclusive of adjustments in various items on both sides of the balance sheet, as well as on the 'going-concern' principle and conform to the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and the interpretations issued by IASB's International Financial Reporting Interpretation Committee (IFRIC) which have been adopted by the European Union.

IASB has issued a series of standards referred to as «IFRS Stable Platform 2005». The Group applies the IFRS Stable Platform 2005 since January 1, 2005 which includes the following standards:

I.A.S. 1	Presentation of Financial Statements
I.A.S. 2	Inventories
I.A.S. 7	Cash Flow Statements
I.A.S. 8	Accounting Policies, Changes in Accounting Estimates and Errors
I.A.S. 10	Events after the Balance Sheet Day
I.A.S. 11	Construction Contracts
I.A.S. 12	Income Taxes
I.A.S. 16	Property, Plant and Equipment
I.A.S. 17	Leases
I.A.S. 18	Revenue
I.A.S. 19	Employee Benefits
I.A.S. 20	Accounting for Government Grants and Disclosure of Government Assistance
I.A.S. 21	The Effects of Changes in Foreign Exchange Rates
I.A.S. 23	Borrowing Costs
I.A.S. 24	Related Party Disclosures
I.A.S. 26	Accounting and Reporting by Retirement Benefit Plans
I.A.S. 27	Consolidated and Separate Financial Statements
I.A.S. 28	Investments in Associates
I.A.S. 31	Interests in Joint Ventures
I.A.S. 32	Financial Instruments: Disclosure and Presentation
I.A.S. 33	Earnings per Share
I.A.S. 34	Interim Financial Reporting
I.A.S. 36	Impairment of Assets
I.A.S. 37	Provisions, Contingent Liabilities and Contingent Assets
I.A.S. 38	Intangible Assets
I.A.S. 39	Financial Instruments: Recognition and Measurement
I.A.S. 40	Investment Property
I.F.R.S. 1	First-Time Adoption of International Financial Reporting Standards
I.F.R.S. 3	Business Combinations
I.F.R.S. 5	Non-Current Assets Held for Sale and Discontinued Operations
I.F.R.S. 7	Financial Instruments: Disclosures
I.F.R.S. 8	Operating segments
I.F.R.S. 11	Joint Arrangements
I.F.R.S. 12	Service Concession Arrangements

The policies referred to hereafter are applied consistently to all time periods covered in the accounts.

Preparing Financial Statements under IFRS requires the use of estimates and opinions while applying Company accounting methods. Any important assumptions made by Company management in applying those accounting methods have been noted when deemed necessary.

#### C. BASIC ACCOUNTING PRINCIPLES

The Group consistently applies the following accounting principles in preparing the attached Financial Statements:

#### C.1. Business Combinations (I.F.R.S. 3)

Investments in Subsidiaries: All companies managed and controlled, either directly or indirectly, by another company (parent) through ownership of a majority share in the voting rights of the company in which the investment has been made. Subsidiaries are fully consolidated (full consolidation) with the purchase method starting on the date on which their control is assumed, and are excluded from consolidation as soon as their control is relinquished.

Acquisitions of subsidiaries by the Group are entered according to the purchase method. Subsidiary acquisition cost is the fair value of all assets transferred, of all shares issued and all liabilities at the acquisition date, plus any costs directly related to the transaction. The specific assets, liabilities and contingent liabilities acquired through a business combination are accounted for at their fair values irrespective of the percentage of participation. The acquisition cost in excess of the fair value of the acquired net assets is entered as goodwill. Should the total acquisition cost fall short of the fair value of the acquired net assets, the difference is directly entered in the Income Statement.

Intragroup sales, balances and un-realised profits from transactions among Group companies are omitted. Losses among Group companies (un-realised on a Group level) are also eliminated, except when the transaction provides evidence of impairment of the transferred asset. The accounting principles of subsidiaries have been amended for uniformity purposes relative to those adopted by the Group.

At the Company's balance sheet, investment in subsidiaries is stated at cost less loss from impairment, if any. IAS 36 Impairment of Assets requires an impairment test if there is any indication that an asset is impaired.

**Investments in Associates:** All companies which the Group may influence significantly but do not qualify for subsidiary or Joint Venture status. The Group's assumptions call for ownership between 20% and 50% of a company's voting rights to have significant influence on it. Investments in associates are initially entered in the Company's books at cost and subsequently consolidated using the equity method.

The Group's share into the profit or loss of associates following the acquisition is recognised into the Income Statement, whereas the share into changes in capital reserves following the acquisition is recognised into the reserves. Accumulated changes affect the book value of investments in associates. When the Group's participation into the financial loss of an associate is equal to or exceeds its participation in the associate, inclusive of provisions for bad debts, the Group does not recognise any further losses, except when covering liabilities or making payments on behalf of the associate, or taking other actions as part of its shareholder relationship.

Unrealised profits from transactions between the Group and its associates are omitted according to the participation of the group into those associates. Unrealised gains are omitted, unless the transactions suggest impairment of the transferred assets. Accounting principles of associates have been amended for uniformity purposes relative to those adopted by the Group.

Intragroup balances and transactions, along with Group profits arising from intragroup transactions which have yet to be concluded on a Group level, are eliminated in the consolidated Financial Statements.

#### Joint Arrangements IFRS 11.

IFRS 11 replaces IAS 31. The objective of the IFRS is to establish principles for financial reporting by entities that have an interest in arrangements that are controlled jointly (ie joint arrangements). The IFRS requires a party to a joint arrangement to determine the type of joint arrangement in which it is involved by assessing its rights and obligations arising from the arrangement.

The IFRS defines joint control as the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities (ie activities that significantly affect the returns of the arrangement) require the unanimous consent of the parties sharing control.

The IFRS classifies joint arrangements into two types—joint operations and joint ventures. A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement (ie joint operators) have rights to the assets, and obligations for the liabilities, relating to the arrangement. A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement (ie joint venturers) have rights to the net assets of the arrangement.

An entity determines the type of joint arrangement in which it is involved by considering its rights and obligations. An entity assesses its rights and obligations by considering the structure and legal form of the arrangement, the contractual terms agreed to by the parties to the arrangement and, when relevant, other facts and circumstances. The factors that the Group tests to determine that joint arrangements are under common control include the structure, legal form, contractual arrangement and other facts and circumstances.

The IFRS requires to recognize and to account for a joint arrangement using similar to IAS 31 proportionate consolidation – the party's share of assets, liabilities, income and expenses of a jointly controlled entity was combined line-by-line with similar items in the companies' financial statements.

**Group Structure**: J&P-AVAX Group fully consolidates the following subsidiaries:

Company	% of J&P-AVAX's SA participation	Fiscal Years not tax audited
J&P-AVAX S.A., Athens	Parent	2010 & 2015
ETETH S.A., Salonica	100%	2010 & 2015
ELVIEX Ltd, Ioannina	60%	2010-2015
PROET S.A., Athens	100%	2010 & 2015

MONDO TRAVEL (ex.TERRA FIRMA S.A.), Athens	99,999%	2010 & 2015
J&P AVAX CONCESSIONS S.A. (ex. EVIA REAL ESTATE), Athens	99,967%	2008-2010 & 2015
ATHENS MARINA S.A., Athens	85,7395%	2009-2010 & 2015
J&P AVAX POLSKA, Poland	100%	2009-2015
JPA TRIKALA S.A., Athens	100%	2010 & 2015
JPA ATTICA SCHOOLS PPP, Athens	100%	2015

During the first semester of 2015, J&P-AVAX's stake in the subsidiaries ATHENA SA and ATHENS MARINA SA was raised from 89,477% to 92,896% and from 82,0702% to 85,7395% respectively.

For fiscal years 2011, 2012 and 2013, the Company and its subsidiaries subject to tax auditing from an auditor in accordance with article 82 of Law 2238/1994, and have received a "Tax Compliance Report" with an unqualified opinion. According to the relecant tax law, tax auditing of the aforementioned fiscal

years will be deemed finalized 18 months following the submission of the Tax Compliance Certificate to the Finance Ministry.

For the fiscal year 2014, the Company and its subsidiaries that are tax audited in Greece, have been subjected to tax auditing from an auditor in accordance with paragraph 1 of article 65A of Law 4174/2013, as amended by Law 4262/2014. The Company has received a "Tax Compliance Report" with an unqualified opinion.

For the fiscal year 2015, the Company and its subsidiaries that are tax audited in Greece, have been subjected to tax auditing from an auditor in accordance with paragraph 1 of article 65A of Law 4174/2013, as amended by Law 4262/2014. The tax audit on fiscal year 2015 is in progress and the relevant tax certificate will be issued following the publication of the financial accounts for 2015. We estimate that any additional tax liabilities which may arise until the completion of the tax audit, will not materially effect the financial accounts.

Furthermore, in the consolidated financial statements of J&P Avax SA the following subsidiaries of Athena SA are included using the fully consolidation method:

Company	% of Athena's SA participation	Fiscal Years not tax audited
ATHENA LIBYA COMPANY, Libya	65%	-
ATHENA CONCESSIONS S.A., Athens	99%	2008-2010 & 2015
ERGONET SA, Athens	51%	2010 & 2015
ATHENA ROMANIA SRL, Romania	100%	-

The Group consolidates the following associates using the equity method:

5N S.A., Athens	45,00%
ATHENS CAR PARKS S.A., Athens	21,76%
ATTICA DIODIA S.A., Athens	30,84%
ATTIKI ODOS S.A., Athens	30,83%
POLISPARK S.A., Athens	28,76%
3G S.A., Athens	50,00%
CAR PARK N.SMIRNI S.A., Athens	20,00%
LEISURE PARKS S.A.(KANOE-KAYAK), Athens	29,70%
CYCLADES ENERGY CENTER S.A., Athens	45,00%
SC ORIOL REAL ESTATE SRL, Romania	50,00%
SALONICA PARK S.A., Athens	24,70%
AEGEAN MOTORWAY S.A., Larissa	21,25%
GEFYRA OPERATION S.A., Athens	21,55%
GEFYRA S.A., Athens	20,53%
PIRAEUS ST.NICOLAS CAR PARK S.A., Athens	45,82%
MARINA LIMASSOL S.A., Limassol	33,50%
METROPOLITAN ATHENS PARK S.A., Athens	22,91%
VOLTERRA S.A. (ex.ARGESTIS S.A.), Athens	50,00%
STARWARE ENTERPRISES LTD, Cyprus	50,00%
ELIX S.A., Athens	31,97%

Furthermore, in the consolidated financial statements of J&P Avax SA the following associates of Athena SA are included using the equity method:

Company	% of Athena's SA
, ,	participation
VAKON SA, Greece	25,00%
VIOENERGEIA S.A., Greece	45,00%
ATHENA EMIRATES LLC, United Arab Emirates	49,00%

Joint arrangements (construction consortia) which the parent Company or its subsidiaries participate in, are consolidated with the method of proportional consolidations in the financial statements of the parent Company, or its subsidiaries respectively. The total participations in joint arrangements (construction consortia) are as follows:

Prop	portionate consolidation by 100% (complete consolidation)	
1.	J/V J&P – AVAX S.A. – ETETH S.A., Athens (SMAEK)	100.00%

# C.2a. Property, Plant & Equipment, Investment Property (I.A.S. 16)

Group Management has utilised the basic valuation method (at acquisition cost, less accumulated amortisation and impairments), as per IAS 16, for classifying operating fixed assets (Technical Equipment, Vehicles, Furniture and other Equipment).

The revaluation method was chosen by management for classifying land and fixtures.

# **Revaluation Model**

Upon recognition as an asset, a fixed asset whose fair value may be estimated reliably may be revalued, to reflect the fair value at recognition date less any subsequent accumulated impairment of value.

The fair value of land and buildings is usually appraised by auditor-valuators. The fair value of equipment and fixtures is usually their acquisition price.

When tangible fixed assets are revalued, the entire class of similar assets should be revalued.

When the book value of a fixed asset increases as a result of revaluation, the increase is credited directly into the Equity as a Revaluation Surplus.

Increases in value due to revaluation will be recognised through the Income Statement to the extend it reverses an earlier impairment of the same asset, charged in the Income Statement.

Should the book value of an asset be reduced as a result of a revaluation, the decrease in value should be charged in the Income Statement. If a revaluation surplus for that asset exists in Equity, the decrease will be charged directly into Equity up to the value of that surplus. Revaluation surpluses in Equity are transferred to Retained Earnings as soon as the fixed assets are sold or derecognized. Tax effects on the revaluation of tangible fixed assets are recognised and disclosed according to IAS 12 Income Tax.

The initial implementation of a tangible fixed asset revaluation policy is treated as a revaluation according to IAS 16, not IAS 8.

While applying I.A.S. 36 (on Impairment of Assets), on each reference date Group management effectively estimates whether its asset base shows signs of impairment, comparing the residual value for each asset against its book value.

Subsequent expenditure on fixed assets already appearing on the Company's books are added to that asset's book value only if they increase its future economic benefits. All expenditure (maintenance, survey etc.) for assets not increasing their future economic benefits are realised as expenses in the financial period incurred.

Expenditures incurred for a major repair or survey of a fixed asset are realised as expenses in the financial period in which they are incurred, except when increasing the future economic benefits of the fixed asset, in which case they are added to the book value of the asset.

Depreciation of tangible fixed assets (excluding land which is not depreciated) is calculated on a straight-line basis according to their useful lives. The main depreciation rates are as follows:

Operating Property (buildings) 3%
Machinery 5.3% - 20%
Vehicles 7.5% - 20%
Other equipment 15% - 20%

Residual values and useful lives of tangible fixed assets are subject to revision on balance sheet date. When the book value of fixed tangibles exceeds their recoverable value, the difference (impairment loss) is directly charged as an expense item in the Income Statement.

When disposing of tangible fixed assets, the difference between the revenue from the sale and the book value of the assets is realised as profit or loss in the Income Statement.

Own-produced fixed tangibles constitute an addition to the acquisition cost of the assets in the form of direct cost of personnel participating in their production (including related employer's social security contributions), cost of materials and other general expenses.

# C.2b. Investment Property (IAS 40)

For investment property, management has opted to apply the method of revaluation (fair values), based on IAS 40.

Management believes that the use of fair values in appraising investment property provides reliable and more pertinent information, because it is based on updated prices.

# C.3. Intangible Assets (I.A.S. 38)

These expenses should be amortised during the financial period in which they are incurred. Only expenses meeting the criteria of I.A.S. 38.18 are capitalized, such as expenses for computer software and licences. Long-term expenses not meeting the criteria of I.A.S. 38.18 are written off in applying IFRS. Intangible assets include software licences.

# C.4. Impairment of Assets (I.A.S. 36)

#### i) Goodwill

Goodwill represents the additional price paid by the Group for the acquisition of new subsidiaries, joint ventures, and associates. It arises from the comparison of the price paid for the acquisition of a new company with the proportion of the group share to the fair value of the net assets, during the acquisition date. The arisen goodwill from the acquisition of the new subsidiaries and joint ventures is recognized to intangible assets. Every year impairment test for the goodwill is conducted, which decreases the original amount as it is recognized in the balance sheet. During the calculation of profit or loss arisen from participation disposal, the relevant (if any) goodwill is taken under consideration of the disposed company.

For an easier processing of impairment tests, goodwill is allocated to Cash Generating Units (CGU's). The CGU is the smallest identifiable unit of assets which creates independent cash flows and represents the level at which the Group collects and presents the financial data for reasons of internal information. The impairment for the goodwill, is determined from the calculation of the recoverable amount of the CGU's with which the goodwill is connected. Impairment loss which is related with goodwill cannot be reversed in future periods. The Group conducts the annual test for goodwill impairment at 31 December of each accounting period.

In case that the fair value of net assets of a company during the acquisition date is higher than the price paid for the acquisition, negative goodwill is recognized (income), which goes directly in the Income Statement.

I.A.S. 36 applies for the impairment of subsidiaries acquisition or I.A.S. 39 for participation to associates, and other participating interest companies.

# ii) Other Assets

Assets with an infinite useful life are not depreciated and are subject to annual review for impairment, whenever events take place showing their book value is not recoverable. Assets being depreciated are subject to review of their value impairment when there are indications that their book value shall not be recovered.

Net Selling Price (NSP) is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable willing parties, less the costs of disposal. Value in use is the present value of

estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. At each balance sheet date, management assess whether there is an indication of impairment as required by I.A.S. 36, requiring that the book value of assets does not exceed their recoverable amount. Recoverable amount is the highest between Net Selling Price and Value in Use.

This evaluation also takes into account all available information, either from internal or external sources. Impairment review is applied on all assets except for inventories, construction contracts, deferred tax receivables, financial assets falling under I.A.S. 39, investment property and non-current assets classified as being held for disposal.

Impairment losses are charged in the Income Statement.

# C.5. Inventories (I.A.S. 2)

On Balance Sheet date, inventories are valued at the lowest between cost and Net Realisable Value (NRV). NRV is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale. Inventory cost does not include financial expenses.

# C.6. Financial Instruments: Recognition and Measurement (I.A.S. 39)

The standard outlines the principles for recognition and measurement of financial instruments, financial liabilities and certain contracts for purchase or sale of non financial instruments. The financial instruments of the Group are classified in the following categories according to the substance of the contract and the purpose for which they were purchased. Purchases and sales of investments are recognised on trade date, which is the date on which the Group commits itself in purchasing or selling the asset. Investments are initially recognized at fair value plus related transaction expenses, with the exception of transaction expenses for assets which are recognized at fair value and through the income statement. Investments are written off when the right to the related cash flows expires or is transferred and the Group has in substance transferred all risks and rewards relating to ownership.

# i) Financial assets/liabilities valued at fair value through the income statement

These comprise financial assets/liabilities that satisfy any of the following conditions:

- Financial assets/liabilities held for trading purposes (including derivatives, except those designated and effective hedging instruments, those acquired or created for the purpose of sale or repurchase, and those that are part of a portfolio of designated financial instruments).
- Upon initial recognition, it is designated by the company as an instrument valued at fair value, with any changes recognised through the Income Statement.

Realised and unrealised profits or losses arising from changes in the fair value of financial assets valued at their fair value with changes in the income statement, are recognized in the income statement at the period in which they result.

# ii) Loans and receivables

They include non-derivative financial assets with fixed or predefined payments which are not traded in active markets. This category (loans and receivables) does not include:

- receivables from advances for the purchase of goods or services,
- receivables relating to tax transactions, which have been legislatively imposed by the state,
- any receivable not covered by a contract giving the company the right to receive cash or other financial fixed assets.

Loans and receivables are initially recognised at their fair value and then measured at net book cost based upon the real interest rate method.

# iii) Investments held to maturity

These include non derivative financial assets with fixed or defined payments and specific maturity and which the Group intends and has the ability to hold till maturity. Assets of this category are initially recognised at fair value and then measured at net book cost based upon the real interest rate method.

#### iv) Financial assets available for sale

These include non derivative financial assets either designated in this category or not included in any of the previous ones.

Financial assets available for sale are valued at fair value and the relevant profit or loss is recorded in an equity reserve until such assets are sold or characterized as impaired.

During the sale, or when they are characterized as impaired, the profit or loss is transferred to the income statement. Impairment losses that have been recorded to the income statement cannot be reversed through the income statement.

The fair values of financial assets traded in an active market, are defined by the current ask prices. For non-traded instruments, fair values are defined with the use of valuation techniques such as analysis of recent transactions, comparative items that are traded and discounted cash flows. Securities not traded in an active market that have been classified in the category "financial assets available for sale", whose fair value cannot be determined with credibility, are valued at their acquisition cost. At each balance sheet date the Group assesses whether there are objective indications that lead to the conclusion that financial assets have been impaired. For company shares classified as financial assets available for sale, such an indication is a significant or extended decline in the fair value compared to the acquisition cost. If impairment is established, the accumulated loss in equity, which is the difference between acquisition cost and fair value, is transferred to the results.

# C.7. Financial Instruments: Presentation (IAS 32)

The principles in this Standard complement the principles for recognising and measuring financial assets and financial liabilities in IAS 39 Financial Instruments: Recognition and Measurement.

This Standard is concerned with the classification of financial instruments into financial assets, financial liabilities and equity instruments, as well as the classification of related interest, dividends, losses and gains, and the circumstances in which financial assets and financial liabilities should be offset.

A *financial instrument* is any contract that simultaneously gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A financial asset is any asset that is:

- (a) cash
- (b) an equity instrument of another entity
- (c) a contractual right:
  - (i) to receive cash or another financial asset from another entity; or
  - (ii) to exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity; or
- (d) a contract that will or may be settled in the entity's own equity instruments and is:
  - (i) a non-derivative for which the entity is or may be obliged to receive a variable number of the entity's own equity instruments; or
  - (ii) a derivative that will or may be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the entity's own equity instruments. For this purpose the entity's own equity instruments do not include instruments that are themselves contracts for the future receipt or delivery of the entity's own equity instruments.

A financial liability is any liability that is:

- (a) a contractual obligation:
  - (i) to deliver cash or another financial asset to another entity; or
  - (ii) to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the entity; or
- (b) a contract that will or may be settled in the entity's own equity instruments and is:

- (i) a non-derivative for which the entity is or may be obliged to deliver a variable number of the entity's own equity instruments; or
- (ii) a derivative that will or may be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the entity's own equity instruments. For this purpose the entity's own equity instruments do not include instruments that are themselves contracts for the future receipt or delivery of the entity's own equity instruments.

An *equity instrument* is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

*Fair Value* is the amount for which an asset could be exchanged for or a liability be settled with between two parties acting on their own will and in full knowledge of market conditions, as part of a transaction carried out on a pure commercial basis.

# C.8. Financial Instruments: Disclosures (IFRS 7)

IFRS 7 refers to all risks arising from all financial instruments, except those instruments specifically excluded (e.g. interests in subsidiaries, associates and joint ventures, etc.). The objective of the disclosures is to provide an overview of the Group's use of financial instruments and its exposure to risks they create. The extent of the disclosure required depends on the extent of the Company's use of financial instruments and its exposure to risk. The Group and Company apply IFRS 7 from January 1st, 2007.

# C.9. Provisions (I.A.S. 37)

Provisions are recognized when the Group faces legal or substantiated liabilities resulting from past events, their settlement may result in an outflow of resources and the amount of the liability can be reliably estimated. Provisions are reviewed on Balance Sheet date and adjusted to reflect the present value of the expense estimated for settling the liability. Contingent liabilities are not recognized in the financial statements but nevertheless are disclosed in the accompanying notes, except when the probability of an outflow of resources is minimal. Contingent assets are not recognized in the financial statements, but are disclosed in the notes, provided an inflow of economic benefits is probable.

# C.10. Government Grants (I.A.S. 20)

The Group recognizes government grants (subsidies) only when there is reasonable assurance that:

- a) the enterprise will comply with any conditions attached to the grants,
- b) the grant is likely to be received.

Subsidies are entered in the company's books at their fair value and recognized on a consistent basis as revenue, in accordance with the principle of matching the receipts of subsidies with the related expenses.

Subsidies on assets are included in long-term liabilities as deferred income and recognized on a consistent basis as revenues over the expected useful life of the assets.

# C.11. The effects of changes in Foreign Exchange Rates (I.A.S. 21)

The financial statements of all Group companies are prepared using the currency of the economic area which the Group mainly operates in (operating currency). Consolidated financial reports are denominated in euros, the operating and presentation currency of the parent Company and its subcidiaries.

Transactions in foreign currency are converted in the operating currency according to the going foreign exchange rates on the date on which transactions take place.

Profit and losses from foreign exchange differences arising from settlement of transactions in foreign currency during the financial reporting period and the conversion of monetary items denominated in foreign currency according to the going exchange rates on balance sheet date are recognised in the

Income Statement. Foreign exchange adjustments for non-monetary items valued at fair value are considered part of the fair value and are therefore treated as differences in fair value.

# C.12. Equity Capital (I.A.S. 33)

Expenses incurred due to the issue of new shares appear below the deduction of related income tax, reducing the net proceeds from the issue. Expenses incurred due to the issue of new shares to finance the acquisition of another company are included in the target company's total acquisition cost.

# C.13. Dividends (I.A.S. 18)

Payments of dividends to parent company shareholders are recognized as a liability in the consolidated financial statements on the date on which the General Assembly of the Shareholders grants its approval on the distribution of the dividend.

# C.14. Income Taxes & Deferred Tax (I.A.S. 12)

Income tax expenses appearing in the Income Statement include both tax for the period and deferred tax, which correspond to tax charges or tax returns arising from benefits realized within the reporting period in question but booked by the tax authorities in earlier or later reporting periods. Income tax is recognized in the Income Statement for the reporting period, except for tax relating to transactions directly charged against shareholders' funds; in that case, income tax is similarly charged directly against shareholders' funds.

Current income tax includes short-term liabilities and/or receivables from the tax authorities related to payable tax on the taxable income of the reporting period, as well as any additional income tax from earlier reporting periods.

Current tax is calculated according to the tax rates and fiscal legislation applied on each reporting period involved, based on the taxable income for the year. All changes in short-term tax items listed on either side of the balance sheet are recognized as part of the tax expense in the Income Statement.

Deferred income tax is calculated by means of the liability arising from the temporary difference between book value and the tax base of asset and liabilities. No deferred income tax is entered when arising from the initial recognition of assets or liabilities in a transaction, excluding corporate mergers, which did not affect the reported or taxable profit / loss at that time.

Deferred tax income and liabilities are valued according to the tax rates expected to apply in the reporting period in which the receipt or payment will be settled, taking into account the tax rates (and fiscal laws) introduced or in effect until the reporting date. The tax rate in effect on the day following the reporting date is used whenever the timing of reversal of temporary differences cannot be accurately determined.

Deferred tax receivables are recognized to the extent in which taxable profits will arise in the future while making use of the temporary difference which gives rise to the deferred tax receivable.

Deferred income tax is recognized for the temporary differences arising from investments in subsidiaries and affiliates, excluding those cases where de-recognition of temporary differences is controlled by the Group and temporary differences are not expected to be derecognized in the foreseeable future.

Most changes in deferred tax receivables or liabilities are recognised as tax expenses in the Income Statement. Only changes in assets or liabilities affecting temporary differences (e.g. asset revaluations) which are recognized directly against the Group's shareholders' funds do result in changes in deferred tax receivables or liabilities being charged against the relevant revaluation reserve.

# C.15. Personnel Benefits (I.A.S. 19)

# Short-term benefits:

Short-term benefits to personnel (excluding termination benefits) in money and in kind are recognized as an expense when deemed payable. Portions of the benefit yet unpaid are classified as a liability, whereas if the amount already paid exceeds the benefit then the company recognizes the excess amount as an asset (prepaid expenses) only to the extent to which the prepayment will result in a reduction in future payments or to a fund return.

#### Retirement benefits:

Benefits at retirement from service include a defined contribution plan as well as a defined benefit plan.

# Defined Contribution Plan:

According to the plan, the company's legal liability is limited to the amount agreed for contribution to the institution (social security fund) managing employer contributions and handing out benefits (pensions, medical plans etc).

The accrued cost of defined contribution plans is classified as an expense in the corresponding financial reporting period.

#### Defined Benefit Plan:

The Company has legal liability for personnel benefits due to lay-offs ahead of retirement date or benefits upon retirement from service, in accordance with pertinent legislation.

The Projected Unit Credit Method is used to calculate the present value of defined benefit obligations, the related current cost of services and the cost of services rendered which is the accrued services method, according to which benefits are paid at the financial periods in which the retirement benefit liability is founded. Liabilities arise while employees provide services qualifying for retirement benefits.

The Projected Unit Credit Method therefore requires that benefits are paid in both the current reporting period (to calculate the current cost of services) and in the current and past reporting periods (to calculate the present value of defined benefit obligations).

Despite the fact that remaining in service with the Company is a prerequisite for receiving benefits (ie benefits cannot be taken for granted by employees), liabilities are calculated using actuarial methods as follows:

Demographic Assumptions: Personnel Turnover (Staff Resignations / Staff Lay-offs), and

Financial Assumptions: discount rate, future salary levels (calculated using government bond yield of equal maturities) and estimated future changes in state benefits affecting payable benefits.

# C.16. Revenue Recognition (I.A.S. 18)

Revenues include the fair value of works, sales of goods and services, net of VAT, discounts and returns. IntraGroup revenues are completely eliminated. Recognition of revenues is done as follows:

#### Construction Contracts:

Revenues from projects towards signed contracts are entered in the reporting period in which the works were carried out, based on their stage of completion

# Sale of Goods:

Sale of goods are recognized when the Group makes actual delivery of the goods to their buyers who in turn formally accept them, rendering their price secure for receipt.

# Provision of services:

Revenues from provision of services are entered in the reporting period in which the services were rendered, according to the stage of completion of the services.

# C.17. Leases (I.A.S. 17)

Financial leases are all leases on fixed assets which transfer onto the Group all risks and benefits in relation to those assets' ownership, irrespective of the eventual transfer of ownership of the assets. These leases are capitalized at the start of the lease using the lowest price between the fair value of the fixed asset and the present value of the minimum lease. All leases comprise a liability and a financial expense, securing a fixed interest rate for the balance of the financial liability. Liabilities arising from leases, net of financial expenses, are entered as liabilities in the balance sheet. The portion of financial expenses arising from financial leases is recognized in the Income Statement throughout the term of the lease. Fixed assets acquired via financial leases are depreciated over the lowest term between their useful life and their lease term.

Lease agreements in which the lessee transfers the right of usage of an asset for a fixed time period but not the risks and rewards of the asset's ownership, are classified as operating leases. Payments for operating leases (net of any discounts offered by the lessor) are recognized in the Income Statement proportionately over the term of the lease.

Fixed assets leased as lessor through operating leases are included as tangible assets in the balance sheet and depreciated over their expected useful lives using the same procedure as other fully-owned tangibles. Proceeds from leases (net of any discounts offered to the lessee) are recognized on a straight-line basis over the lease term. The Group does not lease fixed assets using the financial lease method.

# C.18. Construction Contracts (I.A.S. 11)

Construction contracts refer to the construction of assets or a group of related assets on behalf of clients according to terms laid out in relevant contract agreements, their construction usually spanning more than one reporting period.

Expenses arising from the contract are recognized at the time they are incurred.

If the profitability of a construction contract cannot be reliably estimated, and especially when the project is at an early stage of completion, revenues are recognized to the extent that construction costs may be recovered, and construction costs must be recognized in the income statement of the reporting period in which they came about. Therefore, the level of revenues recognized from those construction contracts must be set accordingly to yield zero profitability for the project.

If the profitability of a construction contract may be reliably estimated, revenues and expenses arising from that contract are recognized during the term of the contract as revenue and expense, respectively. The Group uses the percentage of completion method to set the revenue and expense to be recognized over each reporting period. The stage of completion is calculated on the basis of the construction cost realized until reporting date in relation to the total estimated cost of each project.

If total costs from a construction contract are likely to exceed the relevant total revenues, the expected loss is recognised immediately in the income statement as an expense item.

In calculating the cost realised during a reporting period, expenses linked to future works arising from a construction contract are excluded and entered in the accounts as work-in-progress. Total realised costs and profit / loss recognised on each contract are compared to the invoiced works till the end of the reporting period.

If realised expenses, plus net realised profit and less any realised losses, exceed the invoiced works then the difference is entered as a receivable from clients (Construction Contracts). If invoiced works exceed realised expenses, plus net realised profits and less realised losses, the balance is entered as a liability to contract clients.

#### Contract Grouping:

The initial contract for a project, along with any additional works and extensions to the contract, are treated as a single project because new contracts for additions and extensions pertain to works on the same project and their value is related to the value of the initial contract.

A group of projects is treated as a single project if their negotiation is done jointly or the relevant contracts are linked with each other and constitute parts of a broader project with a total profit margin, or each contract is carried out simultaneously or in a certain order.

Project Revenues: Revenues from projects include the following:

- Initial contract value, plus any revisions of the initial contract, extensions and additions
- Claims
- Incentive payments, e.g. for early delivery

Claims and incentive payments are taken into account to the extent that they may be realised with a strong likelihood and be accurately defined and calculated.

Project Cost: The cost of projects includes the following:

- Costs directly related to a project
- Costs attributed to a particular project and can be allocated to the same project
- Other costs billed to a specific client, according to the terms of the contract

The second case includes all general construction expenses. Those expenses are regularly allocated using reasonable and consistent methodologies and allocation practices, across all similar expense items.

Indirect cost of projects include costs such as clerical work on staff payroll, and bank expenses related to the projects.

Expenses not allocated or classified to a specific project include sale expenses, R&D expenses, general administrative expenses and depreciation of idle equipment, which are not employed in that project.

# C.19. Debt and receivables (I.A.S. 23)

Debt and receivables include non-derivative financial assets with fixed or otherwise predefined payments, which are not traded on active markets. They exclude

- a) receivables from prepayments on goods or services,
- b) receivables related to legislation-induced transactions in taxes,
- c) any other items not provided for by contracts offering the Company the right to receive payment of cash or other financial assets.

Debt and receivables are included in current assets, with the exception of those expiring over 12 months after reporting date which are entered as non-current assets.

On every Balance Sheet date, the Group evaluates the existence of objective indications of impairment of its financial assets.

Dent and receivables are recognized at their non-depreciated cost using the real interest rate method. Losses are directly and fully charged against the reporting period's income statement.

Each receivable item of substantial value is evaluated individually for impairment, whereas lower-valued items may be jointly evaluated. When jointly evaluated, lower-valued receivables should be grouped according to their credit risk rating (i.e. the items should be classified according to their risk profile).

Should the value impairment loss be eliminated according to some objective indications in subsequent reporting periods, it should be derecognized and immediately charged in the income statement. The value of derecognition should not result in a non-depreciated cost which is in excess of the value of the receivable at the date of derecognition, provided there was no impairment loss.

# C.20. Borrowing Cost (I.A.S. 23)

Borrowing cost refers to interest charged on debt, as well as other expenses incurred by the company in securing that debt.

Included in borrowing costs are:

- Interest expenses on short-term and long-term bank loans, as well as overdraft interest charges
- Amortisation of par discount arising from bond loan issues
- Amortisation of additional expenses incurred in securing a loan
- Financial expenses from financial leases, as defined in I.A.S. 17
- Foreign exchange adjustments, to the extent that they constitute a financial expense

Borrowing costs that can be allocated directly in acquisition, construction or production of an asset which fulfils the requirements should be capitalized.

# C.21. Operating Segments (I.F.R.S. 8)

The Group recognises the sectors of constructions, concessions and other activities as its primary business operating segments. It also recognizes Greece and international markets as its secondary operating geographic segments. Those operating segments are used by Management for internal purposes and strategic decisions are taken on the basis of the adjusted operating results of each segment, which are used to measure their performance.

# C.22. Related Party Disclosures (I.A.S. 24)

Related party disclosures are governed by I.A.S. 24 and refer to transactions between a company reporting its financial statements and other related parties. The main issue is the economic substance of transactions, as opposed to their legal form.

A company is considered a related party to a reporting company if:

- a) It is directly or indirectly via intermediaries in control, or controlled by or under joint control of the reporting company
- b) It controls an equity stake in the reporting company which grants substantial control, or joint control of the reporting company
- c) It is an associate, as defined in IAS 28
- d) It is a joint venture, as defined in IAS 31
- e) It is a key member of the top management team (Board of Directors) of the reporting company or its parent firm
- f) It is closely related family-wise to any person matching the first and fourth case noted above
- g) It is a company controlled (or under joint control or under substantial influence) by a person matching the fourth and fifth case noted above
- h) It is has an employee defined benefit plan in place, where those eligible for receiving the benefits are either the reporting company or the employees of the reporting company

Related party transaction is any transfer of resources, services or liabilities between related parties, irrespective of the payment of a price in return.

# C.23. Significant accounting estimates and judgments

The preparation of the financial statements requires management to make estimations and judgments that affect the reported disclosures. On an ongoing basis, management evaluates its estimates, the most important of which are presented below. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. These management's estimation and assumptions form the bases for making judgments about the carrying value of assets and liabilities that are not readily available from other sources. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

# C.23.1 Impairment of goodwill and other non-financial assets

Management tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in paragraph C.4.i. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. The basic assumptions that are used in the calculations are explained further in note 12. These calculations require the use of estimates which mainly relate to future earnings and discount rates. Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable, in accordance with the accounting policy stated in paragraph C.6.

#### C.23.2 Income taxes

Group entities are subject to income taxes in numerous jurisdictions. Significant judgment is required in determining the worldwide provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

#### C.23.3 Deferred tax assets

Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Further details on taxes are disclosed in note 19.

# C.23.4 Asset lives and residual values

Property, plant and equipment (PPE) are depreciated over their estimated useful lives. The actual lives of the assets are assessed annually and may vary depending on a number of factors.

# C.23.5 Allowance for net realizable value of inventory

The allowance for net realizable value of inventory, in accordance with the accounting policy as stated in paragraph C.5, represents management's best estimate, based on historic sales trends and its assessment on quality and volume, of the extent to which the stock on hand at the reporting date will be sold below cost.

# C.23.6 Allowance for doubtful accounts receivable

The Group's management periodically reassess the adequately of the allowance for doubtful accounts receivable using parameters such as its credit policy, reports from its legal counsel on recent developments of the cases they are handling, and its judgment/estimate about the impact of other factors affecting the recoverability of the receivables.

# C.23.7 Provision for staff leaving indemnities

The cost for the staff leaving indemnities is determined based on actuarial valuations. The actuarial valuation requires management making assumptions about future salary increases, discount rates, mortality rates, etc. Management, at each reporting date when the provision is re-examined, tries to give its best estimate regarding the above mentioned parameters.

# C.23.8 Contingent liabilities

The existence of contingent liabilities requires from management making assumptions and estimates continuously related to the possibility that future events may or may not occur as well as the effects that those events may have on the activities of the Group.

# C.23.9 Construction Contracts (IAS 11)

Whenever the financial result of a contract may be estimated with reliability, the income and expenses of the contract are recognized during the life of the contract respectively as income and expenses. Income is only recognized to the extent that the cost arising from the contract may be recovered, while that cost is recognized as an expense in the period in which it arose.

# C.23.10 Joint Arrangements (IFRS 11)

The factors examined by the Group to assess whether a company is a joint arrangement, include the structure, the legal form, the contractual agreement and other facts and conditions.

#### C.23.11 Fair Value measurement

A number of assets and liabilities included in the Group's financial statements require measurement at, and / or disclosure of, fair value. The Group measures a number of items at fair value (see Note 40):

- \* Tangible Fixed Assets & Property for Investment
- \* Financial Assets available for Sale
- \* Long-Term and Short-Term Loans
- \* Derivative Financial Instruments

# D. New Standards and Interpretations issued but not yet effective and not early adopted by the Group and the Company

These financial statements include the financial accounts of the Company and the consolidated accounts of the Group, and are prepared according to the International Financial Reporting Standards (IFRS), as adopted by the European Union.

The financial statements were prepared using the same accounting policies as those used in preparing the accounts of the previous year, except for the adoption of new standards and interpretations which were made compulsory for accounting periods after January 01, 2013.

# IAS 16 Property, Plant & Equipment and IAS 38 Intangible assets (Amendment): Clarification of Acceptable Methods of Depreciation and Amortization

The amendment is effective for annual periods beginning on or after 1 January 2016. The amendment provides additional guidance on how the depreciation or amortization of property, plant and equipment and intangible assets should be calculated. This amendment clarifies the principle in IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset. As a result, the ratio of revenue generated to total revenue expected to be generated cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortize intangible assets. The amendment has not yet been endorsed by the EU. This amendment will not have an impact in the financial position or performance of the Group.

#### IAS 19 Defined Benefit Plans (Amended): Employee Contributions

The amendment is effective for annual periods beginning on or after 1 February 2015. The amendment applies to contributions from employees or third parties to defined benefit plans. The objective of the amendment is to simplify the accounting for contributions that are independent of the number of years of employee service, for example, employee contributions that are calculated according to a fixed percentage of salary. The Group is in the process of assessing the impact of the interpretation on the financial position or performance of the Group.

# **IFRS 9 Financial Instruments: Classification and Measurement**

The standard is applied for annual periods beginning on or after 1 January 2018 with early adoption permitted. The final phase of IFRS 9 reflects all phases of the financial instruments project and replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. The standard has not yet been endorsed by the EU. The Group is in the process of assessing the impact of the interpretation on the financial position or performance of the Group.

# IFRS 11 Joint arrangements (Amendment): Accounting for Acquisitions of Interests in Joint Operations

The amendment is effective for annual periods beginning on or after 1 January 2016. IFRS 11 addresses the accounting for interests in joint ventures and joint operations. The amendment adds new guidance on how to account for the acquisition of an interest in a joint operation that constitutes a business in accordance with IFRS and specifies the appropriate accounting treatment for such acquisitions. The amendment has not yet been endorsed by the EU. The Group is in the process of assessing the impact of the interpretation on the financial position or performance of the Group.

# **IFRS 15 Revenue from Contracts with Customers**

The standard is effective for annual periods beginning on or after 1 January 2017. IFRS 15 establishes a five-step model that will apply to revenue earned from a contract with a customer (with limited exceptions), regardless of the type of revenue transaction or the industry. The standard's requirements will also apply to the recognition and measurement of gains and losses on the sale of some non-financial assets that are not an output of the entity's ordinary activities (e.g., sales of property, plant and equipment or intangibles). Extensive disclosures will be required, including disaggregation of total revenue; information about performance obligations; changes in contract asset and liability account balances between periods and key judgments and estimates. The standard has not been yet endorsed by the European Union. The Group is in the process of assessing the impact of the interpretation on the financial position or performance of the Group.

#### **IFRS 16 Leases**

The amendment is effective for annual periods beginning on or after 1 January 2019. IFRS 16 has been issued in January 2016 and supersedes IAS 17. The objective of the standard is to ensure the lessees and lessors provide relevant information in a manner that faithfully represents those transactions. IFRS16 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently. The amendment has not yet been endorsed by the EU. The Group is in the process of assessing the impact of the interpretation on the financial position or performance of the Group.

# IAS 27 Separate Financial Statements (amended)

The amendment is effective from 1 January 2016. This amendment will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements and will help some jurisdictions move to IFRS for separate financial statements, reducing compliance costs without reducing the information available to investors. This amendment has not yet been endorsed by the EU. The Group is in the process of assessing the impact of the interpretation on the financial position or performance of the Group.

# Amendment in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments address an acknowledged inconsistency between the requirements in IFRS 10 and those in IAS 28, in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognized when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary. The amendments will be effective from annual periods commencing on or after 1 January 2016. The amendments have not yet been endorsed by the EU. The Group is in the process of assessing the impact of the interpretation on the financial position or performance of the Group.

# IAS 1: Disclosure Initiative (Amendment)

The amendments to IAS 1 Presentation of Financial Statements further encourage companies to apply professional judgment in determining what information to disclose and how to structure it in their financial statements. The amendments are effective for annual periods beginning on or after 1 January 2016. The narrow-focus amendments to IAS clarify, rather than significantly change, existing IAS 1 requirements. The amendments relate to materiality, order of the notes, subtotals and disaggregation, accounting policies and presentation of items of other comprehensive income (OCI) arising from equity accounted Investments. These amendments have not yet been endorsed by the EU. The Group is in the process of assessing the impact of the amendment on the financial position or performance of the Group.

The IASB has issued the Annual Improvements to IFRSs 2012 Cycle, which is a collection of amendments to IFRSs. The amendments are effective for annual periods beginning on or after 1 February 2015. The Group is in the process of assessing the impact of the improvements on the financial position or performance of the Group.

- *IFRS 2 Share-based Payment:* This improvement amends the definitions of 'vesting condition' and 'market condition' and adds definitions for 'performance condition' and 'service condition' (which were previously part of the definition of 'vesting condition').
- *IFRS 3 Business combinations:* This improvement clarifies that contingent consideration in a business acquisition that is not classified as equity is subsequently measured at fair value through profit or loss whether or not it falls within the scope of IFRS 9 Financial Instruments.
- *IFRS 8 Operating Segments:* This improvement requires an entity to disclose the judgments made by management in applying the aggregation criteria to operating segments and clarifies that an entity shall only provide reconciliations of the total of the reportable segments' assets to the entity's assets if the segment assets are reported regularly.

- *IFRS 13 Fair Value Measurement:* This improvement in the Basis of Conclusion of IFRS 13 clarifies that issuing IFRS 13 and amending IFRS 9 and IAS 39 did not remove the ability to measure short-term receivables and payables with no stated interest rate at their invoice amounts without discounting if the effect of not discounting is immaterial.
- *IAS 16 Property Plant & Equipment:* The amendment clarifies that when an item of property, plant and equipment is revalued, the gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount.
- *IAS 24 Related Party Disclosures:* The amendment clarifies that an entity providing key management personnel services to the reporting entity or to the parent of the reporting entity is a related party of the reporting entity.
- *IAS 38 Intangible Assets:* The amendment clarifies that when an intangible asset is revalued the gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount.

The IASB has issued the Annual Improvements to IFRSs 2013 Cycle, which is a collection of amendments to IFRSs. The amendments are effective for annual periods beginning on or after 1 July 2015. The Group is in the process of assessing the impact of the improvements on the financial position or performance of the Group.

- *IFRS 3 Business Combinations:* This improvement clarifies that IFRS 3 excludes from its scope the accounting for the formation of a joint arrangement in the financial statements of the joint arrangement itself.
- *IFRS 13 Fair Value Measurement:* This improvement clarifies that the scope of the portfolio exception defined in paragraph 52 of IFRS 13 includes all contracts accounted for within the scope of IAS 39 Financial Instruments: Recognition and Measurement or IFRS 9 Financial Instruments, regardless of whether they meet the definition of financial assets or financial liabilities as defined in IAS 32 Financial Instruments: Presentation.
- *IAS 40 Investment Properties:* This improvement clarifies that determining whether a specific transaction meets the definition of both a business combination as defined in IFRS 3 Business Combinations and investment property as defined in IAS 40 Investment Property requires the separate application of both standards independently of each other.

The IASB has issued the Annual Improvements to IFRSs 2014 Cycle, which is a collection of amendments to IFRSs. The amendments are effective for annual periods beginning on or after 1 January 2016. These annual improvements have not yet been endorsed by the EU. The Group is in the process of assessing the impact of the improvements on the financial position or performance of the Group.

- *IFRS 5 Non-current Assets Held for Sale and Discontinued Operations:* The amendment clarifies that changing from one of the disposal methods to the other (through sale or through distribution to the owners) should not be considered to be a new plan of disposal; rather it is a continuation of the original plan. There is therefore no interruption of the application of the requirements in IFRS 5. The amendment also clarifies that changing the disposal method does not change the date of classification.
- *IFRS 7 Financial Instruments*: *Disclosures*: The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. Also, the amendment clarifies that the IFRS 7 disclosures relating to the offsetting of financial assets and financial liabilities are not required in the condensed interim financial report.
- *IAS 34 Interim Financial Reporting:* The amendment clarifies that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the greater interim financial report (e.g., in the management commentary or risk report). The Board specified that the other information within the interim financial report must be available to users on the same terms as the interim financial statements and at the same time. If users do not have access to the other information in this manner, then the interim financial report is incomplete.

- IAS 19 Employee benefits: The amendment clarifies that, when determining the discount rate for post-employment benefit obligations, it is the currency that the liabilities are denominated in that is important, and not the country where they arise.

Under the historical cost method of valuation investment property for the group for fiscal year 2015 would ammount to  $\in$  11.779 thousand and  $\in$  14.009 thousand for fiscal year 2014 respectivelly.

Under the historical cost method of valuation investment property for the company for fiscal year 2015 would ammount to  $\in$  725 thousand and  $\in$  741 thousand for fiscal year 2014 respectivelly.

# 11a. Net profit or loss from fair value adjustments for investment properties

1) With reporting date of 31/12/15, in the context of the annual regular check of the fair value of investment properties, the management hired independent Chartered Surveyors to appraise the majority of the reported real estate of the Group companies. These properties have been valued to the amount of 17,707,895 euro (93% of the total amount of investment properties). For the rest of the properties the valuation has been carried out by the management and concluded to the amount of 1.271.737 euro (7% of the total amount of investment properties). The Group has recorded the net impairment effect to the relevant accounts. The table below reflects the new changes for 2015 according to IAS 40.

A/N	Real Estate	Revaluation based on Fair Values in 31/12/2015 (€)	Revaluation based on Fair Values in 31/12/2014 (€)	Change (€) during 1/1- 31/12/15	Period additions/ (disposals)	Recognition to Income Statement

At a company level, the change in Additions - Increase of investments of the Available-for-Sale Financial Assets mainly regards the increase in the participation of Aegean Motorway, and Olympia Odos.

Motorway, and Olympia Odos.

At a group level, the change in Additions - Increase of investments of the Available-for-Sale Financial Assets, mainly regards the increase in the participation of Olympia Odos.

At a group and company level, sales mainly include the sale of the participation in the concession company involved in the construction of Queen Alia, Jordan's national airport.

The company transfered its 9,5% participation in "Airport International Group", the concessionaire company of the Queen Alia international airport of Jordan, to associated company Joannou & Paraskevaides (Overseas) Limited.

Pending the final legal approval for the transfer of ownership by the project owner, the transaction is recorded as sale of "Available for sale Financial Asset", as all the rights and obligations arising from the shares were transferred to the buyer.

The transaction produced an approximate € 4,6 million profit as the difference between the price of the transaction and the value of the participation recorded in company's books. This profit is included in 2015 financial results as "Profit/loss from associates". At the same time the balance of the account "Available for sale Financial Asset" has been reduced according to the book value of the asset, while the amount received was recorded as income in the "Financial transactions with associates" account.

The valuation of concession companies has been conducted internally by J&P AVAX. Valuations were based on data from financial models, approved by the concession companies and the financing banks. The dicount rate in 2015 varies from 7% to 10%, considering the completion stage and the maturity degree of each concession project, and considering the total risk estimated in Greece and abroad.

# 16b. Fair Value Sensitivity Analysis - Discount Rate

The Fair Value change of the participations which are classified as Available-for-Sale Financial Assets, by changing  $\pm 1\%$  the discount factor, at a Group and at a Company level, is shown below:

	Group	Company	
	31.12.2015	31.12.2015	
Change by +1%	(13.562.918)	(38.415.880)	
Change by -1%	15.837.919	44.550.037	

#### 16c. Net Investment in Concession Companies subscribed in the form of Last Priority Financial Assets (Subordinated Debt)

The group participates in some Concession Companies, in two ways: i) participation in the form of Share Capital, and ii) participation in the form of Financial Assets of Last Priority (Subordinated Debt), which are issued by the Concession Companies.

The FA's LP are classified and accounted for according to IAS 39, as Available-for-Sale Financial Assets (Net investment to Concession Companies). The FA's LP along with the participation in the Share Capital of the Concession Company, are measured to Fair Value (method of Present Value). The difference between the cost and fair value is recognized directly to Other Comprehensive Income (namely, to Equity).

The main characteristics of the above Last Priority FA's are the following:

- a) The participation in the form of FA's LP is issued contractually with specific and fixed analogy to the Share Capital (pro rata),
- b) The subscription of FA's LP is maintained steadily throughout the lifetime of the concession proportionally to the participation in the Share Capital,
- c) The transfer of the FA's LP contractually is carrying out along with the corresponding transfer of an equal percentage of Share Capital,
- d) The FA's LP do not contractually have a fixed terminated date, and the Group cannot demand for their future repayment,
- e) The FA's are of Last Priority; they have last priority against all other claims of the Assets of the Concession Company in case of liquidation (subordinated debt last in line). They are treated as equity equivalent to the Share Capital, bearing the same risk,
- f) The capital structure of the Concession Companies Equity, contractually does not distinguish the subscription in the form of Share Capital with the subscription in the form of the FA's LP (equity equivalent).

The following table provides analytically the financial data of the Concessions Companies, whereas the Company participates both to Share Capital and to Last Priorities FA's.

(amounts in euros)	Participation Type	Cost 31/12/2015	Fair Value 31/12/2015	Revaluation Surplus Credited to Fair Values Revalution Reserve

Receivables under item "Guaranteeed receipt from grantor (IFRIC 12)" amounting to €18,429,812 on 31.12.2015 dervives from "JPA CONSTRUCTION & MANAGEMENT OF ATTICA SCHOOLS SA", a 100% subsidiary of the Company which signed with Greek Building Infrastructure SA (formerly School Building Organisation SA) on 09.05.2014 a contract worth a total of €35.6 million for the construction of 10 school facilities in the Attica region under a Public-Private Partnership scheme. Besides the construction of the school facilities, JPA CONSTRUCTION & MANAGEMENT OF ATTICA SCHOOLS SA has agreed the subsequent maintenance and technical management of the facilities for a 25-year period, against an annual availability payment from the Greek state. The project is financed by own equity amounting to €10 million as well as long-term debt raised from the European Investment Bank and the EU's JESSICA fund, totalling €33.4 million.

Contracts expenses recognized in the				
repording period	459.361.528	432.729.791	351.091.003	300.837.656
plus: Recognized profit for the reporting period	1.248.942	49.938.926	13.614.000	74.649.865
Revenues from Construction contracts recognized during the reporting period	460.610.469	482.668.717	364.705.003	375.487.521
Total advances received	120.884.825	156.363.677	100.994.772	131.411.964

Revenues and expenses relating to each construction contract are recognised in the income statement, depending on the percentage of completion on reporting date. Expenses which have incurred but the relative construction work has not yet been invoiced to clients are recognised in the income statement, along with the proportional profit or loss provided for in the contract. According to GR GAAP, these expenses were recognised as work in progress, and their relative profit or loss was instead recognised in the reporting period in which the works were invoiced rather than carried out. Moreover, for any project with an estimated loss, that loss is recognised immediatelly in the income statement.

The Group uses the **Percentage of Completion Method**, whereby the percentage of completion is calculated using the following ratio: Realised Cost / Total Estimated Contract Cost

The Group uses an integrated Management Information System which produces the following information to draw consistent and reliable estimates of the percentage of completion of contracts:

- 1) Total Revised Contract Revenue
- 2) Contract Cost to complete the contract

According to the Budgetary Control System applied by the Group, revisions and re-evaluations are carried out on a semi-annual basis.

Bad debt write-offs for the Group amounts to € 3.263.023 for 2015. Therefore total write-offs amount to € 11.746.175

#### 22b. Other Debtors

a) An amount of  $\in$  16,470 thousand pertains to receivables from the shareholders of the merged company TECHNIKI ENOSIS SA imposed following the decision 21/2005 of the Arbitration Court on June 10, 2005. Following the above decision, the shareholders of the merged company TECHNIKI ENOSIS SA made an appeal to the Athens Court of Appeals on 30.8.2005 claiming the cancelation of the above decision, the case being discussed on 19.1.2006. As a result, decision 2471/2006 was issued, dismissing the claim for cancelation submitted by the shareholders of the merged company TECHNIKI ENOSIS SA, rendering # 21/2005 arbitration decision final.

The defendants filed an appeal, which was discussed on 15/10/2007 in Section A1 of the Supreme Court with Ordinal #31 and the decision issued was dismissed, following the 1334/2008 decision of the Supreme Court. Also following # 985/2007 decision of the Athens Court of Appeals, the second appeal dated 15.2.2006 of the shareholders of the merged company TECHNIKI ENOSIS SA following the same arbitration, was rejected because it was not filed during the three-year time slot. The defendants exercised a third appeal against the decision to the Supreme Court, which was rejected by decision # 6879/2010 of the Athens Court of Appeals. An appeal against that decision was filed and rejected by decision # 1759/2013 of the Supreme Court. To secure the receivables in question, the Company has proceeded to arresting all movable and immovable property of the shareholders for the amount up to  $\epsilon 21.900$  thousand.

The Company has initiated the process of execution against the assets of all the defendants. With its #5752/2010 decision on suspension of the arbitration decision under Article 938 of the Code of Criminal Procedure, the execution of the arbitration decision was suspended until a decision on the regular cessation, challenging the validity of the executive procedure, was tried in March 2013. This decision is flawed because it was accepted that the Company abused the right of execution, which had been raised many times by the defendants and was dismissed. The Company requested on 30.03.2011 that the Lower Court of Athens recalls this decision, paving the way for the execution of the arbitration decision, but its petition was dismissed, thereby the entire case was rested on the regular trial of March 2013. The trial was held and the First Instance Court of Athens also rejected this petition by the Protopapas family members, effectively removing the validity of the #5752/2010 decision and opening the way for execution of the arbitration decision. ATHENA SA filed an application to the Lower Court of Athens, which was discussed on 02.12.2015, to force the auction of the impounded shares of the former shareholders of TECHNIKI ENOSIS SA to satisfy part of its claims. The residence of those shareholders in Kefalari, a suburb of Athens, has been foreclosed, with the court having assessed it at €5.0 million.

Decision #7/2016 of the Lower Court of Athens permitted the public auction of the shares and appointed a public notary to perform the auction at the Athens Stock Exchange. The procedure will go ahead as soon as the ongoing strike of lawyers, public notaries and court staff is over.

b) An amount of € 4,376 thousand pertains to a claim from the shareholders of the merged company METTEM SA under the guarantee responsibility. To ensure the above receivables, an order has been issued to confiscate all movable and immovable property amounting to € 8,000 thousand following decision #7945/10-10-2003 of the First Instance Court of Athens. On 27.02.2008, the claim for losses was discussed at the First Instance Court of Athens against the afore-mentioned shareholders, with decision # 4335/2008 being issued and accepting the Company's claim. The defendants appealed against the decision, which is pending to be discussed at the Athens Court of Appeals. In the event of a positive outcome of this legal proceeding, the intention and objective of the Company's management is to immediately initiate the process of forced execution of the arbitrary decision on all assets of the defendants, be it confiscated or not (mobile and fixed property, shares, assets held by third parties).

It is the Management's view that the amounts recognised as claims in the afore-mentioned legal cases are fully recoverable. The time frame of their collection cannot be estimated, nevertheless the claims are booked in the financial accounts impaired according to IAS. Additional impairment amounting to €2.4 million was booked in the current fiscal year, burdening the income statement.

### 23. Available for sale financial assets - short term

'A...\

As part of a portfolio investment in an earlier fiscal year, the Company at the beginning of 2015, owned 10,020,902 common registered shares and 9,961,460 convertible bonds of Bank of Attica. On 27.11.2015, the bank proceeded to a compulsory conversion of its bonds into common shares at a 1-for-1 ratio, altering the Company holding into 19,982,362 Bank of Attica shares. On 01.12.2015, the bank carried out a reverse split of its shares, which lowered the Company portfolio to 1,015,363 shares. The bank then carried out a share capital increase in December 2015, in which the Company participated with the purchase of 40,000,001 new shares, boosting its shareholding in Bank of Attica to 41,015,364 shares at the close of fiscal 2015. According to the closing price of Bank of Attica shares on the Athens Stock Exchange on 31.12.2015, those Bank of Attica securities were valued at €11,443,286.56, registering an unrealised loss of €1,475,902.40 versus the 31.12.2014 valuation, which was booked in the 2015 financial results.

J&P-AVAX Group as a member of the "Limassol Marina" consortium, holds shares of Bank of Cyprus since 2013. For the companies of the Group which participates in this consortium (J&P-AVAX SA 15% and ATHENA SA 40%) the proportionate portfolio of the Group according to the closing price of Nicosia stock on 31/12/2015 was estimated in  $\in$  658.879,96 versus  $\in$  966.060,49 on 31/12/2014.

For fiscal years 2011, 2012 and 2013, the Company and its subsidiaries subject to tax auditing from an auditor in accordance with article 82 of Law 2238/1994, and have received a "Tax Compliance Report" with an unqualified opinion. According to the relecant tax law, tax auditing of the aforementioned fiscal years will be deemed finalized 18 months following the submission of the Tax Compliance Certificate to the Finance Ministry.

For the fiscal year 2014, the Company and its subsidiaries that are tax audited in Greece, have been subjected to tax auditing from an auditor in accordance with paragraph 1 of article 65A of Law 4174/2013, as amended by Law 4262/2014. The Company has received a "Tax Compliance Report" with an unqualified opinion.

For the fiscal year 2015, the Company and its subsidiaries that are tax audited in Greece, have been subjected to tax auditing from an auditor in accordance with paragraph 1 of article 65A of Law 4174/2013, as amended by Law 4262/2014. The tax audit on fiscal year 2015 is in progress and the relevant tax certificate will be issued following the publication of the financial accounts for 2015. We estimate that any additional tax liabilities which may arise until the completion of the tax audit, will not materially effect the financial accounts.

### 35. Cash flow hedging reserve

	GROUP		
	31.12.2015	31.12.2014	
Cash flow hedging reserve	5.162.095	(4.960.369)	
	5.162.095	(4.960.369)	

The Cashflow hedging reserves are about the following:

	Proportion of the group	Proportion of the group
Aegean Motorway S.A.	(5.088.746)	(4.887.019)
Other	(73.350)	(73.350)
	(5.162.096)	(4.960.369)

The companies have entered interest rate swap deals. The effective portion of the cash flow hedging process was recorded directly into their Equity through their Table of Changes in Equity (as per IAS). The ineffective portion of the profit/loss was recorded in their income statement. Therefore, the Group consolidates its proportion directly into its Equity, in accordance with IAS 28.

	828.126.017	712.792.423

# 38. Encumbrances - Concessions of Receivables

At end-2014, the Company signed a deal for the refinancing of its debt, converting the largest part of its loans into long-term bond form. More specifically, the Group:

- refinanced an outstanding syndicated bond loan, worth €238 million,
- issued a new syndicated bond loan, worth €187 million

The following guarantees were provided towards the new bond loans:

- ❖ mortgage on Group property with a book value of €24 million, of which €4 million are accounted for by J&P AVAX and the balance by its subsidiaries
- ❖ pledge of shares of ATTIKI ODOS & ATTIKA DIODIA. Concession dividends were pledged within 2015 to pay off installments of the loans, which were also taken out to finance those participations
- Cession of the Group's receivables arising from the concession projects, mainly relating to retentions on performance bonds issued for those projects
- \* Cession of Group law-disputed claims, in the event of successful outcome of litigation for the Company
- ❖ encumbrances valued at €14 million on the property of subsidiaries of the Group were outstanding to secure bank loans

#### 39. Transactions with related parties

The Group is controlled by J&P-AVAX. Members of the Board of Directors and related legal entities collectively own 76,0% of the Company's common shares , while the balance of 24,0% is controlled by the broad investment public. Transactions with related parties are booked by the Company and its subsidiaries throughout the year. Sales to and purchases from related parties are carried out at going market prices.

Year-end account balances are not covered with guarantees and their settlement is done on cash terms. The Group did not book any provisions for doubtful receivables from related parties during 2015 and 2014, because payments on those transactions have proceeded smoothly so far. Intra-Group transactions are netted off at consolidation of their financial accounts.

Management decided that cash and short-term deposits, clients, suppliers and other short-term liabilities approximate their carrying value, mainly due to their short-term expiration

# **Fair Value Hierarchy**

The Group and the Company use the following hierarchy to define and disclose the fair value of receivables and payables per valuation method:

### Level 1: based on negotiable (non-adjusted) prices in active markets for similar assets or liabilities

Level 2: based on valuation techniques for which all data with substantial effect on the fair value are visible, either directly or indirectly, while also including valuation techniques with negotiable prices at less active markets for similar or equivalent assets or liabilities

### Level 3: based on valuation techniques utilising data with substantial effect on fair value, as opposed to apparent market data

The fair value of financial assets and liabilities is the value at which an asset or liability could be traded in a current transaction between consenting parties, differing from the price of a forced liquidation or sale. The following methods and assumptions were used to calculate the fair values:

For 2015, property for investment and for own use (property / buildings) are valued at fair value, by independent auditors. For 2014, and property for investment and for own use (property / buildings) were valued in their majority by the Management.

Financial assets available for sale (long-term and other long-term financial assets) of Level 3 mostly concern investments in concession companies. Valuation of the most important concession companies was carried out by independent auditors, while other concession companies were valued by J&P-AVAX. The vauations were based on data from financial models approved by the concession companies and financing banks. The discount rate for 2015 ranges between 7% and 10%, proportionately to the stage of completion and the maturity rate of each concession project, and proportionately to the total risk calculated in Greece and abroad.

Valuation of financial assets available for sale through the income statement is conducted at current prices because those assets are listed and traded on organised markets in Greece and abroad.

Long-term and short-term debt of Level 2 is valued by the Group and the Company according to parameters such as interest rates, special country risk factors or current prices on balance sheet closing date.

Derivative financial assets of Level 2 comprise interest rate swaps agreements. The Group and the Company utilise various methods and assumptions which are based on market conditions prevailing in each balance sheet closing date. Interest rate swap agreements are measured at fair value using future interest rates from observable yield curves.

### 41. Risk Management

The Group is exposed through its operations to the following financial risks:

- Credit risk
- Market risk
- Interest rate risk
- Foreign exchange risk
- Other market price risk, and
- Liquidity risk.

In common with all other businesses, the Group is exposed to risks that arise from its use of financial instruments. This note describes the Group's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Group's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous year unless otherwise stated in this note.

# (i) Principal financial instruments

The principal financial instruments used by the Group, from which financial instrument risk arises, are as follows:

- Trade receivables
- Cash and cash equivalents
- Investments in quoted and unquoted equity securities
- Trade and other payables
- Bank overdrafts
- Floating-rate bank loans
- Fixed rate bank loans, and
- Interest rate swaps.

# (ii) Financial instruments by category

Financial assets and liabilities by category please refer to note 40.

# (iii) Financial instruments not measured at fair value

Financial instruments not measured at fair value include cash and cash equivalents, trade and other receivables, trade and other payables, and loans and borrowings.

Due to their short-term nature, the carrying value of cash and cash equivalents, trade and other receivables, trade and other payables approximates their fair value.

### (iv) Financial instruments measured at fair value

The fair value hierarchy of financial instruments measured at fair value is provided below. There were no transfers between levels during the period. There were no changes to the valuation techniques during the period.

For the reconciliation of the opening and closing fair value balance of level 3 financial assets, and for the sensitivity analysis of a reasonable change of the discount factor  $(\pm 1\%)$  used for the measurement of the fair value of level 3 financial instruments, please refer to note 16b.

# General objectives, policies and processes

The **Board** has overall responsibility for the determination of the Group's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and the policies to the **Risk Management Committee**. The **Board** receives monthly and quarterly reports through which it reviews and controls the effectiveness of the processes put in place and the appropriateness and the management of the objectives and policies it sets. The **Group's internal auditors** also review the risk management policies and processes and report their findings to the **Audit Committee**.

The overall objective of the Board through the Risk Management committee is to set policies that seek to reduce risk as far as possible without unduly affecting the Group's competitiveness and flexibility. Further details regarding these policies are set out below:

#### Credit risk

Ine **KISK Management Committee** has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. As far as public works are concerned, the Group's policy is to participate only in tenders where the financing is secured by the EEC funds.

# Cash in bank and short-term deposits

The **Risk Management Committee** through the **Finance Function** monitors the credit ratings of counterparties regularly and at the reporting date does not expect any losses from non-performance by the counterparties.

# Market risk

Market risk arises from the group's use of interest bearing, tradable and foreign currency financial instruments. It is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in interest rates (interest rate risk), foreign exchange (currency risk) or other market factors (other price risk).

## Interest rate risk

The Group is exposed to interest rate risk from long-term borrowings at variable rate (Euribor interest rate). For the sensitivity analysis of a reasonable change of the interest rate  $(\pm 1\%)$  for the loans, please refer to note 27.

# Foreign exchange risk

Please refer to note 9c.

### Other market price risk

The group holds some strategic investments abroad through branches, or strategic equity investments in other companies abroad for the purpose to expand its operations and diversify the relevant risks. The risk management committee believes that the above exposure is acceptable in the group's circumstances.

# Liquidity risk

The Group's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due. To achieve this aim, it seeks to maintain cash balances (or agreed facilities) to meet expected requirements analytically for a period of a month. The Board receives a 12-month cash flow projection on a monthly basis, prepared by the Finance Division which also prepares summarised 5-year budgets and cash flows which are updated on a quarterly basis.

# 42. Important Events

### Financial Results 2015

The financial results of 2015 include important non-operating losses which do not have a cash effect, rather they are accounting entries concerning the write-off of doubtful receivables and impairment of the value of Group participations. More specifically, Group financial results for 2015 were burdened by the following extraordinary and non-operating charges:

- ❖ write-off of doubtful receivables totaling €11.7 million, of which the amount of €6.5 million concerns subsidiary ATHENA's operations.
- **❖** impairment of the total value of Company participations by €63.0 million, with the amount of €43.0 million accounted for by the impairment of subsidiary ATHENA's participation, and a further €10.0 million impairment for subsidiary PROET and €10.0 million impairment for subsidiary J&P DEVELOPMENT.

### Intra-Group transaction on concession participations

Contracts for the transfer of the shares and bonds in the following BOT projects under construction from subsidiary ATHENA SA to its parent J&P-AVAX SA were signed on 01.04.2015:

- AEGEAN MOTORWAY SA (participation 5%)
- OLYMPIA MOTORWAY SA (Participation 2.1%)
- OLYMPIA MOTORWAY OPERATION SA (Participation 2.1%)

The transfer of those participations does not affect financial results at consolidated level because they constitute an intra-group transaction which does not affect total Group participation.

### Queen Alia

The company transferred its 9.5% participation in "Airport International Group", concessionaire of the Queen Alia international airport of Jordan, to associated company Joannou & Paraskevaides (Overseas) Limited. Pending the final legal approval for the transfer of ownership by the project owner, the transaction is recorded as sale of "Available for sale Financial Asset" because the buyer has received all rights and obligations arising from those shares.

The transaction produced an approximate €4.6 million profit, as the difference between the price of the transaction and the value of the participation recorded in Company books. This profit is included in 2015 financial results as "Profit/loss from associates". At the same time the balance of the account "Available for sale Financial Asset" has been reduced according to the book value of the asset, while the amount received was recorded as income in the "Financial transactions with associates"

# New Projects

Following a satisfactory year in 2014 regarding the increase in Group project portfolio, the pace of new project take-up in 2015 was substantially lower as newly added projects primarily concerned low-budget or additional works and service provision.

### Share capital increase of subsidiary ATHENA SA

The Annual General Meeting of shareholders of subsidiary ATHENA SA held on 24.06.2015 approved the increase of its share capital by €35 million, capitalising an equal amount of payable liabilities to its parent company J&P-AVAX SA. The capital increase was reserved exclusively for J&P-AVAX SA, waiving the rights of other shareholders, raising J&P-AVAX's stake in ATHENA SA from 89.5% to 92.9%. Following the approval in September of 2015 of the capital increase by the Development Ministry, the Capital Markets Commission approved in February 2016 the Information Memorandum for the investment public and the new shares were subsequently listed for trading on the Athens Stock Exchange.

### Change increase of the tax rate

The corporate tax rate from 2015 onwards was raised from 26% to 29%, in line with article 1 paragraph 4 of Law 4334/2015. The impact of this event on shareholder funds is calculated as a €6.6 million and €9.2 million reduction, respectively for the Company and the Group, while the impact on the income statement is calculated as a €1.6 million increase for the Company, and a €1.7 million increase for the Group.

# 43. Contingent Receivables and Liabilities

- (a) Litigation against the Group is proceeding for labour accidents which took place during construction works by companies or joint ventures which the Group participates in. Given that the Group is insured against labour accidents, no significant impact from contingent adverse legal decisions is expected. Other litigation or arbitration cases, as well as pending court or arbitration decisions are expected to have a significant impact on the financial status or operation of the Group or the Company, hence no provisions have been made.
- (b) A Note (C1) on tax auditing is included in the annual financial accounts
- (c) The Group has contingent liabilities in relation to banks, guarantees and other issues arising from its ordinary operations, which are not expected to yield any negative impact.

# J&P - AVAX S.A.

Company number in the General Electronic Commercial Registry: 913601000 (Former Number 14303/06/B/86/26 in the register of Societes Anonymes)
