2 Basis of Preparation

This condensed interim financial information for the **nine** months ended **30 September 2012** has been prepared in accordance with International Financial Reporting Standards (“IFRS”) as adopted by the European Union and specifically in terms of IAS 34, ‘Interim financial reporting.

The interim condensed financial report should be read in conjunction with the annual financial statements for the year ended **31 December 2011** that is available on the company’s web page www.frigoglass.com.

3 Principal accounting policies

The accounting policies adopted in preparing this condensed interim financial information are consistent with those described in the Company and Group annual financial statements for the year ended **31 December 2011**.

There have been no changes in the accounting policies used from those that were used for the preparation of the annual financial statements prepared by the Company and the Group for the year ended **31 December 2011**.

All International Financial Reporting Standards issued by the IASB and effective at the time of preparing these financial statements have been adopted by the European Commission through the endorsement procedure established by the European Commission, with the exception of certain provisions of International Accounting Standard 39 "Financial Instruments: Recognition and Measurement" relating to portfolio hedging of core deposits.

Since the Group and the Company are not affected by the provisions regarding portfolio hedging that are not required by the EU-endorsed version of IAS 39, the accompanying financial statements comply with both IFRS as adopted by the EU and IFRS issued by the IASB.

The financial statements have been prepared under the historical cost convention with the exception of derivative financial instruments that are measured at fair value.

The preparation of these interim financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgement in the process of applying the accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

New standards, amendments to standards and interpretations:

Certain new standards, amendments to standards and interpretations have been issued that are mandatory for periods beginning during the current financial year and subsequent years. The Group's evaluation of the effect of these new standards, amendments to standards and interpretations is as follows:

Standards and Interpretations effective for the current financial year

IFRS 7 (Amendment) "Financial Instruments: Disclosures" – transfers of financial assets (effective for annual periods beginning on or after 1 July 2011)

This amendment sets out disclosure requirements for transferred financial assets not derecognised in their entirety as well as on transferred financial assets derecognised in their entirety but in which the reporting entity has continuing involvement. It also provides guidance on applying the disclosure requirements. The amendment will be applied in the annual financial statements.

IAS 12 (Amendment) "Income Taxes" (effective for annual periods beginning on or after 1 January 2012)

The amendment to IAS 12 provides a practical approach for measuring deferred tax liabilities and deferred tax assets when investment property is measured using the fair value model in IAS 40 "Investment Property". This amendment has not yet been endorsed by the EU, and therefore has not been applied by the Group.

Standards and Interpretations effective from periods beginning on or after 1 January 2013

IFRS 9 "Financial Instruments" (effective for annual periods beginning on or after 1 January 2015)

IFRS 9 is the first Phase of the Board's project to replace IAS 39 and deals with the classification and measurement of financial assets and financial liabilities. The IASB intends to expand IFRS 9 in subsequent phases in order to add new requirements for impairment and hedge accounting. The Group is currently investigating the impact of IFRS 9 on its financial statements. The Group cannot currently early adopt IFRS 9 as it has not been endorsed by the EU. Only once approved will the Group decide if IFRS 9 will be adopted prior to 1 January 2015.

IFRS 13 “Fair Value Measurement” (Effective for annual periods beginning on or after 1 January 2013)

IFRS 13 provides new guidance on fair value measurement and disclosure requirements. These requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRSs. IFRS 13 provides a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs. Disclosure requirements are enhanced and apply to all assets and liabilities measured at fair value, not just financial ones. This standard has not yet been endorsed by the EU.

IFRIC 20 “Stripping costs in the production phase of a surface mine” (Effective for annual periods beginning on or after 1 January 2013)

This interpretation sets out the accounting for overburden waste removal (stripping) costs in the production phase of a mine. The interpretation may require mining entities to write off existing stripping assets to opening retained earnings if the assets cannot be attributed to an identifiable component of an ore body. IFRIC 20 applies only to stripping costs that are incurred in surface mining activity during the production phase of the mine, while it does not address underground mining activity or oil and natural gas activity. This interpretation has not yet been endorsed by the EU.

IAS 1 (Amendment) “Presentation of Financial Statements” (effective for annual periods beginning on or after 1 July 2012)

The amendment requires entities to separate items presented in other comprehensive income into two groups, based on whether or not they may be recycled to profit or loss in the future.

IAS 19 (Amendment) “Employee Benefits” (effective for annual periods beginning on or after 1 January 2013)

This amendment makes significant changes to the recognition and measurement of defined benefit pension expense and termination benefits (eliminates the corridor approach) and to the disclosures for all employee benefits. The key changes relate mainly to recognition of actuarial gains and losses, recognition of past service cost / curtailment, measurement of pension expense, disclosure requirements, treatment of expenses and taxes relating to employee benefit plans and distinction between “short-term” and “other long-term” benefits.

IFRS 7 (Amendment) “Financial Instruments: Disclosures” (effective for annual periods beginning on or after 1 January 2013)

The IASB has published this amendment to include information that will enable users of an entity's financial statements to evaluate the effect or potential effect of netting arrangements, including rights of set-off associated with the entity's recognised financial assets and recognised financial liabilities, on the entity's financial position. This amendment has not yet been endorsed by the EU.

IAS 32 (Amendment) “Financial Instruments: Presentation” (effective for annual periods beginning on or after 1 January 2014)

This amendment to the application guidance in IAS 32 clarifies some of the requirements for offsetting financial assets and financial liabilities on the statement of financial position. This amendment has not yet been endorsed by the EU.

Group of standards on consolidation and joint arrangements (effective for annual periods beginning on or after 1 January 2013)

The IASB has published five new standards on consolidation and joint arrangements: IFRS 10, IFRS 11, IFRS 12, IAS 27 (amendment) and IAS 28 (amendment). These standards are effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted only if the entire “package” of five standards is adopted at the same time. These standards have not yet been endorsed by the EU. The Group is in the process of assessing the impact of the new standards on its consolidated financial statements. The main provisions are as follows:

IFRS 10 “Consolidated Financial Statements”

IFRS 10 replaces all of the guidance on control and consolidation in IAS 27 and SIC 12. The new standard changes the definition of control for the purpose of determining which entities should be consolidated. This definition is supported by extensive application guidance that addresses the different ways in which a reporting entity (investor) might control another entity (investee). The revised definition of control focuses on the need to have both power (the current ability to direct the activities that significantly influence returns) and variable returns (can be positive, negative or both) before control is present. The new standard also includes guidance on participating and protective rights, as well as on agency/ principal relationships.

IFRS 11 “Joint Arrangements”

IFRS 11 provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form. The types of joint arrangements are reduced to two: joint operations and joint ventures. Proportional consolidation of joint ventures is no longer allowed. Equity accounting is mandatory for participants in joint ventures. Entities that participate in joint operations will follow accounting much like that for joint assets or joint operations today. The standard also provides guidance for parties that participate in joint arrangements but do not have joint control.

IFRS 12 “Disclosure of Interests in Other Entities”

IFRS 12 requires entities to disclose information, including significant judgments and assumptions, which enable users of financial statements to evaluate the nature, risks and financial effects associated with the entity’s interests in subsidiaries, associates, joint arrangements and unconsolidated structured entities. An entity can provide any or all of the above disclosures without having to apply IFRS 12 in its entirety, or IFRS 10 or 11, or the amended IAS 27 or 28.

IFRS 10, IFRS 11 and IFRS 12 (Amendment) “Consolidated financial statements, joint arrangements and disclosure of interests in other entities: Transition guidance”

The amendment to the transition requirements in IFRSs 10, 11 and 12 clarifies the transition guidance in IFRS 10 and limits the requirements to provide comparative information for IFRS 12 disclosures only to the period that immediately precedes the first annual period of IFRS 12 application. Comparative disclosures are not required for interests in unconsolidated structured entities.

IAS 27 (Amendment) “Separate Financial Statements”

This Standard is issued concurrently with IFRS 10 and together, the two IFRSs supersede IAS 27 “*Consolidated and Separate Financial Statements*”. The amended IAS 27 prescribes the accounting and disclosure requirements for investment in subsidiaries, joint ventures and associates when an entity prepares separate financial statements. At the same time, the Board relocated to IAS 27 requirements from IAS 28 “*Investments in Associates*” and IAS 31 “*Interests in Joint Ventures*” regarding separate financial statements.

IAS 28 (Amendment) “Investments in Associates and Joint Ventures”

IAS 28 “*Investments in Associates and Joint Ventures*” replaces IAS 28 “*Investments in Associates*”. The objective of this Standard is to prescribe the accounting for investments in associates and to set out the requirements for the application of the equity method when accounting for investments in associates and joint ventures, following the issue of IFRS 11.

Amendments to standards that form part of the IASB’s 2011 annual improvements project

The amendments set out below describe the key changes to IFRSs following the publication in May 2012 of the results of the IASB’s annual improvements project. These amendments are effective for annual periods beginning on or after 1 January 2013 and have not yet been endorsed by the EU.

IAS 1 “Presentation of financial statements”

The amendment clarifies the disclosure requirements for comparative information when an entity provides a third balance sheet either (a) as required by IAS 8 “Accounting policies, changes in accounting estimates and errors” or (b) voluntarily.

IAS 16 “Property, plant and equipment”

The amendment clarifies that spare parts and servicing equipment are classified as property, plant and equipment rather than inventory when they meet the definition of property, plant and equipment, i.e. when they are used for more than one period.

IAS 32 “Financial instruments: Presentation”

The amendment clarifies that income tax related to distributions is recognised in the income statement and income tax related to the costs of equity transactions is recognised in equity, in accordance with IAS 12.

IAS 34, ‘Interim financial reporting’

The amendment clarifies the disclosure requirements for segment assets and liabilities in interim financial statements, in line with the requirements of IFRS 8 “Operating segments”.

4 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under current circumstances.

4.1 Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year concern income tax and goodwill.

4.1.1 Income Taxes

The Group is subject to income taxes in numerous jurisdictions. Significant judgement is required by the Group Management in determining the worldwide provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain. If the final tax outcome is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax.

4.1.2 Estimated impairment of goodwill

The Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in Note 2.6.1. of the annual financial statements. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of estimates (see Note 7).

4.2 Critical judgements in applying the entity's accounting policies

There are no areas that Management required to make critical judgements in applying accounting policies.

Note 5 - Segment Information

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. Taking into account the above, the categorization of the Group's operations in business segments is the following:

- Ice Cold Merchandise (ICM) Operations
- Glass Operations

Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. At each balance sheet date the Group performs an analysis to assess whether the carrying amount of goodwill is recoverable. Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is performed on the cash-generating units that are expected to benefit from the acquisition from which goodwill was derived.

The existing goodwill, which resulted from the business combination of Frigoglass Turkey Soğutma Sanayi İç ve Dış Ticaret Anonim Şirketi (Istanbul, Turkey), Frigoglass North America Ltd. Co, Baffington Road LLC (South Carolina, America) and Frigoglass Jebel Ali FZCO (Dubai), has been allocated to cash generating units related to the Group's operations in Turkey, America and Dubai for the respective subsidiaries.

The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations are based on cash flow projections, prepared as at **31 December 2011**, which require the use of estimates approved by Management and covering a five year period.

The key assumptions used for the Value-in-use calculation are as follows:

Discount rate (pre-tax): 14%, Gross margins: 11%-20% , Perpetuity growth rate: 2%

As at **31 December 2011**, if any of the assumptions used were 10% lower or higher, the Group would not need to reduce the carrying value of goodwill.

The extent of the Group's and Parent company's exposure to fluctuations in interest rate due to market or contractual changes is considered to be less than six months.

The fair value of current and non current borrowings closely approximates their carrying value, since the company borrows at floating interest rates, which are renegotiated in periods shorter than six months.

There are no pledged assets for the Group as at **30/09/2012** (31/12/2011: € 0.2 mil).

There are no pledged assets for the Parent Company as at **30/09/2012** and **31/12/2011**.

On 29/07/2011, the Group finalized the process of renewing and refunding the syndicated bank loan that was first agreed on 15/06/2009.

The amount borrowed has been reverted to € 75 mil. and the duration of the loan has been extended until July 2014.

There are no encumbrances or pledges over the Parent Company's or the Group's assets.

However the Group is required to comply with covenants relating to the sufficiency of solvency, profitability and liquidity ratios as described below:

- Net debt to total equity
- Net debt to earnings before interest tax depreciation and amortization (EBITDA)
- EBITDA to net interest expense

A statutory reserve is created under the provisions of Hellenic law (Law 2190/20) according to which, an amount of at least 5% of the profit (after tax) for the year must be transferred to this reserve until it reaches one third of the paid up share capital. The statutory reserve can not be distributed to the shareholders of the Company except for the case of liquidation.

The share option reserve refers to a share option program with beneficiaries the Company's BoD and employees and is analyzed in Note 15 of the annual financial statements.

The Company has created tax free reserves, taking advances off various Hellenic Taxation laws, during the years, in order to achieve tax deductions, either

- a) by postponing the tax liability till the reserves are distributed to the shareholders, or
- b) by eliminating any future income tax payment by issuing new shares for the shareholders of the company.

Should the reserves be distributed to the shareholders as dividends, the distributed profits will be taxed with the rate that will be in effect at the time of the profits distributions.

No provision has been created in regard to the possible income tax liability in the case of such a future distribution of the reserves the shareholders of the company as such liabilities are recognized simultaneously with the dividends distribution.

On the 31st of May 2011, the Annual General Meeting of the shareholders resolved the capitalization of € 8,001 thousands of tax free reserves (see Note 15).

Note 18 - Income Tax

The tax rates in the countries where the Group operates are between **10%** and **38.3%**.

Some of non deductible expenses and the different tax rates in the countries that the Group operates, create an effective tax rate for the Group of 43.41% (Hellenic taxation rate is 20%)

Unaudited tax years

The tax returns of the Parent Company and the Group's subsidiaries have not been assessed by the tax authorities for different periods.

For the parent company, the "Tax Compliance Report" for the financial year 2011 has been issued with no substantial adjustments with respect to the tax expense and corresponding tax provision as reflected in the annual financial statements for 2011. According to the relevant legislation, the parent company's financial year ending 31 December 2011 will be considered final for tax audit purposes after eighteen months from the submission of the "Tax Compliance Report" to the Ministry of Finance.

Until the tax audit assessment for the companies described in the table above are finalized, the tax liability can not be reliably measured for those years. The Group provides additional tax in relation to the outcome of such tax assessments, to the extent that a liability is probable and estimable.

Note: For some countries the tax audit is not obligated and is taken place under specific requirements.

Note 21 - Earnings per share

Basic & Diluted earnings per share

Basic and Diluted earnings per share are calculated by dividing the profit attributable to shareholders, by the weighted average number of ordinary shares in issue during the year, excluding ordinary shares purchased by the company (treasury shares).

The diluted earnings per share are calculated adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Company has one category of dilutive potential ordinary shares: share options. For the share options a calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average annual market share price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding share options. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the share options. The difference is added to the denominator as an issue of ordinary shares for no consideration. No adjustment is made to net profit (numerator).

Note 22 - Contingent liabilities

The Parent company has contingent liabilities in respect of bank guarantees on behalf of its subsidiaries arising from the ordinary course of business as follows:

The Parent Company's bank guarantees on behalf of its subsidiaries were:

	Parent Company	
	30/09/2012	31/12/2011
Bank guarantees	486,959	484,421

The Group did not have any contingent liabilities as at **30/09/2012** and **31/12/2011**.

There are no pending litigation, legal proceedings, or claims which are likely to affect the financial statements or the operations of the Group and the Parent company.

The tax returns for the Parent Company and for the Group subsidiaries have not been assessed by the tax authorities for different periods. (see Note 18). The management of the Group believes that no significant additional taxes other than those recognized in the financial statements will be assessed.

Note 23 - Seasonality of Operations

Net sales revenue

Quarter	Consolidated							
	2009		2010		2011		2012	
Q1	73,629	21%	93,213	20%	134,826	24%	159,117	36%
Q2	107,914	31%	142,775	31%	187,655	34%	179,088	41%
Q3	71,240	21%	110,627	24%	116,085	21%	100,689	23%
Q4	93,872	27%	110,605	24%	116,647	21%	-	0%
Total Year	346,655	100%	457,220	100%	555,213	100%	438,894	100%

As shown above the Group's operations exhibit seasonality and therefore interim period sales should not be used for forecasting annual sales.

Consequently the level of the working capital required for the certain months of the year may vary.

Note 27- Business Combinations

On 19 April 2011, Frigoglass announced that it has reached an agreement to acquire 80% of the shareholding in the Dubai-based glass bottle and jar manufacturer, Jebel Ali Container Glass Factory Fze (JAG).

JAG, is located in the Jebel Ali Free Zone and produces glass bottles and jars for beverage and food companies. Since the start of operations in 1997, JAG has been a competitive player in the international market with exports to South and East Africa, which provides a complementary regional fit for the Frigoglass Glass Operations currently focused in West Africa. Furthermore, JAG exports to Asia, the fastest growing market for glass, and to Europe, thus providing Frigoglass the opportunity to capitalize on its strong position in several markets and to further strengthen its customer relationships in these regions.

Within its 68,000m2 facility, JAG houses state-of-the-art machinery and equipment. Currently, the total number of employees is 340 people with strong technical experience.

The strong technical expertise of JAG, together with the long-standing customer relationships and its attractive market presence, will drive the continued growth of Frigoglass Glass Operations. Through this deal, Frigoglass will be able to increase the geographic reach of its Glass business to Europe as well as to fast growth markets such as East and South Africa and Asia, where demand for glass containers has consistently outstripped supply in recent years.

In May 2011, Jebel Ali Container Glass Factory Fze (JAG) was renamed to Frigoglass Jebel Ali FZCO.

Trading derivatives are classified as a current asset or liability. The full fair value of a hedging derivative is classified as a non-current asset or liability if the remaining maturity of the hedged item is more than 12 months and, as a current asset or liability, if the maturity of the hedged item is less than 12 months.

For 2012, there was no ineffective portion arising from cash flow hedges.

Gains and losses relating to the effective portion of the hedge are recognized in the hedging reserve in the Statement of Comprehensive Income. Subsequently these amounts are recognized in the income statement in the period or periods during which the hedged forecast transaction affects the income statement unless the gain or loss is included in the initial amount recognized for the purchase of inventory or fixed assets. These amounts are ultimately recognized in cost of goods sold in case of inventory or in depreciation in the case of fixed assets.

In terms of an amendment to IFRS 7, for 2012, the Company and the Group must disclose the basis of determining the fair value of financial instruments that are presented in the Balance Sheet. The only financial instruments at fair value presented in the balance sheet are the derivative financial instruments that are detailed in the tables above. These derivative financial instruments are measured in terms of the "Level 2" fair value hierarchy, that is described in IFRS 7. The "Level 2" fair value hierarchy refers to fair value measurements that are based on inputs that are directly or indirectly observed in an active market.
