

The Athens Exchange Group Hosts the ATHEX Tech Summit 2025 for the Second Consecutive Year on May 14 at the Athens Conservatory

The Athens Exchange Group, recognizing the rapid advancements in digital technologies and their critical role in boosting business competitiveness and productivity, is proud to host the ATHEX Tech Summit 2025 for a second consecutive year. Following the success of the inaugural event in 2024, the summit returns as a key meeting point for leading companies, technology providers, and industry professionals.

Aimed at senior executives from both listed and non-listed companies, the conference will provide insights into the latest trends and breakthroughs in digital technology, delivered by top industry experts. In addition to thought-provoking talks, participants will explore cutting-edge solutions and applications designed to equip businesses with the tools and knowledge needed for the next stage of their digital transformation.

This year's agenda will spotlight key areas critical to business transformation, including:

- Generative AI (GenAI): Real-world applications and emerging opportunities
- Data Analytics: Leveraging data as a strategic asset
- Cybersecurity & Compliance: Adapting to the EU's NIS 2 and DORA regulations
- Infrastructure Modernization: Strategic approaches for upgrading core systems

The event will open with a keynote address by the Minister of Digital Governance, Mr. Dimitris Papastergiou, while the main keynote will be delivered by Professor George Doukidis, Chair of E-Business at the Athens University of Economics and Business.
