

OPAP selects Investor Relations and Shareholder Management solution RegiStar by Profile Software

Athens, 14 October 2025: [Profile](#), a leading financial solutions provider, announces that [OPAP](#), the leading gaming group in Greece and Cyprus and one of the most renowned in the industry worldwide, listed on the FTSE/Athex Large Cap index, has selected, after a procurement tender procedure, the [RegiStar](#) solution to enhance the management of its shareholder transactions and services.

The implementation of the solution allows the organisation to improve the transparency and efficiency of its operations, while providing advanced capabilities for monitoring and managing shareholder data.

Profile's RegiStar solution is a comprehensive and flexible platform that offers the necessary tools for monitoring changes made in the shareholder registry, handling corporate actions, complying with regulatory requirements, and generating reports. With automated transaction recording, customisable alerts, and secure data access, this solution enables OPAP to effectively manage its services to shareholders and obligations to regulatory authorities.

Additionally, the platform fully supports shareholder communication workflows, enabling the management of requests, dividend distribution, and the provision of personalised reports. The solution's flexibility and automation ensure reduced operational costs and enhanced shareholder experience.

Mr. Nikos Polymenakos, IR Director at OPAP, commented: "Profile has consistently proved its role as a reliable and longstanding partner of OPAP. We welcome the enhanced product solution, with its modern features and user-friendly interface, which effectively addresses our evolving business, and compliance needs while contributing to the seamless delivery of our services to Shareholders."

Mr. Evangelos Angelides, CEO at Profile, stated: "We are pleased that OPAP has selected our solution, RegiStar, the most effective and widely adopted solution in the local market, for managing its shareholder registry. Our technology ensures automation, accuracy, and optimisation of processes, enhancing the transparency and efficiency of shareholder management."

RegiStar is a next-generation solution in Investor Relations Management. As a fully modular Shareholder Management solution with cloud capability, it prioritises security and offers a reliable and robust environment for managing investor relations, ensuring transparency, regulatory compliance, and automation of critical processes for all listed and multi-shareholder companies.
