

PRESS RELEASE

Brussels, 10 March 2026-5:40 pm CET

Hellenic Cables signed long-term framework agreement with Alliander for MV and LV power cables

Cenergy Holdings announces that Hellenic Cables, its cables segment, signed a long-term framework agreement with Alliander N.V., one of the leading network companies in the Netherlands, for the supply of medium-voltage (MV) and low-voltage (LV) power cables. The agreement forms part of Alliander's largest cable tender to date, supporting its multiyear investment programme to expand and reinforce the Dutch electricity grid.

The framework agreement has a duration of up to eight (8) years (2026-2034). Under the agreement, Hellenic Cables will undertake the design, production and delivery of MV and LV cables. The cables will be manufactured at Hellenic Cables' state-of-the-art facility in Thiva, Greece, where the company upholds high quality and sustainability standards. Following recent investments, the plant now operates at more than double its previous capacity.

This collaboration supports the accelerating energy transition in the Netherlands by contributing to the upgrade and modernisation of distribution networks. As electricity demand rises and renewable energy integration grows, high quality and reliable cable systems are essential to strengthen network resilience and ensure long-term security of supply.

Christos Apostolakis, Commercial Senior Director Onshore Cable Solutions of Hellenic Cables, stated: *"This long-term framework agreement with Alliander highlights the trust placed in Hellenic Cables as a reliable partner for network operators in Europe. Through this collaboration, our company supports, modernises and strengthens the Dutch power grid with high-quality cable solutions and long-term commitment."*

About Cenergy Holdings

Cenergy Holdings is a Belgian holding company listed on both Euronext Brussels and Athens Stock Exchange, investing in leading industrial companies, focusing on the growing global demand of energy transfer, renewables and data transmission. The Cenergy Holdings portfolio consists of Corinth Pipeworks and Hellenic Cables, companies positioned at the forefront of their respective high growth sectors. Hellenic Cables is one of the largest cable producers in Europe, manufacturing power and telecom cables as well as submarine cables. Corinth Pipeworks is a world leader in steel pipe manufacturing for the energy sector and major producer of steel hollow sections for the construction sector.
