Commencement of Trading of Real Consulting Shares on the Main Market

The Athens Stock Exchange today welcomed the Management, executives, and partners of Real Consulting to celebrate the commencement of trading of its shares on the Main Market. The session was officially opened by Mr. Nicos V. Vardinoyannis, Chairman, and Mr. Anastasios Papargyris, Vice Chairman of the Board of Directors.

Mr. **Yianos Kontopoulos, CEO of the Athens Exchange Group**, noted: “Real Consulting is the fifth company from the Alternative Market to take the next step towards the Organized Market. Having joined the Alternative Market in August 2021, the company has quintupled its market capitalization in a short period—from €22 million to approximately €112 million today. The Alternative Market has consistently served as a true incubator for Greece’s dynamic SMEs, offering a flexible framework that allows companies to raise capital, strengthen their profile, and gain valuable experience in meeting capital market requirements.”

Mr. **Nicos V. Vardinoyannis, Chairman of Real Consulting**, stated: “The trading of our shares on the Main Market marks an important milestone in our continuous progress. This development reflects our commitment to the Greek market as we steadily pursue excellence, innovation, and the creation of long-term value.”

Ms. **Dionysia Karatza, CEO of Real Consulting**, added: “After 25 years of growth and achievement, Real Consulting is opening a new, highly significant chapter with its entry into the Main Market. We are now in a strong position to accelerate our growth and investments in innovative technologies and solutions. I sincerely thank our partners, shareholders, and clients for their enduring trust and support, which remain the driving force behind our success.”

Finally, Mr. **Michalis Fekkas, Vice President of the Hellenic Capital Markets Commission**, underlined: “Transferring from the Alternative to the Main Regulated Market is not merely a change of board, but a transition to a more demanding framework of corporate governance, transparency, and supervision. For Real Consulting, this move signals both greater responsibilities and a new, optimistic beginning—for the company and for the Greek capital market.”
